

Population Served

- Focused on East Lubbock but anyone affected by sexual violence or sex trafficking in the area
- Minors are the largest population they serve

Services Provided

- 24-hour crisis hotline
- Provide advocates and sexual assault nurses in ER with victim
- Counseling services
- Community education and prevention
- Provide outside resources and locate emergency housing

Clients' Health Needs

Several clients come in with a variety of health issues:

- Poor diet/severely malnourished
- Sleep deprived
- Lack of dental care
- Active STIs

Clients' Health Information Needs

- Medical Professionals and Lubbock community members can stay informed
- Self-education on sexual trafficking
- Volunteer or purchase essential supplies (link below)

Advice for Physicians

- Be informed-get to know resources that can be provided to patients
- Be open-minded and show compassion, sympathy, and understanding
- Connection is key--let your patients feel seen, heard, and supported

NEVER victim blame

Effects of COVID-19

- Fewer victims went to the emergency room or notified their school staff
- Some disliked Zoom counseling
- Funding problems
