Providing Help, Creating Hope, Serving all People

In August, a family who was working with a Youth and Family case manager told her that they were really struggling with their bills. They had fallen behind on their electric bill because the dad was out of work due to COVID-19. They also weren't sure how they were going to afford school supplies for their children. Catholic Charities was able to pay their utility bill and give them school supplies for the year. The kids were so excited when they received their new backpacks, filled with what they needed to have a great start to the year. And, mom and dad were relieved they were no longer behind on their bills. Dad has since found new work and the family is getting back to normal.
