

Welcome School of Medicine Class of 2022!

R. Lisa Popp Ph.D.
Associate Professor
Department of Medical Education

Interprofessional Collaborative Practice

- Part of your training during your 4 years of medical school will include preparing you to become an effective member of a Healthcare team composed of other Healthcare Professionals with the shared goal to provide the best patient care possible

- ▣ You will learn to do this through Interprofessional Education or IPE

- ▣ **IPE requirements for all students enrolled in TTUHSC curricula are:**
 - complete the Introductory IPE on-line modules
 - complete the requirements for one institutionally approved-interprofessional and collaborative practice learning activity (IPECPLA)
 - ▣ Easy requirement to achieve as IPECPLAs are integrated within the SOM curriculum.

Definition of Interprofessional Education

“When students from two or more professions learn about, from and with each other to enable effective collaboration and improve health outcomes”

Mandatory On-line IPE Modules

- ☐ There are 6 on-line IPE modules each about 20 – 45 minutes in length and these constitute a course entitled “Foundations for Interprofessional Collaborative Practice”

- ☐ **Prior to your SOM Orientation on August 1, 2018, please complete the Modules**
- ☐ **Included with this PP presentation are:**
 - **Objective for the modules / course**
 - **Detailed instructions on the location of the modules and how to login to complete the modules and get credit for the course**

Thank You

Please go to the word document
“Login instructions for IPE on-line
modules”
