Alpha Omega Alpha Medical Honor Society

Alpha Omega Alpha Honor Medical Society, a professional medical organization, recognizes and advocates for excellence in scholarship and the highest ideals in the profession of medicine. Alpha Omega Alpha is to medicine what Phi Beta Kappa is to letters and the humanities and Sigma Xi is to science. Our values include honesty, honorable conduct, morality, virtue, unselfishness, ethical ideals, dedication to serving others, and leadership. Members have a compelling drive to do well and to advance the medical profession and exemplify the highest standards of professionalism.

The top 25 percent of a medical school class is eligible for nomination to the society, and up to 16 percent may be elected based on leadership, character, community service, and professionalism. Members may also be elected by chapters after demonstrating scholarly achievement and professional contributions and values during their careers in medicine. Distinguished professionals may also be elected to honorary membership.

More than fifty Nobel Prize winners in Physiology or Medicine, and in Chemistry, have been AΩA members. More than thirty of those were elected to AΩA prior to winning the Nobel Prize.

AΩA annually grants more than \$1.75 million to medical students, residents, fellows, mid-career physicians, and faculty for awards, projects, and prizes that recognize outstanding commitment and dedication to caring for others and providing high quality health care.

The Gold Humanism Honor Society

Gold Humanism Honor Society (GHHS) honors senior medical students, residents, role-model physician teachers and other exemplars recognized for “demonstrated excellence in clinical care, leadership, compassion and dedication to service.” Organized to elevate the values of humanism and professionalism within the field of medicine and its constituent institutions, the Society continues to be integrated into the medical education environment.

GHHS is a steadfast advocate for humanism through activities on campus and has ongoing involvement with its inclusive membership. Moreover, it helps to establish relationships with practicing physicians. Election of exemplars to Gold Humanism Honor Society makes a significant statement to medical school faculty, students, and the public that an institution places high value on the interpersonal skills and attitudes that are essential for excellent patient care.

Inspiration for GHHS began in the late 1990s, when medical educators and residency program directors expressed the need for a mechanism to identify applicants for internships and residencies who have both outstanding clinical and interpersonal skills. Currently, 170 medical schools and 14 graduate medical education programs have GHHS chapters.

“The practice of medicine is an art, not a trade; a calling, not a business; a calling in which your head will be exercised equally with your heart.”

~ Sir William Osler

Medicine must be viewed as both art and science. It is the art of understanding humankind in the context of disease-not just recognizing or diagnosing the pathological condition, but seeing how an individual's disease is a product of his or her whole life. By exploring medicine through the lenses of medical humanities, ethics, spirituality, narrative, law, and the arts, students gain insights into the nature of the human condition, human suffering, personhood, and the responsibilities of individuals to one another in sickness and in health.

Taken together, these disciplines offer physicians-in-training an enriched understanding of the dynamic relationship between medicine and the larger social world of which it is a part. The very technology that advances the science of medicine places new demands on the physician to address quality of life and complex ethical issues that represent new challenges to the field of medicine. Never before has the art of medicine been so important.

The following Class of 2022 graduates have distinguished themselves as John P. McGovern, M.D., scholars in Medical Humanities and Ethics.

Gold Headed Cane

Gold Headed Cane Award

Class of 2022

The Gold Headed Cane Award is a long-standing tradition in medicine begun by the Royal College of Physicians in London. The College selected a physician they deemed to be an outstanding practitioner to carry the cane. Dr. John Radcliffe was the first documented physician to carry the Gold Headed Cane in England from 1689 to 1714. Between 1689 and 1825, the cane was presented to five distinguished British physicians: Radcliffe, Mead, Askew, Pitcairn, and Baille. None of these men made contributions to the medical literature, but all were outstanding clinicians, who exemplified the ultimate in consideration for patient care. The Gold-Headed Cane carried by these men now rests in the Museum of the Royal College of Physicians in London.

The American Association of Pathologists and Bacteriologists brought the tradition to America in 1919, presenting the award to Dr. Harold Ernst, Professor of Pathology at Harvard. From Harvard the Cane tradition was picked up by societies in California, Pennsylvania, and Texas. Dr. William J. Kerr, who initiated the awarding of the Gold Headed Cane at the University of California in 1939, felt that while the science of medicine had been appropriately recognized and rewarded, the art of medicine “should be more forcibly brought to the attention of students, faculty, and to all those concerned with the care of patients.” A number of medical schools in the United States have since adopted the symbol to recognize excellence in clinical medicine.

The Gold Headed Cane was first presented at the Texas Tech University Health Sciences Center School of Medicine in 1977. The recipient is selected jointly by students and faculty as the individual who best exemplifies those attributes that are most desirable in the competent and caring physician. A gold band with the recipient’s name is added each year to the shaft of the cane, which is kept on display in the Preston Smith Library of the Health Sciences.

Oath of Hippocrates

*I do solemnly swear by that which I hold most sacred,
that I will be loyal to the Profession of Medicine and
just and generous to its members.*

*That I will lead my life and practice my art in uprightness and
honor.*

*That into whatever house I will enter, it shall be for the good of the
sick to the utmost of my power.*

*I, holding myself aloof from wrong, from corruption,
from the tempting of others to vice, that I will exercise
my art solely for the cure of my patient and will give
no drug, perform no operation for a criminal purpose,
even if solicited, far less suggest it.*

*That whatsoever I shall see or hear of the lives of men or women
which is not fitting to be spoken, I will keep inviolably secret.*

*These things do I promise. And in proportion as I am
faithful to this, my oath, may happiness and good
repute be ever mine. In the opposite if I shall be
foresworn.*
