This catalog, an official publication of Texas Tech University Health Sciences Center (TTUHSC) School of Nursing, contains policies, regulations, procedures, programs, courses, schedules and fees in effect when the Catalog is posted on the website. A student is expected to complete the degree requirements set forth in the School of Nursing Catalog in effect at the time the student enters the program. Students readmitted to the TTUHSC School of Nursing are expected to complete the degree requirements set forth in the Catalog that is current at the time of readmission. Only with the specified approval of the appropriate department chair may a different Catalog be selected. In no case, may a student complete the requirements set forth in a catalog more than seven years old. The Catalog is published at least biennially and the provisions are applicable during the stated school year. Other conditions of graduation and the curriculum program are outlined in detail in the School of Nursing Student Handbook.

The provisions of the Catalog do not constitute a contract, expressed or implied, between any applicant or student and faculty member in the TTUHSC School of Nursing. The TTUHSC School of Nursing reserves the right to withdraw courses at any time, change fees, calendars, curricula, graduation procedures, and any other requirement affecting students. Changes become effective when the proper authorities determine the application to both prospective students and to the students already enrolled.

TTUHSC is open to all persons, regardless of race, color, religion, disability, sex, national origin, or sexual orientation, who are eligible for admission as students. TTUHSC is an Equal Opportunity Institution and no applicant or student will be discriminated against because of race, creed, religion, disability, sex, national origin, or sexual orientation during the course of education at this institution.

About TTUHSC

Welcome to the University

The Texas Tech University Health Sciences Center School of Nursing is the best choice for a comprehensive, state-of-the-art nursing education.

The School of Nursing is known for its outstanding faculty, and is a pioneer in distance education. At a time when nurses are greatly needed in the state of Texas, our School of Nursing is offering new and innovative educational programs to the next generation of health care professionals throughout Texas. Upon graduation, you will join our alumni in serving hospitals and clinics, influencing state and national policymakers, conducting research and teaching across the nation.

I commend you on your decision to join the Texas Tech family, and wish you a rewarding and successful future.

Kent Hance, Chancellor
Texas Tech University System
Welcome to Texas Tech University Health Sciences Center where we trust you’ll discover an exciting, vibrant, growing university established on a rich foundation of serving the people of West Texas. I congratulate you on selecting a profession in which you will dedicate yourself to improving the lives of others.

At the School of Nursing, you have the opportunity to learn from a nursing faculty recognized nationally as experts in their field and to perfect your skills in a state-of-the-art environment. The school’s interprofessional approach to education will prepare you for the collaborative nature of today’s health care work force.

Thank you for joining in our mission of improving the health of people in West Texas and beyond.

Ted Mitchell, M.D., President
Texas Tech University Health Sciences Center

You have chosen to join a school whose faculty and staff are dedicated to your success. Our goal is to produce well-prepared nurses who make a positive difference in the health care arena.

From here, there are endless possibilities for your professional nursing career. Whether your goal is to complete a bachelor’s, master’s, or doctoral degree, our rich, diverse learning experiences and expert faculty will prepare you for the challenges ahead. Your educational journey will give you opportunities to contribute through practice, education, scholarship, and service.

We welcome you to the Texas Tech University Health Sciences Center School of Nursing and look forward to sharing this enriching experience with you.

Michael L. Evans, PhD, RN, FAAN

The mission of the Texas Tech University Health Sciences Center is to improve the health of people by providing high educational opportunities for students and health care professionals, advancing knowledge through scholarship and research, and providing patient care and service. The Texas Tech University Health Sciences Center fulfills its higher education mission by achieving the following institutional strategic goals:

- Train competent health professionals, scientists, and educators,
- Increase externally funded, peer-reviewed research, especially NIH-funded research,
- Improve access to quality health care for the TTUHSC’s target populations,
- Prepare health professions students for an increasingly diverse workforce and patient population,
- Provide leadership in the development of partnerships and collaborations to improve community health,
- Operate the TTUHSC as an efficient and effective institution.

**Vision**
Texas Tech University Health Sciences Center will be a nationally recognized health sciences university.

**Brief History**
The Texas Tech University School of Medicine was created by the 61st Texas Legislature in May, 1969 as a multi-campus institution with Lubbock as the administrative center, and with regional campuses at Amarillo, El Paso, and Odessa. In 1979, the charter was expanded to become the Texas Tech University Health Sciences Center (TTUHSC), leading the way for establishment of the Schools of Nursing and Allied Health Sciences and the Graduate School of Biomedical Sciences. In 1993, the legislature authorized the establishment of a School of Pharmacy to be located in Amarillo. In addition, Allied Health Sciences programs were expanded to Amarillo and the Permian Basin. In 2003, the legislature authorized the establishment of a four-year medical school in El Paso, and in 2011, the Gayle Greve Hunt School of Nursing was established, also located in El Paso. The seven schools are committed to regionalized, multi-campus educational experiences, and to the related biomedical research, graduate studies, patient care, and community service required of a health sciences center. A primary effort is made to achieve a balanced group of students with qualified minority students, diverse age groups, and heterogeneous backgrounds in educational and life experiences. A special effort is made to recruit applicants from West Texas and from rural and border communities.

The Health Sciences Center has as its major objectives the provision of quality education and the development of academic, research, patient care, and community service programs to meet the health care needs of the 108 counties of West Texas, which comprise 50% of the land mass
and 11% of the population of the total state. This 131,000 square mile service area and population of 2.7 million has been, and remains highly underserved by health professionals and accessible health care facilities, despite the substantial and meaningful contribution made by our institution. Demographic shifts in West Texas populations, as well as socioeconomic and epidemiologic characteristics of its subgroups, create major and specific demands for service. While education of students and residents remains the primary focus of the institution, there has been an important impact on the health status of West Texas. The lack of a single locus of population density has resulted in the regionalization of medical and health care education and patient care on multiple geographically separated campuses. In providing an excellent quality undergraduate, graduate, and continuing health professional education at each site, the health needs of the larger community have been better met and relevant indices of health status demonstrate significant improvement.

**Texas Tech University Health Sciences Center Accreditation**
Texas Tech University Health Sciences Center is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award baccalaureate, masters, doctoral, and professional degrees. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia, 30033-4097, or call 404.679.4500 for questions about accreditation of the Texas Tech University Health Sciences Center. The Commission should be contacted only if there is evidence that appears to support the institution's significant non-compliance with a requirement or standard. A member of Texas Tech University System, TTUSHC has been accredited by the Southern Association of Colleges and Schools Commission on Colleges as an institution separate from Texas Tech University since 2004.
TTUHSC School of Nursing Information

Mission
The mission of Texas Tech University Health Sciences Center School of Nursing is to educate nursing professionals for improving public health through research, inter-professional teamwork, patient care, community engagement, and service.

Vision
The School of Nursing will be nationally recognized, propelled by visionary leadership, innovative educational programs, and a commitment to robust research and practice programs.

Values
Our values adhere to the highest standards of integrity and quality related to innovative education, practice, research, and service. We value:

- Individual uniqueness
- A spirit of trust, caring, open communication, and team work
- Loyal, creative, and culturally diverse students, faculty, and staff
- A dedicated community of stakeholders

Brief History
The Texas Tech University of Health Sciences Center School of Nursing is the only nursing school on the South Plains providing baccalaureate, masters, and doctoral education. Since its inception, the school has planned innovative degrees to meet the needs of Texas residents. With an expanded selection of educational options offered throughout Texas and beyond, the School of Nursing continues to help bolster the state’s nursing workforce by educating more than 1,800 students each year.
The first students were admitted to the Traditional Bachelor of Science in Nursing (BSN) four-year degree on the Lubbock campus August 26, 1981. Additionally, LVN students were admitted to the sophomore year and RN students were admitted to the junior year. Four years later, RN to BSN only students were admitted in the Permian Basin. The first students were admitted to the Master of Science in Nursing track in 1988. The Second Degree Program was launched in Austin/Hill Country and Lubbock in 2005 and is offered in Abilene, Lubbock, and Permian Basin, and Amarillo. In 2008, the inaugural cohort of doctoral students was admitted into the Doctor of Nursing Practice (DNP) program and in 2009 the Traditional BSN program was expanded to include Abilene, Lubbock, and Permian Basin.

The Lubbock campus was renamed in honor of Anita Thigpen Perry, the first lady of Texas in August, 2008. TTUHSC School of Nursing is known for innovation in nursing education, excellent student retention and graduation rates, above national average NCLEX scores, and producing well-prepared nurses for West Texas and beyond. In October 2010, through a generous donation from the Hunt Family Foundation, successful efforts were made to establish the Gayle Greve Hunt School of Nursing in El Paso. Upon receiving approval from the Texas Higher Education Coordinating Board and the Texas Board of Nursing in April, 2011, the Gayle Greve Hunt School of Nursing officially opened as a free-standing school of nursing on September 1, 2011. The Gayle Greve Hunt School of Nursing provides the Traditional and Second Degree Programs for the Bachelor of Science in Nursing for individuals seeking nursing educational opportunities at the El Paso campus.

**Our Commitment**
The School of Nursing is committed to serving the rural, disadvantaged, and aging communities of West Texas. This commitment is exemplified by the patient care enterprises operated by the School serving these populations and providing learning sites for our students.

At the undergraduate level, the School offers traditional and accelerated baccalaureate completion in Abilene, Odessa, and Lubbock. The accelerated baccalaureate in nursing degree is for professionals with baccalaureate degrees in another field. Additionally, the RN to baccalaureate degree for registered nurses with an associate degree in nursing or diploma nursing preparation is offered in an online degree completion methodology. Specialized nursing preparation is offered at the Master's level in administration, education, and advanced practice registered nurse (APRN) roles with population focus practice tracks in nurse midwifery, family, adult gerontology acute care, and pediatric primary care. The School offers doctoral education through a Doctor of Nursing Practice (DNP). DNP students have the opportunity to select one of two tracks, the advanced nurse practitioner track preparation for complex practice, and the executive leadership track for advanced health systems leadership preparation.

**School of Nursing Program Accreditation**
In November 1982, the undergraduate program received full accreditation from the
Board of Nursing for the State of Texas and in December 1983, the National League for Nursing granted initial accreditation, which was retroactive prior to the first graduation in June, 1983. The graduate program received initial accreditation in March 1992. The School of Nursing baccalaureate (BSN), masters (MSN) and doctor of nursing practice (DNP) degree programs are currently accredited by the Commission on Collegiate Nursing Education (CCNE) and the baccalaureate degree programs are accredited by the Board of Nursing for the State of Texas. The CCNE office can be contacted at One Dupont Circle, NW Suite 530, Washington, DC, 20036 or by phone at (202) 887-6791, or by visiting the CCNE website at www.aacn.nche.edu. The Texas Board of Nursing can be contacted at 333 Guadalupe #3-460, Austin, Texas, 78701, or by telephone at (512) 305-7400.

The Nurse Midwifery education program holds initial accreditation by the Accreditation Commission on Midwifery Education (ACME) formerly the American College of Nurse Midwifery (ACNM) Division of Accreditation. This organization establishes the criteria for pre-accreditation and accreditation of educational programs in Nurse Midwifery in the United States. For more information, contact: Accreditation Commission for Midwifery Education, 8403 Colesville Road, Suite 1550, Silver Spring, MD 20910-6374; by phone at (240) 485-1845 or fax at (240) 485-1818; or by visiting http://www.midwife.org.

In July 1980, the TTUHSC School of Nursing Continuing Education Program was first accredited by the Western Regional Accrediting Committee of the American Nurses’ Association as a provider of continuing education in nursing. The accreditation, now offered through the American Nurses Credentialing Center, remains in effect. The official accreditation statement is:

Texas Tech University Health Sciences Center School of Nursing Continuing Nursing Education Program is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center’s Commission on Accreditation.

Degree Programs and Options

Traditional Undergraduate Department
Department Chair: Kathryn Sridaromont, PhD, RNC, MSN

Traditional BSN Program
For students who are not registered nurses, the BSN program at the Health Sciences Center offers the opportunity to receive a Bachelor’s of Science in Nursing degree in four semesters, with admission once each year during the fall session. Students must complete the nursing courses in sequential order.

Please Note: Effective fall 2014, the Traditional BSN Program at the Permian Basin campus will be completed in four consecutive semesters. The progression of completion will be fall, spring, summer and fall with a December graduation.

Non-Traditional Undergraduate Department
Department Chair: Melinda Mitchell Jones, MSN, JD, RN

Second Degree BSN Program
For students with a non-nursing bachelor’s degree residing in the Abilene, Amarillo, Austin/Hill Country, Lubbock, and Permian Basin communities, a second degree web-based accelerated baccalaureate nursing degree program is offered in a 12-month full-time curriculum. The program admits students in January or August of each year and requires completion of all pre-requisite courses before entry. The program allows completion of 61 semester credit hours of upper division coursework for the BSN while remaining in the student’s community.

Please note: Students will not be admitted for the fall 2014 semester. This will affect all campuses previously admitting in the fall semester including Lubbock, Abilene, Odessa, and Amarillo. Starting January 2015, the Second Degree Program will only admit students in spring semester each year at all campuses.

RN to BSN Program
For registered nurses with an associate degree or diploma, the RN to BSN Program (RN-BSN) provides the opportunity to receive a Bachelor’s of Science in Nursing through web-based education. A full-time student has the opportunity to complete the degree in two semesters; however, students can also attend on a part-time basis. The program admits students for the Fall, Spring, and Summer semesters. Students may refer to the RN-BSN section of the catalog for more information, and may contact the RN-BSN Coordinator to discuss degree plan options.

Graduate Department
Department Chair: Barbara Cherry, DNSc, MBA, RN, NEA-BC

MSN Leadership Program Administration and Education Tracks, DNP Program

Master of Science in Nursing (MSN) – Administration Track
The MSN with a nursing administration focus prepares students to assume nursing leadership and management positions in a variety of health care settings. Students must obtain the required entry level BSN for the MSN in nursing administration. Students complete the program via on-line courses and practicum experiences. For further information about the program, students
can refer to the Graduate Department section of the catalog.

**Master of Science in Nursing (MSN) – Education Track**
The MSN with a nursing education focus prepares students to assume a career as a nurse educator within a school of nursing or as a clinical educator in a healthcare setting. Students must obtain the required entry level BSN for the MSN in nursing education. For further information about the program, students can refer to the Graduate Department section of the catalog.

**Doctor of Nursing Practice (DNP)**
Post-masters advanced practice nurses and clinical administrative leaders have the opportunity to obtain the Doctor of Nursing Practice (DNP), a terminal degree designed for practice at the highest level of nursing. Students interested in the advanced practice nursing specialty must have a master’s degree and be prepared as a nurse practitioner, nurse midwife, nurse clinical specialist, or nurse anesthetist with national certification. Students interested in the executive leadership specialty must have a master’s degree and experience in a healthcare leadership position. The primary goal of the DNP program is to prepare graduates for clinically intensive leadership careers including advanced clinical practice, executive leadership, applied clinical research, and faculty teaching roles. The program allows students to participate in online activities as well as on-campus intensives. For further information about the program, students can refer to the Graduate Department section of the catalog.

**Department Chair:**
Emily Merrill, PhD, RN FNP BC, CNE, FAANP

**MSN APRN (Advanced Practice Registered Nurse) Program**
Nurse Practitioner Tracks (Family, Adult-Gerontology Acute Care, Pediatric Primary Care), Nurse Midwifery

Upon completion of course requirements, graduates of the master’s and post-master’s programs are eligible to sit for one or more of the following certification exams:

- National Certification Board of Pediatric Nurse Practitioners (PNCP) Exam (PNP)
- American Nurses Credentialing Center (ANCC) Exam (AGACNP, FNP, PNP)
- American Academy of Nurse Practitioners Certification (AANP) Exam (FNP)
- American Midwifery Certification Board Examination (AMCB)

**Advanced Practice Registered Nurse (APRN)**
A registered nurse who has completed a graduate degree or postgraduate program that has provided preparation to practice
in one of the four advanced practice nursing roles (i.e., nurse practitioner, nurse midwife, nurse clinical specialist, or nurse anesthetist). Preparation includes the advanced knowledge and skills to provide direct patient care in the health promotion and health maintenance of individuals.

Master of Science in Nursing (MSN) – Family Nurse Practitioner (FNP) and Post Master's FNP Tracks
Prepares graduates to assume a primary care provider role for the population of the family across the lifespan (infants, children, adolescents, adults, and older adults). FNPs practice in variety of settings including urban, rural, and underserved areas. Patient care needs and not the setting determines the scope of practice.

Master of Science in Nursing (MSN) – Adult-Gerontology Acute Care Nurse Practitioner (AGACNP) and Post-Master’s AGACNP Tracks
Prepares graduates to assume responsibilities for promoting, maintaining, and restoring health to acutely or critically ill adults. The patient population includes young adults, adults, and older adults. Patient care needs and not the setting determines the scope of practice.

Master of Science in Nursing (MSN) – Pediatric Primary Care Nurse Practitioner (PNP) and Post-Master’s PNP (Primary Care) Tracks
Prepares graduates to assume a primary care provider role for children, adolescents, and young adults in multiple health care delivery settings including rural and underserved areas. Patient care needs and not the setting determines the scope of practice.

Master of Science in Nursing (MSN) – Nurse Midwifery and Post-Master’s Nurse Midwifery Tracks
Prepares graduates to assume an advanced care provider role for population-based focus of women across the reproductive life-cycle and beyond as well as their newborn infants for the first 28 days.

Please Note: Texas Tech University Health Sciences Center School of Nursing is pleased to announce the launch of a Master’s Degree in Nursing Informatics (NI) in 2014. This program will be the first NI masters in the state of Texas offered by a Texas-based University. This program will fill a critical gap in advanced nursing education to prepare nurses for expanding roles in nursing informatics with emphasis on data management; analytics and clinical decision support; electronic health record adoption, implementation and evaluation; systems life cycle; and evaluating innovative technology solutions for clinical care.

Applications will be accepted beginning in July with further information to be posted related to the application process. Ideal candidates will be Bachelor of Science (BSN) prepared nurses currently working in nursing informatics, quality improvement or technology-related roles.
### Essential Eligibility Requirements for Participation in the School of Nursing

Each student/applicant should use the following standards (essential eligibility requirements) for participation in the School of Nursing and examples of necessary activities (not all inclusive) to assist in determining the necessity of accommodations or modifications.

<table>
<thead>
<tr>
<th>Essential Functions</th>
<th>Examples of Necessary Activities</th>
</tr>
</thead>
<tbody>
<tr>
<td>Critical thinking abilities sufficient for clinical judgment.</td>
<td>Identify cause-effect relationships in clinical situations, develop nursing care plans.</td>
</tr>
<tr>
<td>Interpersonal abilities sufficient to interact with individuals, families, and groups from a variety of social, emotional, cultural, and intellectual backgrounds.</td>
<td>Establish rapport with patients/clients and colleagues.</td>
</tr>
<tr>
<td>Communication abilities sufficient for interaction with others in verbal and written form.</td>
<td>Explain treatment procedures, initiate health teaching, document and interpret nursing actions and patient/client responses.</td>
</tr>
<tr>
<td>Abilities sufficient to move from room to room and to maneuver in small places.</td>
<td>Move around in patients’ rooms, work spaces, treatment areas, and administer cardio-pulmonary procedures.</td>
</tr>
<tr>
<td>Abilities sufficient to provide safe and effective nursing care.</td>
<td>Calibrate and use equipment; position patients/clients.</td>
</tr>
<tr>
<td>Abilities sufficient to monitor and assess health needs.</td>
<td>Hears monitor alarms, emergency signals, all auscultatory sounds, and cries for help.</td>
</tr>
<tr>
<td>Abilities sufficient for physical assessment.</td>
<td>Perform palpation, functions of physical examination and/or those related to therapeutic intervention, e.g., insertion of a catheter.</td>
</tr>
</tbody>
</table>

ADA Guidelines apply to all qualified disabled persons. A qualified disabled person is a person with a disability who, with or without reasonable modifications to rules, policies, or practices, the removal of architectural, communication, or transportation barriers, or the provision of auxiliary aids and services, meets the essential eligibility requirements for the receipt of services, or the participation in programs or activities provided by a public entity and who can perform the “essential functions” of the position. For further information, see [www.ttuhsc.edu/studentservices/ada/](http://www.ttuhsc.edu/studentservices/ada/).
Core Curriculum

Given the rapid evolution of necessary knowledge and skills and the need to take into account global, national, state, and local cultures, the core curriculum for institutions of higher education in the State of Texas must ensure students develop the essential knowledge and skills needed for success in college, career, and individual communities, and in life.

The Texas Higher Education Coordinating Board has approved a 42 semester credit hour core curriculum for all undergraduate students in Texas. The TTUHSC School of Nursing will ensure the students transferring into the baccalaureate nursing programs have completely met the core competencies of the 42 semester credit hour curriculum. Objectives for the core curriculum competencies include the following:

- **Critical Thinking Skills** – includes creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information.
- **Communication Skills** – includes effective development, interpretation, and expression of ideas through written, oral and visual communication.
- **Empirical and Quantitative Skills** – includes the manipulation and analysis of numerical data or observable facts resulting in informed conclusions.
- **Teamwork** – includes the ability to consider different points of view and to work effectively with others to support a shared purpose or goal.
- **Personal Responsibility** – includes the ability to connect choices, actions, and consequences to ethical decision-making.
- **Social Responsibility** – includes intercultural competence, knowledge of civic responsibility, and the ability to engage effectively in regional, national, and global communities.

Core Curriculum Requirements

Students who will be earning a baccalaureate degree from Texas Tech University Health Sciences Center (TTUHSC) must satisfy the coursework requirements of the TTUHSC Core Curriculum. The curriculum complies with the 1997 Texas legislation that required each state-supported institution to establish a core curriculum that encompasses components of natural and applied sciences, social sciences, mathematics, humanities, visual and performing arts and tools of language and thoughts.

These courses or their equivalents for a total of 42 semester credit hours may be taken at any regionally accredited college or university and should be completed with a grade of “C” or higher BEFORE enrolling at TTUHSC. IF a student successfully completes a core curriculum of 42 or more semester credit hours at another accredited public institution of higher education in Texas, and that core curriculum meets the specified “component area” requirements below, that block of courses may be transferred to the TTUHSC and substituted for the core curriculum here. The student will not be required to take any additional core curriculum courses. The State of Texas has specified the following component area requirements as found in the following table:
Because faculty within the School of Nursing may choose development of a clinical studies program, the School of Nursing maintains an active Clinical Studies Program. Faculty can participate in the delivery of care to residents of West Texas in many institutions and health care facilities. The School of Nursing operates sites for direct access to services by community clients at the Larry Combest Community Health & Wellness Center in Lubbock. The Larry Combest Community Health & Wellness Center staff and faculty serve medically-underserved populations by providing primary care services to clients over the life span. The Larry Combest Community Health & Wellness Center, a Federally Qualified Health Care nurse managed center provides essential health care access points for residents of the community unable to obtain the needed services for health promotion and disease prevention. The Larry Combest Community Health & Wellness Center is supported by funding from the School of Nursing, federal grants, and reimbursements from third party payers.

Research

Associate Dean - Alyce Ashcraft, PhD, RN, CNE, ANEF

Faculty within the School of Nursing also have the choice of developing a research program. The School of Nursing has designed the research program to provide assistance and support for faculty in promoting research interests and developing proposals for funding and implementation of research projects. Current research initiatives focus on improvement of the health of diverse populations through collaborating efforts and providing opportunities for all nursing students to be actively involved in faculty research projects.
Outcomes Management and Evaluation
Associate Dean – Yondell Masten, PhD, WHNP-BC, RNC-OB
The School of Nursing bases the outcomes management and evaluation focus on the concept of continuous quality improvement, supported by the Texas Tech University System. Data are collected each semester, semi-annually and/or annually for decision-making and documentation of the School of Nursing achievement of the goals of the Strategic Plan. Students participate in decision-making and documentation of Strategic Plan goal achievement by providing valuable data via completion of assessment tools and by serving as representatives on School of Nursing committees and task forces.
Student Life

Activities, Athletics, Entertainment, and Recreation
As a member of the National Collegiate Athletic Association and the Big 12 Conference, Texas Tech provides intercollegiate programs for men and women. As part of the TTU System, TTUHSC students participate in football, volleyball, basketball, baseball/softball, soccer, track and field, golf and tennis with other members of the conference. Current members of the Big 12 Conference for 2012-2013 are Baylor University, Iowa State University, University of Kansas, Kansas State University, University of Oklahoma, Oklahoma State University, University of Texas, Texas Christian University and West Virginia University.

The Lubbock campus of Texas Tech University Health Sciences Center includes the F. Marie Hall Synergistic Center providing students easy access to recreational and entertainment facilities. The TTUHSC Lubbock campus is located in close proximity to the Texas Tech University (TTU) campus. The Student Recreational Center and Student Union Building, located on the Texas Tech University's Lubbock campus, are two of the most popular buildings on campus for out-of-class student activities. The various cultural, social, educational, and recreational programs include:

<table>
<thead>
<tr>
<th>ballrooms</th>
<th>lounge and TV areas</th>
<th>indoor archery range</th>
<th>ping pong</th>
</tr>
</thead>
<tbody>
<tr>
<td>theaters</td>
<td>indoor-outdoor swimming pool</td>
<td>multipurpose arenas</td>
<td>music and drama productions</td>
</tr>
<tr>
<td>snack bars</td>
<td>lighted tennis and handball courts</td>
<td>cafeteria</td>
<td>weight rooms and saunas</td>
</tr>
<tr>
<td>foosball</td>
<td>gymnasium facilities</td>
<td>meeting rooms</td>
<td>intramural sports</td>
</tr>
</tbody>
</table>
For more information about student organizations, fraternities, or sororities you may contact the TTUHSC Student Services office at 806-743-2300 or online at http://www.ttuhsc.edu/studentservices/default.aspx.

For information about the TTU recreational center and activities contact TTU Student Services online at http://www.depts.ttu.edu/officialpublications/catalog/_StudentServices.php.

Awards
The School of Nursing participates in and offers awards including:
- Excellence In Nursing – Undergraduate and Graduate Students

Computer Requirements
Students spend a considerable amount of time utilizing resources available via the internet including but not limited to checking the TTUHSC e-mail while enrolled in the SCHOOL OF NURSING. All students must own a computer with broadband (fast internet) access to succeed in the chosen area of study; and daily computer access is expected for all students.

NOTE:
- The Traditional Undergraduate Department BSN Program requires admitted students to own a laptop and a mobile device (smart phone, Apple iPod Touch or tablet). Students are required to bring their laptop to participate in classroom learning activities and testing. A mobile device capable of using specific Nursing APPs is required.
- The Second Degree Program requires admitted students to own a computer (preferably a laptop) and a mobile device (smart phone, Apple iPod Touch or tablet). A mobile device capable of using specific Nursing APPs is required. Students are also required to have a webcam for online proctoring of exams/ quizzes.
- The Graduate and DNP Programs highly recommend students bring a laptop to participate in classroom learning activities.

Go to http://nursing.ttuhsc.edu/it/requirements/ for specific minimum computer system requirements for each program.

Technical Skills
Students are expected to possess basic skills in both the use of a computer and Microsoft Office to function independently. To assess skill level go to “Is Online Learning for You?” at http://nursing.ttuhsc.edu/skills/. Also, take the Technical Skills Assessment found at https://sonmedia.ttuhsc.edu/id/assessments/. If a student cannot function independently, the applicable Department Chair reserves the right to place the student on an academic leave of absence until the student can demonstrate competence to learn, draft, and submit work independently. See http://nursing.ttuhsc.edu/it/requirements for specific minimum computer system requirements.

Employment
The decision to work while enrolled as a student in the School of Nursing rests with the individual student; the school assumes no responsibility for student employment unless the student's enrolled program prohibits employment. A student employed
in a healthcare agency has the responsibility, personally, and professionally, to accept and engage in only activities falling within the position description for which the student is qualified and do not conflict with legal and accreditation expectations.

**Health Services**
Medical services for TTUHSC students are available at the Lubbock, Odessa, and Abilene campuses. Refer to the *TTUHSC Student Handbook Code of Professional Conduct* online at [www.ttuhsc.edu/studentservices/](http://www.ttuhsc.edu/studentservices/).

**Health Insurance**
Students are required by TTUHSC to pay a Medical Service Fee each semester. With this fee, access to healthcare is available at no charge for minimal or limited minor problems. Access to healthcare is through a TTUHSC clinic or a regional contracted provider (when available) for distance students. This fee is only waived for distance students.

TTUHSC and the School of Nursing **strongly recommend** each student maintain health insurance to cover major medical, emergency care, specialty care, and pharmacy services. Students should note many of the facilities where students receive clinical training **require** each student to be covered by health insurance. Hospital or clinic personnel may ask for proof of coverage at any time. Students may be denied access to clinical experience, at the discretion of the facility, if not covered by health insurance.

TTUHSC provides students the opportunity to purchase health insurance. Students may contact the TTUHSC Office of Student Services, Room 2C400 (743-2300) for more information. The TTUHSC Office of Student Services can provide information on several insurance resources for students or visit [www.ttuhsc.edu/studentservices/studenthealth.aspx](http://www.ttuhsc.edu/studentservices/studenthealth.aspx) for further information.

**Housing**
Although students of the School of Nursing have access to TTU on-campus housing, it is not mandatory. For more information on housing, contact the TTU Housing Office at (806) 742-2661.

**Immunization Requirements**
Students are expected to maintain a general state of good health. Failure to maintain documentation of the following immunization requirements in the appropriate departmental office can result in exclusion from clinical practice and a hold being placed on school records. The following information must be on file for a complete immunization record while enrolled in the SCHOOL OF NURSING.
## IMMUNIZATION REQUIREMENTS

<table>
<thead>
<tr>
<th>Vaccine</th>
<th>When Required</th>
</tr>
</thead>
<tbody>
<tr>
<td>Hepatitis B series (Hep B)</td>
<td>At the beginning of the initial semester of enrollment to be completed within 6 months, or a titer showing immunity is required.</td>
</tr>
<tr>
<td>Measles, Mumps, Rubella vaccine/titer (MMR)</td>
<td>At the beginning of the initial semester of enrollment, with doses of vaccine or titers showing immunity are required. (Note: Women who need MMR must make an appointment with a health professional to verify pregnancy status before receiving MMR.)</td>
</tr>
<tr>
<td>Meningococcal (MCV)</td>
<td>At the beginning of the initial semester of enrollment. Adults 29 years of age (22 years starting October 2013) or younger within the last five years.</td>
</tr>
<tr>
<td>Tuberculin test (PPD)</td>
<td>At the beginning of the initial semester of enrollment and annually thereafter.</td>
</tr>
<tr>
<td>Tetanus/Diphtheria (Td)</td>
<td>At the beginning of the initial semester of enrollment. (Booster required every 10 years.)</td>
</tr>
<tr>
<td>Tetanus, Diphtheria and Acellular Pertussins (Tdap)</td>

</tbody>
</table>

Other specialty-related immunizations or testing may be recommended to a student or may be required by a clinical agency. All students are expected to personally maintain immunization requirements; this maintenance should be documented in the appropriate departmental office for every semester the student is enrolled at TTUHSC – **NO notification will be sent.**

Students should contact the Managing Director in the Office of Institutional Health/TTUHSC Infection Control for the most up-to-date information on obtaining immunizations by calling (806) 743-3019. Keep personal immunization records in a safe place; immunization records are required for all healthcare workers employed in the healthcare industry. All copies of Personal Immunization Records provided to the SCHOOL OF NURSING become the property of the SCHOOL OF NURSING. Never supply the SCHOOL OF NURSING with original documents. There may be a fee charged to receive a copy of the immunization records from SCHOOL OF NURSING files.

**Interprofessional Education**

All TTUHSC students, regardless of school affiliation, will be required to complete a non-credit, online course in interprofessional education. Implementation of this requirement will vary across schools and degree programs. Students should consult their academic/program advisor for additional information.

**Simulation**

The simulation centers located at the various campuses provide unique learning environments. These realistic environments
support experiential learning activities that promote the development and maintenance of intra-professional and interprofessional competencies. Faculty and students from the SCHOOL OF NURSING, School of Medicine, School of Allied Health Sciences, School of Pharmacy, and Graduate School of Biomedical Sciences are engaged in simulation-based activities supported by these centers.

**TTUHSC Libraries of the Health Sciences**
The TTUHSC Libraries of the Health Sciences provide facilities and learning/information resources with four physical sites in Lubbock, Amarillo, El Paso, and Odessa. The TTUHSC Library system collections presently contain more than 332,667 bound volumes, of which over 212,580 are located in Lubbock and Odessa. Over 42,778 electronic books are also available. The system has 434 print journal subscriptions and approximately 19,735 electronic journals available at all TTUHSC sites. Over 17,251 audiovisuals are also available system-wide. The libraries feature study carrels, interlibrary loan and photocopy services, reference services, and Internet access/connectivity.

The TTUHSC Libraries provide electronic access to more than 400 databases including but not limited to: MEDLINE, PubMed, CINAHL Plus with Full Text, Nursing Reference Center, Anatomy.tv, Health and Psychosocial Instruments, LEXICOMP, MICROMEDEX, PsycINFO, MedlinePlus, EXAM MASTER online (NCLEX-RN), Web of Knowledge, Scopus, ERIC, OVID full-text, Cochrane Databases, MDConsult, Science Direct ejournals, as well as general and academic TexShare databases. To meet the needs of all TTUHSC users including distance education, the TTUHSC Libraries provide around-the-clock, seven-days-a-week access to several library resources and services. All electronic holdings of the library are available for users through the use of the e-raider account.

Bibliographic tools such as RefWorks and Endnote, full-text electronic journals, and a full array of electronic books are also accessible. Off-site access to licensed electronic resources is available via a proxy server to all TTUHSC faculty, staff, and students. The libraries of the TTUHSC system have a common online catalog for access to holdings at all TTUHSC libraries.

- Preston Smith Library of the Health Sciences, a 50,000 square foot facility on the Lubbock campus, features 29 group study rooms and a 60 station Learning Resource Center (LRC).
- Harrington Library of the Health Sciences in Amarillo, has one computer classroom with eight (8) stations, 127 seats and four (4) study rooms.
- Della Montes-Gallo Library of the Health Sciences in El Paso, has seating for 250 users, one (1) computer classroom with ten (10) stations in addition to 23 public workstations, six (6) small group-study rooms and five (5) individual study carrels.
- Library of the Health Sciences in Odessa, has 100 study seats, three (3) study rooms and one (1) computer classroom with 15 work stations.

**Textbooks**
Courses utilize information from various mediums, including textbooks. Students
may have to purchase specific textbooks. Each semester, the required and optional texts are listed for each course on the following website: http://nursing.ttuhs.edu/textbooks. Students may purchase the texts through a vendor of the student’s choice.

**Student Services**

TTUHSC Student Services is an institutional centralized information office providing an array of student support services. Student Services collaborates with the school student affairs offices to offer assistance to aid in the success of TTUHSC students. For more information, please visit their website: http://www.ttuhs.edu/studentservices/.

**Graduation**

Students planning to graduate MUST complete the Intent to Graduate form. Students should create a “Diploma” address in WebRaider to ensure the diploma will be mailed to the proper address. The TTUHSC Student Services office uses the diploma address to mail the diploma only if the diploma is not picked up at commencement.

Students must be enrolled at Texas Tech University Health Sciences Center and registered in the School of Nursing for a minimum of one (1) credit hour in the term of graduation.

**Counseling Services**

As in all professional health fields, if stress is not dealt with effectively, it can interfere with optimal academic performance. For a student experiencing excessive stress, the SON highly recommends self-referral for counseling. The following are the counseling options available for Lubbock, Permian Basin, and off-campus long distance education students.

- **Program of Assistance for Students (PAS)** - The PAS is a professional, confidential, no cost counseling service for students and family members living in their households. Five sessions (per household) per academic year are available from licensed counselors who can provide assistance for a variety of problems related to daily living, including: family and relationship problems, depression, alcohol and drug abuse, anxiety, and stress. No information is released to anyone in the SON and use of the program does not become part of a student’s record. PAS offices are located in the Department of Psychiatry at TTUHSC East Wing, room 1A122. To schedule an appointment for yourself or a member of your household, Lubbock students can call (806) 743-1327 and identify yourself as a SON student. The number for students in other areas is (800) 327-0328. Daytime and evening appointments are available.

- **Abilene students** can receive counseling through the Program of Assistance for Students (PAS). The contact person for PAS services in Abilene is Dr. Alan Korinek, PAS Director, (806) 743-1327 or (800) 327-0328.

- **Amarillo students** can receive counseling through the Program of Assistance for Students (PAS). The contact person for PAS services in Amarillo is Ron Owens, PhD, (806) 354-5620.
• **Austin students** should contact: Samaritan Center for Counseling at (512) 451-7337 (select 0#) or e-mail info@samaritan-center.org. Mention that you are a TTUHSC student and would like to use your PAS counseling benefit.

• **Lubbock students** have two options for counseling services: the Student Counseling Center (SCC) or the Program of Assistance for Students (PAS). For information on the SCC go to the website [http://www.depts.ttu.edu/scc/](http://www.depts.ttu.edu/scc/) and for the PAS program go to their website [http://www.ttuhsceduxx.edu/studentservices/documents/PAS_Document.pdf](http://www.ttuhsceduxx.edu/studentservices/documents/PAS_Document.pdf).

• **Off-campus long distance education students** who want to receive counseling services should contact the Lubbock office of the Program of Assistance for Students (PAS) - (800) 327-0328 - to inquire about the availability of area counseling services.

• **Permian Basin students** can receive counseling through the Program of Assistance for Students (PAS). The provider for PAS services in the Permian Basin is the Samaritan Counseling Center of West Texas, (432) 563-4144.

A 24-hour crisis/help line is available to all SON students and members of their household through the Program of Assistance for Students. The number for students in Lubbock is (806) 743-1327. The number for students in other areas is (800) 327-0328.

---

**International (Nom-Immigrant) Application Policy**

Applicants should follow the same procedure and meet the same minimum criteria for admission consideration as all other students applying for a particular program.

To avoid difficulties in the application process, it is strongly recommended to be sure the name filled in on the application is the full legal name of the applicant. The applicant’s full legal name must be the name appearing on the passport. The name, as it appears on the application, should also be the same on each of the documents and test score reports.

In addition to stated admission requirements, applicants with foreign academic credentials must:

- Provide academic records in the original language with certified English translation and United States equivalency.

- **Test of English as a Foreign Language (TOEFL):** Students whose predominant tongue is not English must also present a score of at least 550 (paper exam), 213 (computer exam), or 79 (internet) on the TOEFL (This includes permanent residents of the US). The TOEFL requirement may be waived if the student has graduated from a US high school with a minimum of two years attendance or if the student is a citizen of a country where English is the native language.

**Countries exempt from English Proficiency Requirement (considered to have English as**
the predominant language) include:
Australia, Canada (except the Province of Quebec), Commonwealth Caribbean countries (Anguilla, Antigua, the Bahamas, Barbados, Belize, British Virgin Islands, Bermuda, Cayman Islands, Dominica, Grenada, Guyana, Jamaica, Montserrat, St. Kitts and Nevis, St. Lucia, St. Vincent, Trinidad and Tobago, and Turks and Caicos Islands), Republic of Ireland, Liberia, New Zealand, United Kingdom (England, Northern Ireland, Scotland, Wales), and the United States.

Applicants holding degrees from U.S. colleges and/or universities or universities in English proficiency-exempt countries are not required to submit TOEFL scores. Information concerning the TOEFL may be obtained from Educational Testing Service, P.O. Box 899, Princeton, New Jersey 08540, US, or their website – www.toefl.org.

The Office of International Affairs (OIA) and the International Cultural Center (ICC) provide services to international students for both Texas Tech University and Texas Tech University Health Sciences Center. Upon acceptance to the School of Nursing, the international student (non-immigrant) must furnish original documents or official certified copies indicating the nature and scope of their educational program, as well as citizenship, finance and visa information. The documents are sent to the Office of International Affairs’ address: Texas Tech University Office of International Affairs, International Cultural Center, P.O. Box 45004, Lubbock, TX 79409-5004. Phone: 806-742-3667. FAX: 806-742-1286. Web: www.iaff.ttu.edu. Use the name appearing on the passport in all communication with the Texas Tech University Office of International Affairs.

Organizations

Student Service on Advisory Councils and Standing Committees for Undergraduate and Graduate Programs
For purposes of promoting the TTUHSC School of Nursing, four advisory councils exist to maintain open communication between students and administration/faculty/staff:
- Undergraduate Department Advisory Council (UDAC)
- Non-Traditional Student Advisory Council
- Graduate Department Chair’s Advisory Council
- DNP Student Advisory Council.

Students also have opportunities to serve as Student Representatives on School of Nursing Standing Committees. Through service on the Advisory Councils and the School of Nursing Standing Committees, student representatives provide feedback to the faculty and administration on ways to improve the educational process while enrolled in the School of Nursing. Student representatives either volunteer or are selected to serve on the Advisory Councils and School of Nursing Standing Committees. Students are expected to represent fellow students by bringing forth issues of importance to be addressed.

Mentoring Advanced Practice Students (MAPS)
The purpose of the mentoring program is to provide new School of Nursing graduate students with an opportunity to network
with knowledgeable colleague already enrolled in the Graduate Program. Contact the appropriate Student Affairs Coordinator to obtain more information.

**Professional Societies**

- **Iota Mu Chapter of Sigma Theta Tau, the International Nursing Honor Society**
  Membership is by invitation and is based on outstanding scholarly activities.

- **Phi Kappa Phi**
  Membership is by invitation to top performing juniors, seniors, and graduate students.

- **Golden Key**
  Membership is by invitation to the top 15% of juniors, seniors, and graduate students.

- **Student Government Association (SGA)**
  The Student Government Association is recognized as the governing student body at Texas Tech University Health Sciences Center with representatives from the School of Allied Health Sciences, Graduate School of Biomedical Sciences, Schools of Medicine, Schools of Nursing and School of Pharmacy. SGA Representatives assist in the promotion of student affairs and activities affecting all students throughout TTUHSC and encourage communication between the schools. Representatives are elected from the undergraduate and graduate programs. For more information regarding the Student Government Association, visit the Student Government Association’s Webpage at [http://student.ttuhscc.edu/sga](http://student.ttuhscc.edu/sga).

- **Texas Nursing Students’ Association**
  The Texas Nursing Students’ Association grants membership to any student in an Associate Degree, Diploma, Baccalaureate, generic Masters, generic Doctoral program preparing students for RN licensure, as well as RN’s in a BSN completion program. This award-winning group is highly active at school, state, and national levels. For more information, please visit [http://www.tnsa.org](http://www.tnsa.org).
Financial Information

Immediately upon acceptance of an offer of admission, the student pays a non-refundable $100 placement guarantee fee. Failure to pay the fee results in forfeiture of the offer of admission.

To enable the student to approximate expenses, the following table provides an estimated average cost per semester. This information is provided by the TTUHSC Student Business Services office. These estimates are based on the AY 2013-2014 (Fall, Spring, Summer) school year.

Please be aware the figures are only estimates. Students may also go online to the Student Business Services website to see updates to tuition at any time. [http://www.ttuhsc.edu/financialaid/studentbusinessservices.aspx](http://www.ttuhsc.edu/financialaid/studentbusinessservices.aspx)

An installment plan, available for fall and spring terms only, charges an Installment Option Fee each semester to students utilizing the installment payment plan. No installment option is available for the summer semester due to the shortened semester length. Tuition is paid to TTUHSC. Further questions regarding tuition and fees should be directed to the TTUHSC Student Business Services Office at (806)743-7867.

### Refund Policies for Tuition and Fees

Information concerning payments and refunds can be obtained from the TTUHSC Student Business Services Office website at [http://www.fiscal.ttuhsc.edu/busserv/bursar/](http://www.fiscal.ttuhsc.edu/busserv/bursar/) or call (806) 743-7867 ext. 332 or 333. Fax: (806) 743-7873.

### Financial Aid

The TTUHSC Financial Aid Office provides grants and loans. Students can find information by calling (806-743-3025) or accessing [www.ttuhsc.edu/financialaid](http://www.ttuhsc.edu/financialaid). All students interested in receiving grants, loans, and scholarships must have a completed Free Application for Federal Student Aid (FAFSA) on file with the TTUHSC Financial Aid Office. Students can complete the FAFSA on the FAFSA website at [www.fafsa.ed.gov](http://www.fafsa.ed.gov).

Financial aid awards letters to other colleges and universities including TTU are not transferable to TTUHSC. Separate financial aid applications are required for TTU and TTUHSC. Contact the TTUHSC Financial Aid Office during the School of Nursing application process at (806) 743-3025.

In addition, School of Nursing students are eligible for general scholarships and loans administered by the Financial Aid Office, Student Services Office, and Student Government Association. Some organizations, such as Lubbock Woman’s Club and the Lubbock Foundation provide scholarships on a consistent basis for nursing students. Scholarship eligibility is based upon the criteria as established by each donor and the TTUHSC School of Nursing. For further information regarding scholarships, please visit http://www.ttuhsce.edu/son/Scholarships/default.aspx or contact: School of Nursing Scholarship Office at sonscholarships@ttuhsc.edu or call (806) 252-8229.

For information regarding grants, loans, and policies, please visit: TTUHSC Financial Aid Office online at http://www.ttuhsce.edu/financialaid/ or contact via email: financial.aid@ttuhsc.edu or call (806) 743-3025.
General Information

Americans with Disabilities Act (ADA) (TTUHSC OP 77.14)
Students seeking accommodations on the basis of disability must register with the office of TTUHSC Student Services at www.ttuhsc.edu/studentservices/ada/default.aspx. The ADA Compliance Officer for Students will notify the appropriate School of Nursing Department Chair of the student's need for accommodations. Review the TTUHSC ADA policy located on the TTUHSC Student Services website. For further information, see www.ttuhsc.edu/studentservices/ada/default.aspx.

Confidentiality/Health Insurance Portability and Accountability Act of 1996 (HIPAA) (TTUHSC OP 52.02 & SON OP 10.050)
The School of Nursing is dedicated to ensuring each student is current in issues as they relate to nursing practice and research. One such regulation includes the Health Insurance Portability and Accountability Act (HIPAA).

- Each student is required to provide proof of education in HIPAA training at the beginning of enrollment in the School of Nursing.
- Certificates of compliance are not transferable from another institution because HIPAA certification is institution specific. Thus, all students must take the TTUHSC HIPAA training and provide evidence of compliance certification.
- Students will receive information regarding HIPAA training and will be asked to sign a Confidentiality Agreement during New Student Orientation. All proof of training will be placed in the student's advising file located in the appropriate Department Chair's Office.
- Those who cannot show proof
will not be allowed to attend clinical. In addition, release of confidential information (including verbal communications, written communications, or electronic communications with or about patients or involving patient health information to anyone who does not need the information for treatment, payment, or health care operation) is a cause for dismissal from the School.

**Family Educational Rights and Privacy Act (FERPA)**
The Family Educational Rights and Privacy Act of 1974 (“FERPA”) (20 U.S.C.A. Section 1232g; 34 CFR Part 99) affords certain rights to students concerning their educational records. FERPA grants students the right to inspect and review their educational records (with exceptions), to request that their records be amended, to have limited control over the disclosure of information contained in their records, and to file a complaint with the U.S. Department of Education concerning alleged failures of the University to comply with the requirements of FERPA. The TTUHSC Handbook Code of Professional Conduct shall serve as the annual notification that must be provided to students under FERPA, 34 C.F.R. 99.7, unless individual TTUHSC schools annually notify their students of FERPA rights otherwise. See TTUHSC OP 77.13 for additional information regarding student education records.

**Tobacco Free Environment**
TTUHSC is committed to the health of students, patients, faculty, staff, and the public in general. As an institution whose mission is to improve the health of people by providing high quality educational opportunities to students and health care professionals, advancing knowledge through scholarship and research, and providing patient care and service. TTUHSC campuses both indoors and outdoors remain tobacco free. Violations will be treated seriously and violators will be subject to disciplinary action as prescribed by existing operating and Board of Regents policies. Refer to the TTUHSC OP 10.19 and TTUHSC Student Handbook Code of Professional Conduct, Part I, 4.B Tobacco Free Environment.

**State Privacy Policies**
§559.003
When TTUHSC “collects information about an individual by means of a form that the individual completes and files with the governmental body in either a paper format or an electronic format”, the paper forms or the Internet site used in connection with the electronic form must state:
- With few exceptions, the individual is entitled on request to be informed about the information that the state governmental body collects about the individual;
- The individual is entitled to receive and review the information;
- The individual is entitled to have the state governmental body correct information about the individual that is incorrect.

If TTUHSC collects information about a website user on its Internet site, including the identity and computer network location, TTUHSC must post what types of information collected about the website user on the Internet site. Finally, TTUHSC must
establish a reasonable procedure to correct information about an individual.

**Participation in Assessments - Student Feedback**
The School of Nursing provides several opportunities for student feedback regarding the effectiveness of educational programs and services provided for students. Both formal and informal feedback is solicited. Satisfaction and feedback are solicited through student membership on School of Nursing Standing Committees, focus groups, and completion of satisfaction assessment tools. Individuals or groups of students may provide unsolicited feedback to faculty and administrators at any time in person, via phone, and via e-mail messages. Completion of the following student satisfaction assessment tools ARE MANDATORY:

- Orientation Satisfaction Assessment tool:
  Completed during the first semester of enrollment. Students access the assessment via an invitation sent to the TTUHSC e-mail address
- Course Satisfaction Assessment tool:
  Completed for each course enrolled every semester. Students access the assessment via an invitation sent to the TTUHSC e-mail address
- Combest Center Satisfaction Assessment tool:
  Completed every semester of enrollment with clinicals at the Combest Center. Students access the assessment via an invitation sent to the TTUHSC e-mail address
- Satisfaction at Graduation Assessment tool:
  Completed during the last semester of enrollment. Students access the assessment via an invitation sent to the TTUHSC e-mail address

See **SON OP 10.015** Mandatory Student Satisfaction Tool Completion Policy for more information.

Students provide faculty with additional feedback via the Individual Faculty Assessment. Students must complete the assessment for at least one faculty member involved in the course but have the option to evaluate all faculty involved with a course. Students complete the assessment at the same time as the course satisfaction assessment. Students access the Individual Faculty Assessment at [http://nursing.ttuhs.sc.edu/assessments/](http://nursing.ttuhs.sc.edu/assessments/). Students have an additional opportunity to provide feedback six months after graduation by completing the Alumni Assessment and asking the employer to complete the Employer Assessment. The School of Nursing mails the Alumni and Employer assessments to the permanent address listed with the TTUHSC Registrar’s office at the time of graduation. Students should notify the Registrar of changes to permanent address information to ensure delivery.

**Other Programs at Texas Tech University Health Sciences Center**

**Gayle Greve Hunt School of Nursing**
The Texas Higher Education Coordinating Board and the Texas Board of Nursing approved the Gayle Greve Hunt School of Nursing in 2011. Students admitted to the Gayle Greve Hunt School of Nursing pursue a Bachelor of Science in Nursing degree through a Traditional or an accelerated
Second Degree track. Both tracks utilize state-of-the-art online technology to deliver evidence-based didactic content. Clinical practicums are provided along with extensive use of simulation technology in an interprofessional and bicultural context to prepare graduates to meet the nursing care needs of the underserved multi-cultural El Paso County community.

**Graduate School of Biomedical Sciences**
The Graduate School of Biomedical Sciences offers programs leading to MS and PhD degrees in Biochemistry and Molecular Genetics, Biotechnology, Cell and Molecular Biology, Cell Physiology and Molecular Biophysics, Immunology and Infectious Diseases as well as Pharmacology and Neuroscience. The school structures programs to provide a wide variety of opportunities for the development of special research and teaching interests. Consulting with a faculty advisory committee, each student participates in the design of a personalized course of study.

**Paul L Foster School of Medicine**
The mission of Paul L. Foster is to provide an outstanding education and development of opportunities for a diverse group of students, residents, faculty, and staff, advance knowledge through innovation and research, and serve the needs of socially and culturally diverse community and regions. Integration is the key to the curriculum of the Paul L. Foster School of Medicine. Students learn the basic and clinical sciences in their first year instead of waiting until the third year of studies.

**TTUHSC School of Medicine**
TTUHSC School of Medicine mission is to address the shortage of physicians in West Texas by providing innovative educational opportunities to medical students and residents with the intent to supply competent and compassionate medical professionals for a geographically expansive area. In 2010, TTUHSC School of Medicine launched the Family Medicine Accelerated Track, the first program of its kind in the country. The track provides students with the option to graduate in three years.

**School of Allied Health Sciences**
The School of Allied Health Sciences’ mission is to provide a high-quality, student-centered learning environment for graduate and undergraduate education in the allied health professions, advance knowledge through scholarship and research; and provide clinical services that improve health and quality of life in Texas and the Nation. The school also tries to foster in students the professional insight and service-oriented compassion that will enable the students to excel in merging “high tech and high touch” throughout future professional careers. The School offers eighteen different baccalaureate, masters, and doctoral, health professions degree programs in the rehabilitation sciences, clinical laboratory sciences and primary care, speech, language and hearing sciences, and clinic administration and rehabilitation counseling.
School of Pharmacy
The School of Pharmacy’s mission is to enhance the lives of the diverse people of Texas and beyond through excellence and innovation in educating health care practitioners, researchers, and educators; providing pharmaceutical care and service; and advancing knowledge through scholarship and research. The School of Pharmacy offers the Doctor of Pharmacy (PharmD) as the single professional degree. The PharmD is a 4-year professional program, requiring at least two years of pre-professional studies to be completed at any accredited college or university. The School offers programs in Amarillo, Dallas/Fort Worth, Lubbock, and Abilene. The Abilene campus enrolled its inaugural class of 40 students in August 2007. The school also provides continuing education courses for pharmacists practicing in Texas.
Undergraduate Programs

Undergraduate Department

Under the guidance of an admissions committee, all qualified applicants are carefully evaluated individually and holistically. Admission to the baccalaureate programs is highly competitive and only the most qualified applicants are selected.

Purpose

The purpose of the Undergraduate Degree Program is to provide educational and experiential learning opportunities in liberal arts, natural and behavioral sciences, humanities, and nursing arts and sciences, for students desiring to practice professional nursing.

Student Learning Outcomes

Upon degree program completion, graduates will be able to:

- Provide patient-centered care for individuals, families, and communities.
- Work as an effective member of interprofessional teams to ensure continuous and safe patient care.
- Employ evidence-based practice (EBP) by integrating current research with clinical expertise and patient values to provide optimal patient care.
- Apply quality improvement measures to continually improve health outcomes consistent with current professional knowledge.
- Utilize informatics to enhance patient safety, manage knowledge and information, make decisions, and communicate more effectively.
- Provide safe care to individuals, families, and communities through individual performance and system effectiveness.

Programs: The Undergraduate Departments consist of the Traditional Undergraduate Department offering the BSN degree and the Non-Traditional Undergraduate Department offering the BSN degree through the RN-BSN Program, and Second Degree Program.

***Please note that students will not be admitted for the fall 2014 semester. This will affect all campuses previously admitting in the fall semester including Lubbock, Abilene, Odessa, and Amarillo. Starting January 2015, the Second Degree Program will only admit students in spring semester each year at all campuses.
Traditional Undergraduate Department

Traditional Undergraduate BSN Program
Kathryn Sridaromont, PhD, RNC, MSN, Department Chair

Traditional (applicants who do not currently have an RN license)
The TTUHSC School of Nursing offers the student the opportunity to complete the degree in four semesters, with admission once each year during the fall session. A 2.5 or higher cumulative grade point average is required for admission consideration. All grades earned at all schools attended are calculated in the admission grade point average. All non-nursing courses should be completed with a grade of “C” or higher prior to enrollment. Students must have completed a minimum of 40 credit hours of required prerequisite courses, including at least three of the four required science courses, at the time of application submission. Students may seek exceptions from the department chair.

ADMISSIONS REQUIREMENTS
All BSN applicants are required to:
- Complete all pre-requisites before fall program entry.
- Submit a completed application and non-refundable application fee to the Nursing Central Application System (NCAS) and TTUHSC Merlin for admission to the School of Nursing. The total application fee is $85 and the application deadline is February 1st.
- Submit official transcripts from all institutions in which the student has enrolled to Nursing Central Application System (NCAS).
- Complete the Test of Essential and Academic Skills (TEAS) – (Offered by Assessment Technologies, Inc.) as an admission criteria, at a proficient level or higher.
- Participate in an interview process.
- Submit appropriate documentation, i.e. TOEFL score, if an international student.
- Submit military service documentation.

Although academic criteria (cumulative GPA, grades earned in science core courses, and failed/repeated science courses) are the most important factors in admission consideration, additional non-academic information can be considered. These non-academic factors include but are not limited to:
- Extracurricular activities
- Work experience
- Diversity of experience, such as study abroad, knowledge of other cultures, proficiency in other languages
- Permanent resident of TTUHSC service area county
- First generation college student
- Bilingual
- Socioeconomic status
- Prior enrollment at TTU

All applicants will be reviewed in an individual and holistic manner. No single factor will determine a student’s admission.

NCLEX-RN Examination Eligibility
The Texas Board of Nursing (BON) has identified certain circumstances that may render a potential candidate ineligible for licensure as a registered nurse in the State of Texas. If there is a potential to be denied licensure, students should complete the
Petition of Declaratory Order during the first semester of nursing school.

The Petition for Declaratory Order (http://www.bon.texas.gov/olv/pdfs/DOapp.pdf) is a formal disclosure to the BON of an outstanding eligibility issue that may prevent an applicant from taking the NCLEX examination. The Declaratory Order permits the BON to make decisions regarding a petitioner’s eligibility for licensure prior to entering or completing a nursing program. The petition should be completed as soon as possible. The review process can take a minimum of three (3) months but could be longer depending on the issue and volume of applications. Students who have obtained a Declaratory Order Petition must notify and inform the Traditional Undergraduate Department Chair of the outcome of the petition. If a student answers yes to one of the following questions, a Petition for Declaratory Order must be completed.

For any criminal offense, including those pending appeal, have you:

- Been convicted of a misdemeanor?
- Been convicted of a felony?
- Pled nolo contendere, no contest, or guilty?
- Received deferred adjudication?
- Been placed on community supervision or court-ordered probation, whether or not adjudicated guilty?
- Been sentenced to serve jail or prison time? court-ordered confinement?
- Been granted pre-trial diversion?
- Been arrested or have any pending criminal charges?
- Been cited or charged with any violation of the law?
- Been subject of a court-martial; Article 15 violation; or received any form of military judgment/punishment/action?

(You may only exclude Class C misdemeanor traffic violations.)

- Are you currently the target or subject of a grand jury or governmental agency investigation?
- Has any licensing authority refused to issue you a license or ever revoked, annulled, cancelled, accepted surrender of, suspended, placed on probation, refused to renew a license, certificate or multi-state privilege held by you now or previously, or ever fined, censured, reprimanded or otherwise disciplined you?
- Within the past five (5) years, have you been addicted to and/or treated for the use of alcohol or any other drug?
- Within the past five (5) years have you been diagnosed with, treated, or hospitalized for schizophrenia and/or psychotic disorders, bipolar disorder, paranoid personality disorder, antisocial personality disorder, or borderline personality disorder?

*Pursuant to Occupations Code §301.207, information regarding a person’s diagnosis or treatment for a physical condition, mental condition, or chemical dependency is confidential to the same extent that information collected as part of an investigation is confidential under the Occupations Code §301.466. You may indicate “NO” if you have completed and/or are in compliance with Texas Peer Assistance Program for Nurses (TPAPN) for substance abuse or mental illness.
NOTE: Expunged and Sealed Offenses: While expunged or sealed offenses, arrests, tickets, or citations need not be disclosed, you are responsible for ensuring the offense, arrest, ticket or citation has, in fact, been expunged or sealed. Submission of a copy of the Court Order expunging or sealing the record in question to the Texas Board of Nursing is recommended. Failure to reveal an offense, arrest, ticket, or citation that is not in fact expunged or sealed, will at a minimum, subject your license to a disciplinary fine. Non-disclosure of relevant offenses raises questions related to truthfulness and character.

NOTE: Orders of Non-Disclosure: Pursuant to Texas Government Code § 552.142(b), if you have criminal matters subject to an order of non-disclosure, you are not required to reveal those criminal matters on the declaratory order form. However, a criminal matter subject to an order of non-disclosure may become a character and fitness issue. Pursuant to other sections of the Government Code Chapter 411, the Texas Board of Nursing is entitled to access criminal history record information subject to an order of non-disclosure, even if you properly did not reveal that matter, the Board may require you to provide information about any conduct that raises issues of character.

Statues and Rules governing the Petition for Declaratory Order may be found in the Texas Occupations Code §§ 301.257, 301.452-304.454 (Nursing Practice Act), and in the Board Rules and Regulations relating to Nurse Education, Licensure and Practice, Texas Administrative Code (TAC) Title 22 Examining Boards §§ 213.27-30 and §§ 217.11-12. These statutes and rules can be located on the BON’s website www.bon.state.tx.us.

The Nurse Practice Act (http://www.bon.texas.gov/nursinglaw/npa.html) was amended during the 2005 Texas legislative session, adding Texas Occupations Code § 301.4535, to authorize the Board of Nursing to deny or revoke licensure to an individual for certain criminal offenses. Under the provision, the BON shall refuse or withdraw a license if the person has been convicted of an identified offense or has noted on his or her criminal record a plea of guilty or nolo contendere. The Texas Board of Nursing may consider eligibility for licensure of an applicant, after the fifth anniversary of the successful completion of and dismissal from probation or parole. The criminal offenses barring licensure, as defined by Texas Penal Code, include the following: murder; capital murder; reckless manslaughter; kidnapping, unlawful restraint, or unlawful transport of a person for payment and punishable as a felony; sexual assault; aggravated sexual assault; indecency with a child, an elderly or disabled person; perpetrator of family violence, an agreement to abduct a child; the sale or purchase of a child; robbery; aggravated robbery; an offense that requires the individual to register as a sexual offender; and convections for similar crimes in a military tribunal.

Tuition for Repeated or Excessive Undergraduate Hours
The Texas Education Code – Section 54.014 states: “An institution of higher education may charge a resident undergraduate student tuition at a higher rate than the rate charged to other resident undergraduate
students (not to exceed the rate charged to nonresident undergraduate students)

**IF:** before the semester or other academic session begins, the student has previously **attempted** a number of semester credit hours for courses taken at any institution of higher education while classified as a resident student for tuition purposes that exceeds by at least 30 hours the number of semester credit hours required for completion of the degree program in which the student is enrolled. For purposes of this subsection, an undergraduate student who is not enrolled in a degree program is considered to be enrolled in a degree program or programs requiring a minimum of 120 semester credit hours, including minors and double majors, and for completion of any certificate or other special program in which the student is also enrolled, including a program with a study-abroad component. An institution of higher education that charges students tuition at a higher rate under this subsection may adopt a policy under which the institution exempts from the payment of that higher rate a student that is subject to the payment of the higher rate solely as a result of hardship as determined by the institution under the policy.”

Students who were enrolled as an undergraduate student in any institution of higher education prior to Fall 1999 are exempt from this rule. Also, students enrolled as undergraduate students prior to Fall 2006 may not be charged a higher rate of tuition until the number of semester hours previously attempted exceeds the number of hours required for the student’s degree program by 45 hours.

**Computer Requirements**

See Computer Requirements on page 31.

**Criminal Background Checks**

A Criminal Background Check (CBC) must be completed prior to enrollment at TTUHSC SCHOOL OF NURSING in compliance with TTUHSC OP 10.20. Each student is responsible for the cost of his/her CBC and any additional fees.

Undergraduate students will complete the Criminal Background Check process through the Texas Board of Nursing. Instructions on the process for complying with this requirement will be sent to all new incoming students in the orientation information. This is in accordance with SON OP 30.312.

The following searches are required for students pursuing clinical training through TTUHSC:

- Criminal History Record Information Search (including all residences for the last seven years);
- Social Security Number Trace (residential history, state and year SSN issued);
- Sex Offender Registry;
- Office of Inspector General Sanction Report;
- General Services Administration Excluded List;
- Office of Foreign Asset Control; and
- Texas State Exclusion List.

Additional background checks are required after a break in enrollment in accordance with TTUHSC OP 10.20.
**Immunizations**
See Immunization Requirements on page 32.

**Drug Screening**
Drug Screenings may be required if requested by the clinical institution site.

**Enrollment without Credit/Course Audit**
Students wanting to audit a course for no grade must obtain approval from the Traditional Undergraduate Department Chair. Students auditing a course will not be listed on the official class roll, and no notation of the audit will be made on the student's transcript. Students enrolled for 12 or more semester credit hours may audit a course without paying an additional fee. All other students must pay a $10 fee for auditing a course.

**Provisional Admission**
The Undergraduate Program Committee may admit candidates as provisional students. The term “provisional” applies to any admission applicants who demonstrate potential to succeed in the nursing program but do not meet the minimum admission criteria. These designations are noted in the letter of admission, along with the condition for removal of the provision.

**Readmission**
All requests for readmission must be made no later than two months prior to the first day of the semester in which readmission is requested. The Undergraduate Program Committee (UPC) is responsible for overseeing all readmissions to the School of Nursing. The minimum cumulative grade point average for readmission consideration is 2.5. A student seeking readmission completes an application showing the expected entry point. The Undergraduate Program Committee (UPC) reviews all such requests and may take one of the following actions regarding readmission of a student who withdrew in good standing:
- Eligible and admit,
- Eligible pending space available in nursing courses and in sequence to date of action in relation to other readmission applicants,
- Not eligible.

The UPC may assign requirements to be met as a condition of enrollment, i.e. successful completion of a comprehensive examination. Readmission of a student who has been dismissed or who withdrew for academic or disciplinary causes is based upon the decision of the UPC.

**PRE-REQUISITE COURSES and REQUIREMENTS**
The pre-requisite course requirements listed below should be completed with a grade of “C” or higher in each course prior to enrollment in the first nursing course. These requirements as detailed in the table below include a total of 57 semester credit hours and can be taken at any regionally accredited college or university. A maximum of 15 credit hours can be earned via credit by examination.

The prerequisite courses listed in the following table for the Traditional BSN Program also incorporates the 42 hours of the Texas Tech University Health Sciences Center Core Curriculum for undergraduate nursing degrees. Please see Core Curriculum Requirements on page 25 to review the Texas Core Curriculum requirements.

| TOTAL | 57 |

- Course numbers listed are based on the Texas Common Course Numbering System (TCCNS). Check with your academic institution to verify the course number that corresponds with the TCCNS number.
- Students must complete 3 credit hours of math to meet core curriculum requirements. If the student does not take math statistics, an additional math course must be completed to meet the core requirement.
- Students may substitute 3 credit hours of Texas History for 3 credit hours of United States History.
- 3 credit hours in upper division GOVT may be substituted for GOVT2306 if an A or B was earned in GOVT2305.
- All courses are considered pre-requisite to admission and beginning first semester of nursing course work.
Important Information about Pre-Requisite Course Requirements

- Pass/Fail grades are not accepted for credit toward degree requirements.
- Applicants may choose to request grades for all non-nursing courses greater than 10 years old not be considered in the GPA for admission. If this option is selected, the credits excluded are not eligible for pre-requisite course consideration and must be retaken for credit. The applicant must have at least 34 credit hours within the past 10 years to use this option.
- Grades earned at all schools attended are calculated in the admission grade point average. The quality points and semester credit hours used to calculate the cumulative grade point average for admission to the School of Nursing are taken from the School of Nursing.

The School of Nursing accepts courses completed via classroom, internet, correspondence, CLEP (College Level Examination Program), or advanced placement examination for which credit with the grade of “C” or higher has been awarded and posted on an official transcript from an accredited college or university when determining completion of pre-requisite non-nursing course requirements.

Texas Success Initiative (TSI)
The Texas Success Initiative (TSI), formerly known as the Texas Academic Skills Program (TASP), is a state-required program that is designed to help ensure undergraduate students’ success in their college studies. All students seeking an undergraduate degree from the Texas Tech University Health Sciences Center must satisfy the TSI requirement before enrollment. To obtain TSI details pertaining see Texas Success Initiative.

RECOGNITION OF PREVIOUS NURSING LEARNING
TTUHSC School of Nursing utilizes two methods to acknowledge previous nursing learning. They are (a) transfer of credit and (b) advanced placement. These methods are described below:

Transfer of Credit
- Applicants requesting admission to the BSN Program must submit a letter from each School of Nursing attended from the dean or department chair outlining the student’s academic standing.
- Applicants must submit original copies of official college transcripts from all institutions in which the student has enrolled. The transcripts are reviewed and course work evaluated by the academic advisor and/or Traditional Undergraduate Department Chair. Final determination regarding applicability of completed course work toward degree requirements lies with the Undergraduate Program Committee.
- Course equivalencies for transfer credit are assessed based upon the catalog course description or the course syllabus and/or notes provided by the student. Generally, courses of equivalent course
content completed with the grade of “C” or higher at any accredited educational institution will be accepted for transfer credit toward degree requirements.

- Applicants are encouraged to meet with the Coordinator for the Traditional Undergraduate Department BSN Program or advisor to discuss applicability of transfer credit for degree purposes.
- Credit for nursing courses cannot be earned via credit by examination.
- A maximum of 35 credits from another school may be accepted via transfer.

**Advanced Placement**

Students who have completed courses in nursing are eligible to receive advanced placement. Advanced placement credit may be awarded for credit earned at an agency not part of an institution of higher education, such as a diploma nursing school.

**OFFER OF ADMISSION**

Offers of admission will be made approximately six weeks following the application deadline. Because of limitations on position availability each semester, applicants should respond to the offer of admission no later than the deadline stated in the letter offering admission by returning a $100 non-refundable placement guarantee fee. Failure to respond by the deadline or participate in a mandatory orientation prior to matriculation results in withdrawal of the offer of admission.

**DEGREE REQUIREMENTS FOR STUDENTS ADMITTED TO PROGRAM**

**Graduation Under a Particular Catalog**

A student is expected to complete the degree requirements set forth in the School of Nursing Catalog in effect at the time the student enters the chosen degree or area of study. Only with the specific approval of the appropriate Department Chair may a different Catalog be selected. Students, in all cases are prohibited from completing the requirements set forth in a catalog more than seven years old. The School of Nursing Catalog is published at least biennially and its provisions are applicable during the following academic year (September 1 through August 31). However, a student registering for the first time at TTUHSC during a summer semester is subject to the degree requirements set forth in the Catalog effective for the fall semester immediately following that summer semester.

BSN (Traditional) students are required to complete 57 hours of pre-requisite courses and 63 hours of nursing courses, totaling 120 credit hours.

**Maintaining Minimum Academic Requirements**

- Maintain a 2.0 GPA for each semester and overall cumulative
- A minimum grade of “C” required in all degree required (nursing) courses.
- Students receiving a “D”, “F” or “WF” in a nursing course are eligible to repeat the course one time only pursuant to recommendation of course faculty.
- Students earning an overall cumulative GPA or a semester GPA less than a 2.0 in the semester of graduation are ineligible for graduation.

**Academic Dismissal from the School of Nursing**

will result from the following circumstances:

- A student earning a “D”, “F” or “WF”
in two or more nursing courses in one semester is cause for academic dismissal.

- Students earning a “D,” “F” or “WF” in a third nursing course, even when students successfully complete the courses in which the previous “D”s, “F”s or “WF”s were earned.
- Earning less than a 2.0 per semester or cumulative GPA for two consecutive semesters.
- Making a “D,” “F,” or “WF” in the same nursing course twice.

Comprehensive Examinations
Students in the Traditional Undergraduate Department BSN Program must have a passing score on the comprehensive examination administered in NURS 4620. If a student is not successful on the examination, the student should meet with the Department Chair to determine the next steps in progression.

Residence Credit
The minimum actual residence credit required of each undergraduate student is 30 hours at TTUHSC, including the final 15 hours in nursing courses taken for a grade. The remaining hours may include transfer credit and correspondence course work. Residence credit as used here means credit for work done while enrolled in and attending classes at TTUHSC and should not be confused with “residence” in the State of Texas for tuition purposes.

Semester Credit Hours and Course Loads
The semester credit hour is the unit of measure for credit purposes. Didactic (lecture) hours are measured on a one-to-one basis; clinical hours are measured on a one-to-three basis. Approximately two hours in preparation for each hour of lecture or recitation and an appropriate amount of time for preparation for clinical activity is required. Traditional Undergraduate Department BSN Program enrollment in 12 or more credit hours per semester (6 or more credit hours in each summer session, or 12 or more credit hours in a full summer session) constitutes full-time enrollment. The number of semester credit hours a student may carry (course load) is regulated by the Department Chair. In determining course load, the Traditional Undergraduate BSN Program Department Chair takes into account the quality of prior scholastic work performed and the types of courses involved. Permission is needed to enroll in more than 20 semester credit hours.

DEGREE PLAN
Degree plans are generally completed by the Student Affairs Coordinator for the Traditional Undergraduate Department BSN Program during new student orientation. The degree plan may be revised based on a student’s ability to successfully progress through the curriculum. Course enrollment may be limited based on available resources, including but not limited to, availability of clinical sites within the community. The following degree plan is designed for applicants without a RN license. The sample degree plan provides as an overview of a basic course schedule for full time students. Length of the program varies depending on the student’s ability to progress through the program. Summers courses may be required based on performance in previous courses. All non-nursing courses should be completed prior to taking the first nursing course. When necessary, methods for limiting enrollment will be determined by the Traditional Undergraduate Department BSN Program Chair.

Traditional BSN Program Course Descriptions

Traditional Undergraduate BSN courses are delivered via traditional, Web-enhanced, and Web-based methodologies.

All pre/co-requisites and any designated conditions/criteria for previous courses apply throughout the curriculum. All general education courses should be completed prior to beginning the nursing curriculum.

KEY:
- Courses are listed in numerical order
- (T) Traditional course methodology
- (WE) Web-enhanced (combination of face-to-face and on-line)
- (WB) Web-based (completely on-line)
- (CL) Concurrent enrollment in a Clinical Section is required
- (#:#:#) First # represents the number of credit hours, Second # represents the number of lecture hours per week, Third # represents the number of clinical hours per week
- * Elective Courses are offered at select times as faculty and interest are present
- (V) Variable Credit

3000 Level Courses

3030. Independent Study in Nursing (V1-6 WE, WB) (Traditional BSN) (Pre-requisite: Consent of instructor and Department Chair for Undergraduate Traditional Program.) Topic and objectives of study are mutually agreed upon by the student and selected faculty member. Independent study agreement formalizes the plan for study and guides evaluation. Semester hours and course may be repeated as topic and/or objective of study change.

3040. Special Topics in Nursing (V1-6 WE, WB) (Traditional BSN) (Prerequisite: Consent of instructor and Department Chair for Undergraduate Traditional Program) Designed to focus on subjects of special interest to groups of students. May be repeated for credit as topics vary.

3126. Scholarship for Evidence-based Practice I (1:1:0 WE) (Traditional BSN) (Corequisites: Admission to the School of Nursing, NURS3226, NURS3307, NURS3901.) This is an introductory course exploring the theory and methods of evidence based practice with emphasis on its role in providing quality patient-centered care in the medical/surgical setting.

3226. Foundational Aspects of Professional Communication (CL 2:1.5:1.5 WE) (Traditional BSN) (Corequisites: Admission to the School of Nursing, NURS3126, NURS3307 and NURS3901.) This course is designed to prepare students to communicate effectively in an intra-professional and an inter-professional approach. The focus includes professional therapeutic patient/client communication. The students will be expected to be able to listen, comprehend, and communicate accurate intellectual and affective understanding.
3227. Nursing Care of the Aging Adult  
(CL 2:1:3 WE)  
(Traditional BSN) (Prerequisites: NURS3126, NURS3226, NURS3307, and NURS3901.) (Corequisites: NURS3320, NURS3331, and NURS3801.) An introduction to concepts of aging with a focus on health promotion, access to healthcare, maintenance of functional capacity and physiologic changes. Includes concepts to improve quality of life during common conditions experienced by the aging adult through interprofessional collaboration.

3307. Health Assessment  
(CL 3:2:3 WE)  
(Traditional BSN) (Corequisites: Admission to the School of Nursing, NURS3126, NURS3226, and NURS3901.) An introduction to health assessment as a systematic process with emphasis on developing skill in the techniques of assessment and therapeutic communication across the life span. Includes introductory concepts of data collection, health history, physical examination, use of technology to access and document holistic health assessment and clinical decision making. Performance assessment of skills is required in a laboratory experience.

3316. Foundational Concepts of Nursing Practice-Didactic  
(3:3:0 WE)  
(Traditional BSN) (Corequisites: Admission to the School of Nursing, NURS3126, NURS3226, NURS3307 and NURS3620.) This course is an introduction to nursing as a systematic process with emphasis on the knowledge, core to evidence based professional nursing care, utilizing an attitude of clinical reasoning. Emphasis is on recognizing shared commonalities, yet diverse as to age, gender, religion, race, ethnicity, culture, lifestyle, socio-economic class, and sexual orientation, on the client’s health care.

3317. Perioperative Care  
(3:2:3 WE)  
(Traditional BSN) (*Elective) (Prerequisites: [NURS3385 and NURS3520 or NURS3801], NURS3320, NURS3331 and NURS3227, or the consent of the department chair.) This course will introduce concepts basic to care of the surgical patient. The course will include standards of care, nursing roles, basic instrumentation and types of surgical interventions. Finally the course will integrate the nursing process in the preoperative, intraoperative, and postoperative phases of care.

3318. Oncology  
(3:1:6 WE)  
(Traditional BSN) (*Elective) (Prerequisites: [NURS3385 and NURS3520 or NURS3801], NURS3320, NURS3331 and NURS3227, or the consent of the department chair.) An introduction to nursing in an oncology setting. Concepts in the course include: patient self-advocacy, empathy versus sympathy, the interdisciplinary team in an oncology setting, current and evolving treatments for cancer, cancer prevention, genetic counseling, and the role of the nurse in cancer patient care. Also included are informatics systems, online resources for cancer patients, and the interpretation of objective and subjective patient data in an oncology setting.
3319. Adult High Acuity Nursing  
(3:1:6 WB)  
(Traditional BSN) (*Elective) (Prerequisites: [NURS4510 and NURS4398 or NURS4800] and the consent of the instructor.) This course introduces the concepts of acute care nursing in the intensive care and emergency department settings. In addition, the course provides opportunities for students to explore the concepts of teamwork with patients, families, and health care professionals in a dynamic environment. Basic nursing skills are enhanced as the student uses nursing process to refine their clinical judgment and patient care skills while caring for acutely ill patients. Preceptors are used to provide students with intensive care and emergency department clinical hours.

3320. Pharmacology  
(CL 3:1.5:4.5 WE)  
(Traditional BSN) (Prerequisites: NURS3126, NURS3226, NURS3307 and NURS3901.) (Corequisites: NURS3227, NURS3320 and NURS3801.) This course introduces principles of pharmacodynamics and pharmacotherapy. Included will be classifications of drugs, the use of the nursing process for safe medication administration including legal and ethical standards. Life span, genetic, and cultural implications of drug therapy are explored. Evidenced based practice will be utilized using case studies and simulation of dosage calculations, routes and skills of administration, and methods of documentation.

3321. Current Concepts of Pharmacology  
(3:1.5:4.5 WE)  
(Traditional BSN) (*Elective) (Prerequisites: [NURS3385 and NURS3520 or NURS3801], NURS3320, NURS3331 and NURS3227, or the consent of the department chair.) This course is designed to enhance the students understanding of pharmacology in relation to routes and safe medication administration. This course will incorporate previous learned knowledge and skills of safe medication administration and implement concepts in clinical/hospital/simulations setting.

3331. Mental Health Nursing  
(CL 3:2:3 WE)  
(Traditional BSN) (Prerequisites: NURS3126, NURS3226, NURS3307 and NURS3901.) (Corequisites: NURS3227, NURS3320 and NURS3901.) This course emphasizes the concepts of altered mental health and the pathological processes associated with mental health disorders. The focus is on approaches to promote mental health/optimal function in the care of patients, groups, and families experiencing altered states of mental health utilizing evidence based standards of care.

3341. Nursing Care of the Patient Experiencing Cardiac Dysrhythmias  
(CL 3:1.4:4.8 WE)  
(Traditional BSN) (*Elective)  
(Prerequisites: [NURS3385 and NURS3520 or NURS3801], NURS3320, NURS3331 and NURS3227, or the consent of the department chair.) This course includes assessment and nursing diagnosis of adult clients experiencing cardiac dysrhythmias. Pathophysiology, therapeutic modalities, patient/family response and nursing implications are emphasized throughout the course. The importance of interdisciplinary collaboration in the care of the patient.
experiencing cardiac dysrhythmias is stressed. The course incorporates a variety of teaching modalities including interactive computer technology, computer assisted instruction, video, seminars, and clinical observation.

3357. Holistic Health Practices in Stress Management  
(3:3:0 WE)  
(Traditional BSN) (*Elective) (Prerequisites: [NURS3385 and NURS3520 or NURS3801] NURS3320, NURS3331 and NURS3227, or the consent of the department chair.) This course is an introduction to holistic health in stress management. Includes the role of the mind, body and universe in attaining high level wellness; stress and its relationship to health; and the interaction of holistic health practices in the management of stress.

3365. Introduction and Exploration into the Multiple Aspects of Forensic Science  
(3:3:0 WE)  
(Traditional BSN) (*Elective) (Prerequisites: [NURS3385 and NURS3520 or NURS3801] NURS3320, NURS3331 and NURS3227, or the consent of the department chair.) Forensic science has multiple, significant procedures and guidelines which contribute to the medico legal analysis in the criminal justice system. It also provides support and treatment for victims and family members. Multiple disciplines, such as nursing, medicine, law, psychology, and the sciences necessary to make forensic science operate, will be explored. Content to be addressed includes assessment, intervention, and utilization of community resources; legal issues; and evaluation of forensic evidence.

The course will give the student a general understanding and appreciation of forensic sciences.

3366. Hospice and Palliative Care  
(CL 3:2.5:1.5 WE)  
(Traditional BSN) (*Elective)  
(Prerequisites: [NURS3385 and NURS3520 or NURS3801], NURS3320, NURS3331 and NURS3227, or the consent of the department chair.) This course will utilize readings from sociology, psychology, religion, and medical and nursing sciences as a background for discussing and analyzing therapeutic nursing interventions for care of the terminally ill client. Clinical and experimental techniques will be utilized to promote thought and discussion in order to explore death in its personal, general, and professional significance.

3367. Violence in Families  
(CL 3:2:3 WE)  
(Traditional BSN) (*Elective) (Prerequisites: [NURS3385 and NURS3520 or NURS3801], NURS3320, NURS3331 and NURS3227, or the consent of the department chair.) Family violence has multiple, significant consequences for victims and members of families in which violence occurs. Concepts of assessment, intervention, utilization of community resources, and evaluation of violence in families are included.

3368. High Risk Obstetrics in Nursing  
(CL 3:2.5:1.5 WE)  
(Traditional BSN) (*Elective) (Prerequisite: NURS4306 or consent of the Department Chair for the Undergraduate Traditional Program.) This course will explore the scope of high risk pregnancy in which the life or health of the mother or fetus is in jeopardy.
due to complications that are either unique to pregnancy or are due to disorders that coincide with the pregnancy.

3369. Community Mental Health Nursing (3:3:0 WB)  
(Traditional BSN) (*Elective) (Prerequisites: [NURS3385 and NURS3520 or NURS3801], NURS3320, NURS3331 and NURS3227, or the consent of the department chair.) A study of mental illness in the community for beginning nursing practice. Emphasis on transition of psychiatric-mental health nursing into the community-based mental health care system. Major areas addressed are political and economic perspectives, client advocacy, roles and responsibilities of psychiatric nurses in the community, community-based mental health services, and at-risk populations.

3371. Legal and Ethical Issues in Healthcare (3:3:0 WE)  
(Traditional BSN) (*Elective) (Prerequisites: [NURS3385 and NURS3520 or NURS3801], NURS3320, NURS3331 and NURS3227, or the consent of the department chair.) An interdisciplinary course surveying major legal and ethical issues in the delivery of healthcare.

3374. Philosophical Issues and Problems in Human Caring (3:3:0 WE)  
(Traditional BSN) (*Elective) (Prerequisites: NURS3385 and NURS3520 or NURS3801, NURS3320, NURS3331 and NURS3227, or the consent of the department chair.) Exploration of different avenues of approaching philosophical dilemmas in providing care to clients whose behaviors and value systems are difficult to accept. Examines select issues from the standpoints of philosophy and nursing.

3385. Concepts of Chronic Care Nursing (3:3:0 WE)  
(Traditional BSN) (Prerequisites: NURS3126, NURS3226, NURS3307, NURS3316 and NURS3620 (Corequisites: NURS3227, NURS3320, NURS3331 and NURS3520.) This course emphasizes chronic care nursing concepts essential for professional nursing practice in a variety of settings. Special focus is on the concepts of aging, health promotion, disease prevention, and genetics as well as illness management. Clinical judgment and reasoning and the integration of therapeutic nursing skills will be demonstrated through case study analysis and critical thinking activities.

3403. Critical Care in Pediatric Nursing Elective (4:2:6 WE)  
(Traditional BSN) (*Elective) (Prerequisites: NURS4306 and NURS4307.) This course emphasizes essential nursing concepts of children's health and illness. The focus is on safe professional practice in pediatric critical care settings centering on care appropriate for the child's age and development. Additionally, students will demonstrate ability to reason clinically/use critical thinking by applying evidence based practice in both simulation and clinical setting.

3520. Chronic Care Nursing Clinical (5:0:15 WE)  
(Traditional BSN) (Prerequisites: NURS3126, NURS3226, NURS3307, NURS3316 and NURS3620.) (Corequisites:
NURS3227, NURS3320, NURS3331 and NURS3385.) This course provides opportunities for students to integrate knowledge and theory essential to the care of patients experiencing chronic health alterations, with special focus on needs of the aging population. Clinical judgment and reasoning, therapeutic nursing skills, genetics, and pharmacology concepts necessary for chronic care delivery are demonstrated in the application of evidence based nursing care through case studies and weekly clinical experiences.

3620. Foundational Concepts of Nursing Practice-Clinical
(6:0:18 WE)
(Traditional BSN) (Corequisites: Admission to the School of Nursing, NURS3126, NURS3226, NURS3307 and NURS3316.) This course is an introduction to nursing as a systematic process with emphasis on the knowledge core to evidence-based professional nursing care, utilizing an attitude of clinical reasoning. Emphasis is on recognizing shared commonalities, yet diverse as to age, gender, religion, race, ethnicity, culture, lifestyle, socio-economic class, and sexual orientation, on the client’s health.

3801. Concepts of Chronic Care Nursing
(CL 8:3:15 WE)
(Traditional BSN) (Prerequisites: NURS3126, NURS3226, NURS3307 and NURS3901) (Corequisites: NURS3227 and NURS3311) This course emphasizes chronic care nursing concepts essential for professional nursing practice in a variety of settings. Special focus is on the concepts of aging, health promotion, disease prevention, and genetics as well as illness management. Clinical judgment and reasoning and the integration of therapeutic nursing skills will be demonstrated through case study analysis and critical thinking activities.

3901. Foundational Concepts of Nursing Practice
(CL 9:3:18 WE)
(Traditional BSN) (Corequisites: Admission to the School of Nursing, NURS3126, NURS3226, and NURS3307.) This course is an introduction to nursing as a systematic process with emphasis on the knowledge core to evidence based professional nursing care, utilizing an attitude of clinical reasoning. Emphasis is on recognizing shared commonalities, yet diverse as to age, gender, religion, race, ethnicity, culture, lifestyle, socio-economic class, and sexual orientation, on the client’s health care.

4000 Level Courses

4106. Introduction to Nursing Informatics
(1:1:0 WE)
(Traditional BSN) (Prerequisites: NURS4206, NURS4306, NURS4307, and NURS4800). (Corequisites: NURS4317, NURS4320 and NURS4620.) This course will explore the core concepts, skills, and technology used in nursing informatics. The student will examine the use of current technology to promote safe, patient centered, quality care in the global healthcare system.

4206. Scholarship for Evidence-based Practice II
(2:2:0 WE)
(Traditional BSN) (Prerequisites: NURS3227, NURS3320, NURS3331,
This course focuses on the asking and answering of clinical nursing questions through the synthesis of current literature and analysis of clinical practice guidelines.

4306. Nursing Care of the Childbearing Family
(CL 3:2:3 WE)
(Traditional BSN) (Prerequisites: NURS3227, NURS3320, NURS3331, [NURS3385 and NURS3520 or NURS3801].) (Corequisites: NURS4206, NURS4307, NURS4800.) Encompasses concepts related to the safe delivery of quality nursing care to childbearing families. Focuses on application of the nursing process of the childbearing family unit. Special emphasis is placed upon communication within an interdisciplinary team, patient safety including principles of infection control, quality improvement, evidenced based nursing care related to traditional and alternative birth processes, patient centered care with consideration of cultural differences to the childbirth experience and the use of informatics and technology.

4307. Aspects of Pediatric Nursing
(CL 3:2:3 WE)
(Traditional BSN) (Prerequisites: NURS3227, NURS3320, NURS3331, [NURS3385 and NURS3520 or NURS3801].) (Corequisites: NURS4206, NURS4306, NURS4800.) This course emphasizes essential nursing concepts of children's health and illness. The focus is on safe professional practice in pediatric acute care and outpatient settings centering on care appropriate for the child's age and development. Additionally, students will demonstrate ability to reason clinically/use critical thinking by applying evidence based practice in both simulation and clinical setting.

4317. Community and Population Health
(CL 3:2:3 WE)
(Traditional BSN) (Prerequisites: NURS4206, NURS4306, NURS4307, and NURS4800.) (Corequisites: NURS4106, NURS4320 and NURS4620.) This course emphasizes public health and community nursing concepts essential for professional nursing practice. Focus is on the concepts of community health nursing practice, epidemiology and disease transmission, comprehensive assessment of risk factors and health problems, program planning and intervention, environmental health, collaboration with the interdisciplinary team, health promotion and disease prevention.

4320. Professional Role of Leader and Manager
(3:3:0 WE)
(Traditional BSN) (Prerequisites: NURS4206, NURS4306, NURS4307, and NURS4800.) (Corequisites: NURS4106, NURS4317 and NURS4620.) This course incorporates the role of the nurse as a leader and manager in nursing. Students will utilize selected theories and concepts to generate knowledge, skills, and attitudes related to the role of leader and manager. The course provides opportunity for the students to explore the role of the nursing profession in a global healthcare environment.
4398. Concepts of Acute Care Nursing—Didactic (3:3:0 WE)
(Traditional BSN) (Prerequisites NURS3227, NURS3320, NURS3331, NURS3385 and NURS3520.) (Corequisites: NURS4206, NURS4306, NURS4307 and NURS4510.) This course emphasizes acute care nursing concepts essential for professional nursing practice in complex adult medical/surgical environments. Advanced clinical judgment, reasoning and therapeutic nursing skills are demonstrated in the application of evidence based nursing care through the use of in case study analysis with increasing complexities and critical thinking activities. The focus is on complex disease management including environmental factors, genetic risks, and preventive care using a collaborative approach.

4510. Acute Care Nursing—Clinical (5:0:15 WE)
(Traditional BSN) (Prerequisites: NURS3227, NURS3320, NURS3331, NURS3385 and NURS3520.) (Corequisites: NURS4206, NURS4306, NURS4307 and NURS4398.) This course provides opportunities for students to synthesize generalist nursing roles of provider, manager of nursing care in the clinical and simulated acute care setting. Clinical judgment and reasoning and therapeutic nursing skills necessary in the acute care delivery are demonstrated in the application of evidence based nursing care through simulated case studies and weekly clinical experiences.

4620. Professional Transitions (CL 6:3:9 WE)
(Traditional BSN) (Prerequisites: NURS4206, NURS4306, NURS4307, and NURS4800.) (Corequisites: NURS4106, NURS4317 and NURS4320.) This course focuses on the role of the professional nurse using evidence-based practice and quality standards to deliver safe holistic care to the culturally diverse complex client and family. Emphasis is on the transition of the student nurse into a professional role which includes their ability to apply concepts related to interprofessional teamwork, informatics and patient-centered care.

4800. Concepts of Acute Care Nursing (CL 8:3:15 WE)
(Traditional BSN) (Prerequisites: NURS3227, NURS3320, NURS3331 and NURS3801.) (Corequisites: NURS4206, NURS4306, NURS4307 and NURS4800) This course emphasizes acute care nursing concepts essential for professional nursing practice in complex adult medical/surgical environments. Advanced clinical judgment, reasoning and therapeutic nursing skills are demonstrated in the application of evidence based nursing care through the use of a case study analysis with increasing complexities and critical thinking activities. The focus is on complex disease management including environmental factors, genetic risks, and preventive care using a collaborative approach.
Non-Traditional Undergraduate Department

Second Degree BSN Program
Melinda Mitchell Jones, MSN, JD, RN, Department Chair

Second Degree BSN (applicants who do not currently have a RN license)
Texas Tech University Health Sciences Center School of Nursing offers an accelerated second-degree web-based baccalaureate nursing degree (Second Degree Program) for students with previous baccalaureate degrees, initially targeting recruits from both the Austin/Hill Country and West Texas communities of Lubbock, Abilene, Amarillo, and the Permian Basin. The Second Degree Program goals are derived from the mission of the TTUHSC School of Nursing as well as the organizing framework for the program. The program strives to prepare graduates to provide direct care to individuals, families, and communities with complex health care needs in structured and unstructured settings, to prepare graduates with a professional commitment to nursing excellence for present and emerging healthcare arenas and to provide a foundation for future graduate education in nursing.

Under the guidance of the Department Chair of Non-Traditional Undergraduate Department, all qualified applicants are carefully evaluated individually and holistically. Admission to the Second Degree program is highly competitive and only the most qualified applicants are selected. Applicants to the Second Degree (Pre-licensure) program can seek admission to the School of Nursing through one entry point in the school’s curriculum. Students from the El Paso area wishing to enroll in the Second Degree Program should apply for admission the Gayle Greve Hunt School of Nursing.

The TTUHSC School of Nursing offers the student the opportunity to complete the degree in three consecutive semesters, with admission for the Lubbock/Permian Basin/Abilene/Amarillo cohorts in August and admission for the Austin/Hill Country cohorts in January each year. Beginning in the 2015 academic year (September 1 – August 31), all admissions will occur in the spring semester, (beginning January 2015). This will affect all campuses currently admitting in the fall semester including Lubbock, Abilene, Odessa, and Amarillo. Students should complete all non-nursing courses with a grade of “C” or higher prior to admission. Students must complete all science pre-requisites with a grade of “C” or higher (Chemistry, Pathophysiology, Microbiology, Anatomy (A&P I), and Physiology (A&P II). Students must have completed a minimum of 55 credit hours of pre-requisite courses prior to enrollment in the first nursing course.

ADMISSIONS REQUIREMENTS
All Second Degree BSN applicants are required to:
• Submit a completed application and non-refundable application fee of $40 to the TUHSC Merlin application for admission to the School of Nursing. The application for fall 2013 is open from March 25 through May 25 for the Abilene, Amarillo, Lubbock and Permian Basin campuses. The
application for spring 2014 is open from August 1 through October 1 for the Austin/Hill Country area.

- Beginning in the 2015 academic year (September 1 – August 31), all admissions will occur in the spring semester only, (beginning January 2015). The application will open from May 1 through July 1. There will be no admissions for fall 2014.

- Received previous Bachelor's Degree.
- Complete all required general education courses with a grade of “C” or higher as a pre-requisite for admission.
- Earn cumulative science and pre-requisite minimum GPA of 3.0.
- Submit original copies of official college transcripts from all institutions in which the student has enrolled.
- Successful completion of a 1 hour medical terminology course (certificate or transcript should be provided as documentation of completion).
- Complete the TEAS standardized exam at a proficient level or higher.
- Complete certified nursing assistant program.
- Complete basic life support (BLS) for health care providers (CPR with AED training) from the American Heart Association.
- Attend a personal, face-to-face scheduled interview with a member of the Admissions Committee.
- Submit a letter from the Dean or Department Chair from any school of nursing attended outlining the applicant's academic standing within the school.
- Submit appropriate documentation, i.e. TOEFL (refer to policy in this catalog).
- Provide a written commitment to not seek outside employment during the period of enrollment during the course of study.

Although academic criteria (cumulative GPA, grades earned in science courses, and failed/repeated courses) are important factors in admission consideration, additional non-academic information can be considered. These non-academic factors include but are not limited to:

- Extracurricular activities
- Work experience
- Military experience
- Diversity of experience, such as study abroad, knowledge of other cultures, proficiency in other languages
- Permanent resident within a TTUHSC service area counties
- First generation college student
- Bilingual
- Socioeconomic status
- Prior enrollment at Texas Tech University.
- Residency status

All applicants will be reviewed in an individual and holistic manner. No single factor will determine a student's admission.

NCLEX-RN Examination Eligibility
The Texas Board of Nursing (BON) has identified certain circumstances that may render a potential candidate ineligible for licensure as a registered nurse in the State of Texas. If there is a potential to be denied licensure, students should complete the Petition of Declaratory Order during the first semester of nursing school.

The Petition for Declaratory Order (http://
www.bon.texas.gov/olv/pdfs/DOapp.pdf is a formal disclosure to the BON of an outstanding eligibility issue that may prevent an applicant from taking the NCLEX examination. The Declaratory Order permits the BON to make decisions regarding a petitioner’s eligibility for licensure prior to entering or completing a nursing program. The petition should be completed as soon as possible. The review process can take a minimum of three (3) months but could be longer depending on the issue and volume of applications. Students who have obtained a Declaratory Order Petition must notify and inform the Non-Traditional Department Chair of the outcome. If a student answers yes to one of the following questions, a Petition for Declaratory Order must be completed.

- For any criminal offense, including those pending appeal, have you:
  - Been convicted of a misdemeanor?
  - Been convicted of a felony?
  - Pled nolo contendere, no contest, or guilty?
  - Received deferred adjudication?
  - Been placed on community supervision or court-ordered probation, whether or not adjudicated guilty?
  - Been sentenced to serve jail or prison time? court-ordered confinement?
  - Been granted pre-trial diversion?
  - Been arrested or have any pending criminal charges?
  - Been cited or charged with any violation of the law?
  - Been subject of a court-martial; Article 15 violation; or received any form of military judgment/punishment/action?

(You may only exclude Class C misdemeanor traffic violations.)

- Are you currently the target or subject of a grand jury or governmental agency investigation?
- Has any licensing authority refused to issue you a license or ever revoked, annulled, cancelled, accepted surrender of, suspended, placed on probation, refused to renew a license, certificate or multi-state privilege held by you now or previously, or ever fined, censured, reprimanded or otherwise disciplined you?
- Within the past five (5) years, have you been addicted to and/or treated for the use of alcohol or any other drug?
- Within the past five (5) years have you been diagnosed with, treated, or hospitalized for schizophrenia and/or psychotic disorders, bipolar disorder, paranoid personality disorder, antisocial personality disorder, or borderline personality disorder?

*Pursuant to Occupations Code §301.207, information regarding a person’s diagnosis or treatment for a physical condition, mental condition, or chemical dependency is confidential to the same extent that information collected as part of an investigation is confidential under the Occupations Code §301.466. You may indicate “NO” if you have completed and/or are in compliance with Texas Peer Assistance Program for Nurses (TPAPN) for substance abuse or mental illness.

NOTE: Expunged and Sealed Offenses:
While expunged or sealed offenses, arrests,
tickets, or citations need not be disclosed, you are responsible for ensuring the offense, arrest, ticket or citation has, in fact, been expunged or sealed. Submission of a copy of the Court Order expunging or sealing the record in question to the Texas Board of Nursing is recommended. Failure to reveal an offense, arrest, ticket, or citation that is not in fact expunged or sealed, will at a minimum, subject your license to a disciplinary fine. Non-disclosure of relevant offenses raises questions related to truthfulness and character.

**NOTE: Orders of Non-Disclosure:**
Pursuant to Texas Government Code § 552.142(b), if you have criminal matters subject to an order of non-disclosure, you are not required to reveal those criminal matters on the declaratory order form. However, a criminal matter subject to an order of non-disclosure may become a character and fitness issue. Pursuant to other sections of the Government Code Chapter 411, the Texas Board of Nursing is entitled to access criminal history record information subject to an order of non-disclosure, even if you properly did not reveal that matter, the Board may require you to provide information about any conduct that raises issues of character.

Statues and Rules governing the Petition for Declaratory Order may be found in the Texas Occupations Code §§ 301.257, 301.452-304.454 (Nursing Practice Act), and in the Board Rules and Regulations relating to Nurse Education, Licensure and Practice, Texas Administrative Code (TAC) Title 22 Examining Boards §§ 213.27-30 and §§ 217.11-12. These statutes and rules can be located on the BON’s website [www.bon.state.tx.us](http://www.bon.state.tx.us).

The Nurse Practice Act ([http://www.bon.texas.gov/nursinglaw/npa.html](http://www.bon.texas.gov/nursinglaw/npa.html)) was amended during the 2005 Texas legislative session, adding Texas Occupations Code § 301.4535, to authorize the Board of Nursing to deny or revoke licensure to an individual for certain criminal offenses. Under the provision, the BON shall refuse or withdraw a license if the person has been convicted of an identified offense or has noted on his or her criminal record a plea of guilty or nolo contendere. The Texas Board of Nursing may consider eligibility for licensure of an applicant, after the fifth anniversary of the successful completion of and dismissal from probation or parole. The criminal offenses barring licensure, as defined by Texas Penal Code, include the following: murder; capital murder; reckless manslaughter; kidnapping, unlawful restraint, or unlawful transport of a person for payment and punishable as a felony; sexual assault; aggravated sexual assault; indecency with a child, an elderly or disabled person; perpetrator of family violence, an agreement to abduct a child; the sale or purchase of a child; robbery; aggravated robbery; an offense that requires the individual to register as a sexual offender; and convections for similar crimes in a military tribunal.

**Tuition for Repeated or Excessive Undergraduate Hours**
The Texas Education Code – Section 54.014 states: “An institution of higher education may charge a resident undergraduate student tuition at a higher rate than the rate charged to other resident undergraduate students (not to exceed the rate charged to nonresident undergraduate students)
**IF:** before the semester or other academic session begins, the student has previously **attempted** a number of semester credit hours for courses taken at any institution of higher education while classified as a resident student for tuition purposes that exceeds by at least 30 hours the number of semester credit hours required for completion of the degree program in which the student is enrolled. For purposes of this subsection, an undergraduate student who is not enrolled in a degree program is considered to be enrolled in a degree program or programs requiring a minimum of 120 semester credit hours, including minors and double majors, and for completion of any certificate or other special program in which the student is also enrolled, including a program with a study-abroad component. An institution of higher education that charges students tuition at a higher rate under this subsection may adopt a policy under which the institution exempts from the payment of that higher rate a student that is subject to the payment of the higher rate solely as a result of hardship as determined by the institution under the policy.  

Students who were enrolled as an undergraduate student in any institution of higher education prior to Fall 1999 are exempt from this rule. Also, students enrolled as undergraduate students prior to Fall 2006 may not be charged a higher rate of tuition until the number of semester hours previously attempted exceeds the number of hours required for the student's degree program by 45 hours.

**Computer Requirements**
See Computer Requirements on page 31.

**Criminal Background Checks**
A Criminal Background Check (CBC) must be completed prior to enrollment at TTUHSC SCHOOL OF NURSING in compliance with TTUHSC OP 10.20. Each student is responsible for the cost of his/her CBC and any additional fees.

Undergraduate students will complete the Criminal Background Check process through the Texas Board of Nursing. Instructions on the process for complying with this requirement will be sent to all new incoming students in the orientation information. This is in accordance with SON OP 30.312.

The following searches are required for students pursuing clinical training through TTUHSC:
- Criminal History Record Information Search (including all residences for the last seven years);
- Social Security Number Trace (residential history, state and year SSN issued);
- Sex Offender Registry;
- Office of Inspector General Sanction Report;
- General Services Administration Excluded List;
- Office of Foreign Asset Control; and
- Texas State Exclusion List.

Additional background checks are required after a break in enrollment in accordance with TTUHSC OP 10.20.

**Immunizations**
See Immunization Requirements on page 32.
**Drug Screening**
Drug Screenings may be required if requested by the clinical institution site at the cost of the student.

**Enrollment Without Credit/Course Audit**
Students wanting to audit a course for no grade must obtain approval from the Non-Traditional Undergraduate Department Chair. Students auditing a course will not be listed on the official class roll, and no notation of the audit will be made on the student’s transcript. Students enrolled for 12 or more semester credit hours may audit a course without paying an additional fee. All other students must pay a $10 fee for auditing a course.

**Provisional Admission**
Provisional admission is not available for the Second Degree Program.

**Conditional Admission**
If the requirements for full admission are not met, conditional admission may be available. The student is required to comply with “conditions” stated in the letter of admission offer prior to the first day of class for the semester the student is applying for. Examples of conditional admission are as follows but not limited to:
- Baccalaureate degree completion confirmation (student graduating in current semester and verification is not available until the end of the semester)
- CNA certification confirmation (student will not have verification until after admission process is over but before the semester of admission begins)
- Pre-requisite courses have not been completed prior to admission process

**Readmission**
All requests for readmission must be made no later than two months prior to the first day of the semester in which readmission is requested. The Undergraduate Program Committee (UPC) is responsible for overseeing all readmissions to the School of Nursing. A student who left in good standing and is seeking readmission shall complete and submit a readmission application showing the expected entry point to the Second Degree Program Admissions Coordinator. The Second Degree Program Admission Coordinator will notify the Chair of the UPC of the request for readmission along with providing the most current transcript, and a summary of the circumstances of the student’s withdrawal if known.

A student who left with a record not in good standing because of withdrawal for academic or disciplinary causes must complete and submit a readmission application to the Second Degree Program Admissions Coordinator along with a letter explaining the circumstances resulting in the withdraw and the plan to improve or correct performance if offered readmission. The Second Degree Program Admissions Coordinator will forward the application, the letter, and any available academic records including the most recent transcript to the Chair of the UPC. The UPC at the next scheduled meeting shall review all such requests and may take one of the following actions regarding readmission of a student:
- Eligible and admit,
- Eligible pending space available in nursing courses and in sequence to date of action in relation to other readmission applicants,
- Not eligible.
The UPC may assign requirements to be met as a condition of enrollment, i.e. readmission on a part-time degree plan. The UPC may assign requirements to be met as a condition of enrollment, i.e. readmission on a part-time degree plan.

**Transfer Student**
Applicants are encouraged to meet with the School of Nursing Non-Traditional Program Department Chair or the Second Degree Coordinator to discuss applicability of transfer credit for degree purposes.

**PRE-REQUISITE COURSES and REQUIREMENTS**
The pre-requisite course requirements listed below should be completed with a grade of “C” or higher in each course prior to enrollment in the first nursing course. These requirements as detailed in the table below include a total of 55 semester credit hours and can be taken at any regionally accredited college or university. A maximum of 15 credit hours can be earned via credit by examination.

The prerequisite courses listed below for the Second Degree BSN Program also incorporate the 42 hours of the Texas Tech University Health Sciences Center Core Curriculum for undergraduate nursing degrees. Please see Core Curriculum Requirements on page 17 to review the Texas Core Curriculum requirements.

- Course numbers listed are based on the Texas Common Course Numbering System (TCCNS). Check with your academic institution to verify the course number that corresponds with the TCCNS number.
- Students must complete 3 credit hours of math to meet core curriculum requirements. If the student does not take math statistics, an additional math course must be completed to meet the core requirement.
- Students may substitute 3 credit hours of Texas History for 3 credit hours of United States History.
- 3 credit hours in upper division GOVT may be substituted for GOVT2306 if an A or B was earned in GOVT2305.
- All courses are considered pre-requisite to admission and beginning first semester of nursing course work.
Important Information about Pre-Requisite Course Requirements

- Pass/Fail grades are not accepted for credit toward degree requirements.
- Applicants may choose to request grades for all non-nursing courses greater than 10 years old not be considered in the GPA for admission. If this option is selected, the credits excluded are not eligible for pre-requisite course consideration and must be retaken for credit. The applicant must have at least 34 credit hours within the past 10 years to use this option.
- Grades earned at all schools attended are calculated in the admission grade point average. The quality points and semester credit hours used to calculate the cumulative grade point average for admission to the School of Nursing are taken from the official transcripts submitted during the application process.

The School of Nursing accepts courses completed via classroom, internet, correspondence, CLEP (College Level Examination Program), or advanced placement examination for which credit with the grade of “C” or higher has been awarded and posted on an official transcript from an accredited college or university when determining completion of pre-requisite non-nursing course requirements.

Texas Success Initiative (TSI)
The Texas Success Initiative (TSI), formerly known as the Texas Academic Skills Program (TASP), is a state-required program that is designed to help ensure undergraduate students’ success in their college studies. All students seeking an undergraduate degree from the Texas Tech University Health Sciences Center must satisfy the TSI requirement before enrollment. To obtain TSI details pertaining see Texas Success Initiative.

Second Bachelor’s Degree
No second bachelor’s degree is conferred until the candidate has completed at least 24 semester hours—exclusive of credit by examination—in addition to the courses counted toward the first bachelor’s degree. A second bachelor’s degree sought by a student who did not complete the core curriculum at a public Texas institution of higher education must include the Texas Tech University Health Sciences Center required core curriculum.

RECOGNITION OF PREVIOUS NURSING LEARNING
TTUHSC School of Nursing utilizes two methods to acknowledge previous nursing learning. They are (a) transfer of credit and (b) advanced placement. These methods are described below:

Transfer of Credit
- Applicants are encouraged to meet with the School of Nursing Non-Traditional Undergraduate Department Chair or the Second Degree Program Director to discuss applicability of transfer credit for degree purposes.
Advanced Placement

- Students who have completed courses in nursing may be eligible to receive advanced placement. Applicants are encouraged to meet with the School of Nursing Non-Traditional Undergraduate Department Chair or the Second Degree Program Director to discuss applicability of advanced placement for degree purposes.

OFFER OF ADMISSION

Offers of admission will be made approximately six weeks following the application deadline. Due to the limited number of positions available each semester, applicants should respond to the offer of admission no later than the deadline stated in the letter offering admission by returning a $100 non-refundable placement guarantee fee. Failure to respond by the deadline results in withdrawal of the offer of admission.

DEGREE REQUIREMENTS FOR STUDENTS ADMITTED TO PROGRAM

Graduation Under a Particular Catalog

A student is expected to complete the degree requirements set forth in the School of Nursing Catalog in effect at the time the student enters the chosen degree or area of study. Only with the specific approval of the Non-Traditional Undergraduate Department Chair may a different Catalog be selected. Students, in all cases are prohibited from completing the requirements set forth in a catalog more than seven years old. The School of Nursing Catalog is published at least biennially and its provisions are applicable during the following academic year (September 1 through August 31). However, a student registering for the first time at TTUHSC during a summer semester is subject to the degree requirements set forth in the Catalog effective for the fall semester immediately following that summer semester.

Minimum Academic Requirements

A student must earn a 2.0 in each course in the required curriculum and maintain an overall semester and cumulative GPA of 2.0 or greater. The School of Nursing Student Handbook provides further details regarding academic and graduation expectations.

Maintaining Minimum Academic Requirements

- Maintain a 2.0 GPA for each semester and overall cumulative
- A minimum grade of “C” in all nursing (degree required) courses is required.
- Students earning an overall cumulative GPA or a semester GPA less than a 2.0 in the semester of graduation are ineligible for graduation

Comprehensive Examinations

Undergraduate (pre-licensure) students in the Non-Traditional Undergraduate Department Second Degree Program must have a passing score on the ATI comprehensive examination administered in NURS 4310. If the student is not successful on the examination, the student is required to meet with the Department Chair to determine the next steps in progression.

Residence Credit

The minimum actual residence credit required of each undergraduate student is 29 hours at TTUHSC, including the final 15 hours in nursing courses taken for a
grade. The remaining hours may include transfer credit and correspondence course work. Residence credit as used here means credit for work done while enrolled in and attending classes at TTUHSC and should not be confused with “residence” in the State of Texas for tuition purposes.

**Semester Credit Hours and Course Loads**

The semester credit hour is the unit of measure for credit purposes. Didactic (lecture) hours are measured on a one-to-one basis; clinical hours are measured on a one-to-three basis. Approximately two hours in preparation for each hour of lecture or recitation and an appropriate amount of time for preparation for clinical activity is required. Non-Traditional Undergraduate Department Second Degree Program enrollment in 12 or more credit hours per semester (6 or more credit hours in each summer session, or 12 or more credit hours in a full summer session) constitutes full-time enrollment. The number of semester credit hours a student may carry (course load) is regulated by the Non-Traditional Undergraduate Department Chair. In determining course load, the Non-Traditional Undergraduate Department Chair takes into account the quality of prior scholastic work performed and the types of courses involved. Permission is needed to enroll in more than 20 semester credit hours.

The Second Degree students are required to complete 55 hours of non-nursing courses and 61 hours of nursing courses during the entire program.

**DEGREE PLAN**

Degree plans are generally completed by the program coordinator during the initial advising session with the student. The degree plan may be revised based on a student’s ability to successfully progress through the curriculum. Course enrollment may be limited based on available resources, including but not limited to, availability of clinical sites within the community. When necessary, methods for limiting enrollment will be determined by the Non-Traditional Undergraduate Department Chair.

Second Degree BSN Program
Course Descriptions

Undergraduate courses are delivered via traditional, Web-enhanced, and Web-based methodologies.

All pre/co-requisites and any designated conditions/criteria for previous courses apply throughout the curriculum. All general education courses should be completed prior to beginning the nursing curriculum.

KEY:
- Courses are listed in numerical order
- (T) Traditional course methodology
- (WE) Web-enhanced (combination of face-to-face and on-line)
- (WB) Web-based (completely on-line)
- (CL) Concurrent enrollment in a Clinical Section is required
- (#:#:#) First # represents the number of credit hours, Second # represents the number of lecture hours per week, Third # represents the number of clinical hours per week
- * Elective Courses are offered at select times as faculty and interest are present
- (V) Variable Credit

3000 Level Courses

3105. Practicum in Obstetrical Nursing Care and Developing Families
(1:0:3 WE)
(Second Degree) (Prerequisite: Satisfactory completion of NURS3205, 3307, 3408; Corequisite: NURS3380, 3510, 3315) This clinical/laboratory experience provides opportunities to care for clients and families in obstetrical settings using knowledge obtained from the theory courses in developing family nursing.

3205. Clinical Competence I: Practicum in Basic Skills for Nursing Practice
(CL 2:0:6 WE)
(Second Degree) (Prerequisite: Program admission and completion of all required general education courses.) This laboratory/clinical experience is an introduction to foundational skills for practice and an overview of the standards for nursing practice. This course focuses on client safety and comfort, nutrition, selected nursing interventions, and beginning assessment skills.

3307. Health Assessment
(CL 3:2:3 WB)
(Second Degree)(Prerequisite: NURS 3205; Corequisites: NURS 3105, 3380, 3510, 3408, 3315) An introduction to health assessment as a systematic process with emphasis on developing skill in the techniques of assessment and therapeutic communication across the life span. Includes introductory concepts of data collection, health history, physical examination, use of technology to access and document holistic health assessment and clinical decision making. Performance assessment of skills is required in a laboratory experience.

3315. Developing Family Nursing
(3:3:0 WE)
(Second Degree)(Prerequisite: NURS 3205; Corequisite: NURS 3380, 3510, 3307, 3408, 3105.) This course emphasizes nursing concepts related to the childbearing family with emphasis on the neonate and women's health. Family theory, health disparities, and genetics are also explored as a foundation
for care delivery. Clinical judgment and reasoning will be required in the application of evidence based nursing care in case studies.

**3380 Foundational Concepts of Nursing Practice**  
(3:3:0 WB)  
(Second Degree) (Pre-requisite: 3205; Co-requisites: 3105, 3307, 3408, 3315, 3510.)  
This course is an introduction to nursing as a systematic process with emphasis on the knowledge, skills and values core to evidence based professional nursing utilizing a framework of clinical judgment and decision-making coupled with a management systems approach of macro/micro systems. Emphasis is on human functioning, human diversity and responses to health and illness.

**3385 Concepts of Chronic Care Nursing**  
(3:3:0 WB)  
(Pre-requisite: Satisfactory completion of all first semester courses; Co-requisites: 4112, 4114, 4312, 4314, 4214, 3520.) This course emphasizes chronic care nursing concepts essential for professional nursing practice in a variety of settings. Special focus is on the concepts of aging, health promotion, disease prevention, and genetics as well as illness management. Clinical judgment and reasoning and the integration of therapeutic nursing skills will be demonstrated through case study analysis and critical thinking activities.

**3408. Pharmacology**  
(4:4:0 WB)  
(Second Degree) (Co-requisites: NURS3205, 3380, 3510, 3307, 3315, 3105) This course introduces principles of pharmacology and drug therapy, classifications of drugs, and nursing implications of pharmacotherapeutics. Legal, ethical, genetic, cultural, and life span implications of drug therapy are explored. Evidence based practice guides students to use critical thinking when addressing expected effects/outcomes of medications, medication safety, routes of administration, dosage calculations, and documentation.

**3510 Clinical Foundations of Nursing Practice**  
(CL5:0:15 WE)  
(Second Degree) (Pre-requisite: 3205; Co-requisites: 3105, 3307, 3408, 3315, 3380.)  
This course provides students with the opportunity to demonstrate foundational professional nursing skills through clinical and simulated nursing activities for patients experiencing common health problems in a variety of health care settings.

**3520 Chronic Care Nursing Clinical**  
(CL 5:0:15 WE)  
(Pre-requisite: Satisfactory completion of all first semester courses; Co-requisites: 4112, 4114, 4312, 4314, 4214, 3385.) This course provides opportunities for students to integrate knowledge and theory essential to the care of patients experiencing chronic health alterations with special focus on the needs of the aging population. Clinical judgment and reasoning, therapeutic nursing skills, genetics and pharmacology concepts necessary for chronic care delivery are demonstrated in the application of evidence based on nursing care through case studies and weekly clinical experiences.
4000 Level Courses

4112. Practicum in Pediatric Nursing (CL 1:0:3 WE)  
(Second Degree) (Pre-requisite: Satisfactory completion of all first semester courses; Co-requisite: All second semester courses.)  
This clinical laboratory experience provides opportunities to care for children, families, groups and communities in pediatric settings using evidence based knowledge from the theory courses.

4114. Practicum in Mental Health Nursing (CL 1:0:3 WE)  
(Second Degree) (Pre-requisite: Satisfactory completion of all first semester courses; Co-requisite: All second semester courses.)  
This clinical course provides opportunities for students to plan and provide holistic care for patients in mental health settings using evidence based knowledge.

4214. Research (2:2:0 WB)  
(Second Degree) (Prerequisite: Satisfactory completion of all first semester courses; Corequisite: NURS 3385, 3520, 4312, 4314, 4112, 4114) This course will address basic research concepts and explore the relationship of research to theory and evidence based practice. The purpose of the course is to develop skills in critical appraisal and summary of the evidence in order to identify best practices in clinical care.

4219. Clinical Competence II: Practicum in Integration of Nursing (CL 2:0:6 WE)  
(Second Degree) (Prerequisite: Satisfactory completion of all first, second and third semester courses.) This course provides the student with the clinical opportunity to integrate the roles of provider, manager, and member of the profession. Practicum emphasis is on providing comprehensive nursing care to multiple clients in an acute care setting and integration of the core concepts of the curriculum in preparation for transition from student to professional nurse.

4310. Synthesis of Nursing Knowledge (CL 3:2:3 WB)  
Provides students with an opportunity to assess and analyze own ability to synthesize concepts of nursing care and apply those concepts in simulation and standardized examinations. (Pre-co-requisite: all NURS4000 level courses must be completed or in progress.)

4312. Child Health Nursing (3:3:0 WB)  
(Second Degree) (Prerequisite: Satisfactory completion of all first semester courses; Corequisite: NURS 3385, 3520, 4314, 4214, 4112, 4114) This course emphasizes child health and illness nursing concepts essential for safe professional nursing practice in pediatric acute care and outpatient settings. Growth and development are emphasized. Clinical judgment and reasoning are demonstrated in the application of evidence-based nursing in case studies.

4314. Mental Health Nursing (3:3:0 WB)  
(Second Degree) (Prerequisite: Satisfactory completion of all first semester courses; Corequisite: NURS 3385, 3520, 4312, 4214, 4112, 4114) This course emphasizes the
concepts of human mental health in altered states from adaptation through dysfunction to pathological processes. The focus is on approaches to promote mental health/ optimal function in the care of patients, groups, and families experiencing altered states of mental health using evidence based standards of care.

4316. Health Promotion and Education (3:3:0 WB)
(Second Degree) (Prerequisite: Satisfactory completion of all first and second semester courses; Corequisite: NURS 4317, 4318, 4398, 4510, 4310.) This course incorporates health promotion and disease prevention concepts for assessment and intervention with clients across the lifespan. Emphasis is placed on health education planning and teaching plans for patients, families, populations, and communities.

4317. Community and Population Health Nursing (CL 3:2:3 WB)
(Second Degree) (Prerequisite: Satisfactory completion of all first and second semester courses; Corequisite: NURS 4316, 4318, 4398, 4510, 4319, 4310.) This course emphasizes population-focused nursing and community-oriented approaches essential for understanding and addressing public health concerns. Focus is on the concepts of community and population health nursing practice, epidemiology and disease transmission, comprehensive assessment of risk factors and health problems, program planning and intervention, environmental health, collaboration with the interprofessional team, health promotion and disease prevention.

4318. Management and Leadership in Nursing (3:3:0 WB)
(Second Degree) (Prerequisite: Satisfactory completion of all first and second semester courses; Corequisite: NURS 4316, 4317, 4398, 4510, 4219, 4310.) This course surveys the role of the nurse as a leader, a manager and a member of an interprofessional team. The student is introduced to key concepts in systems theory, change theory, management and leadership theory, conflict resolution, quality improvement, and financial concepts. The opportunity to examine staffing and delegation strategies, as well as laws and ethical modalities that impact nursing practice will be included.

4398 Concepts of Acute Care Nursing (3:3:0 WB)
(Pre-requisite: Satisfactory completion of all first and second semester courses; Co-requisites: 4316, 4317, 4318, 4510, 4219, 4310.) This course emphasizes acute care nursing concepts essential for professional nursing practice in complex adult medical/surgical environments. Advanced clinical judgment, reasoning and therapeutic nursing skills are demonstrated in the application of evidence based nursing care through the use of case study analysis with increasing complexities and critical thinking activities. The focus is on complex disease management including environmental factors, genetic risks, and preventive care using a collaborative approach.

4510 Acute Care Nursing Clinical (CL 5:0:15 WE)
(Pre-requisite: Satisfactory completion of all first and second semester courses; Co-requisites: 4316, 4317, 4318, 4398, 4219,
4310.) This course provides opportunities for students to synthesize generalist nursing roles of provider, and manager of nursing care, in clinical and simulated acute care settings. Clinical judgment and reasoning and therapeutic nursing skills necessary in the acute care delivery are demonstrated in the application of evidence based nursing care through simulated case studies and weekly clinical experiences.
RN to BSN Program

Melinda Mitchell Jones, MSN, JD, RN, Department Chair

RN to BSN (Licensed RN Students)
Web-based technology is used to provide course delivery for this totally on-line learning program. A concerted effort is made to individualize the program to meet the needs of the learners and classes are exclusively designed for the registered nurse. Students can complete the RN to BSN Program in two semesters, with admission in the fall, spring, or summer semesters. If a student elects to attend part-time, the student must complete the program in two years from the time of initial enrollment.

ADMISSIONS REQUIREMENTS
All RN to BSN applicants are required to:
- Maintain a 2.5 or higher cumulative grade point average in both the general education pre-requisites and the nursing courses is required for admission consideration. All general education prerequisite and nursing courses should be completed with a grade of “C” or higher prior to enrollment.
- Students must provide documentation of grades in general education prerequisite and nursing courses on official transcripts prior to enrollment in nursing courses at TTUHSC.
- Students must have passed the NCLEX prior to matriculation into the program for full admission.
- Submit verification of valid/current state RN licensure (includes out-of-state), in good standing with no restrictions or stipulations.
- Submit a completed application and non-refundable application fee to the Nursing Central Application System (NCAS) and TTUHSC Merlin for admission to the School of Nursing. The total application fee is $85 if submitted prior to the application deadline.
  - Submit original copies of official transcripts from all institutions in which the student has enrolled to Nursing Central Application System (NCAS).
  - Submit appropriate documentation, such as TOEFL scores if an international student.
  - Complete general education requirements prior to enrollment.

Although academic criteria (cumulative GPA, grades earned in science courses, and failed/repeated courses) are important factors in admission consideration, additional non-academic information can be considered. These non-academic factors include but are not limited to:
- Extracurricular activities
- Work experience
- Diversity of experience, such as study abroad, knowledge of other cultures, proficiency in other languages
- Permanent resident of TTUHSC service area county
- First generation college student
- Bilingual
- Socioeconomic status
- Prior enrollment at TTU University

All applicants will be reviewed in an individual and holistic manner. No single factor will determine a student’s admission.

Tuition for Repeated or Excessive Undergraduate Hours
The Texas Education Code – Section 54.014 states: “An institution of higher education
may charge a resident undergraduate student tuition at a higher rate than the rate charged to other resident undergraduate students (not to exceed the rate charged to nonresident undergraduate students) IF: before the semester or other academic session begins, the student has previously attempted a number of semester credit hours for courses taken at any institution of higher education while classified as a resident student for tuition purposes that exceeds by at least 30 hours the number of semester credit hours required for completion of the degree program in which the student is enrolled. For purposes of this subsection, an undergraduate student who is not enrolled in a degree program is considered to be enrolled in a degree program or programs requiring a minimum of 120 semester credit hours, including minors and double majors, and for completion of any certificate or other special program in which the student is also enrolled, including a program with a study-abroad component. An institution of higher education that charges students tuition at a higher rate under this subsection may adopt a policy under which the institution exempts from the payment of that higher rate a student that is subject to the payment of the higher rate solely as a result of hardship as determined by the institution under the policy.”

Students who were enrolled as an undergraduate student in any institution of higher education prior to Fall 1999 are exempt from this rule. Also, students enrolled as undergraduate students prior to Fall 2006 may not be charged a higher rate of tuition until the number of semester hours previously attempted exceeds the number of hours required for the student’s degree program by 45 hours.

**Computer Requirements**
See Computer Requirements on page 31.

**Criminal Background Checks**
A Criminal Background Check (CBC) must be completed prior to enrollment at TTUHSC SCHOOL OF NURSING in compliance with TTUHSC OP 10.20. Each student is responsible for the cost of his/her CBC and any additional fees.

Undergraduate students will complete the Criminal Background Check process through the Texas Board of Nursing. Instructions on the process for complying with this requirement will be sent to all new incoming students in the orientation information. This is in accordance with SON OP 30.312.

The following searches are required for students pursuing clinical training through TTUHSC:
- Criminal History Record Information Search (including all residences for the last seven years);
- Social Security Number Trace (residential history, state and year SSN issued);
- Sex Offender Registry;
- Office of Inspector General Sanction Report;
- General Services Administration Excluded List;
- Office of Foreign Asset Control; and
- Texas State Exclusion List.

Additional background checks are required after a break in enrollment in accordance
with TTUHSC OP 10.20.

Additional background checks are required after a break in enrollment in accordance with TTUHSC OP 10.20 http://www.ttuhsc.edu/hsc/op/op10/op1020.pdf.

If an applicant believes the record is in error and gives written notification to the School of his/her intent to challenge the report, matriculation will be put on hold pending the outcome of the challenge. Should the applicant fail to notify the School of his/her intent to challenge or it is determined that the record is accurate at the conclusion of a vendor challenge by an applicant; the admission offer will be withdrawn.

NOTE: Expunged and Sealed Offenses
While expunged or sealed offenses, arrests, tickets, or citations need not be disclosed, it is your responsibility to ensure the offense, arrest, ticket or citation has, in fact, been expunged or sealed. It is recommended that you submit a copy of the expunging or sealing record in question to our office with your application. Failure to reveal an offense, arrest, ticket, or citation that is not in fact expunged or sealed, will at a minimum, subject your license to a disciplinary fine. Non-disclosure of relevant offenses raises questions related to truthfulness and character.

NOTE: Orders of Non-Disclosure
Pursuant to Tex. Gov’t Code § 552.142(b), if you have criminal matters that are the subject of an order of non-disclosure you are not required to reveal those criminal matters on the declaratory order form. However, a criminal matter that is the subject of an order of non-disclosure may become a character and fitness issue. Pursuant to other sections of the Gov’t Code chapter 411, the Texas Nursing Board is entitled to access criminal history record information that is the subject of an order of non-disclosure, even if you properly did not reveal that matter, the Board may require you to provide information about any conduct that raises issues of character.

Statues and Rules governing the Petition for Declaratory Order may be found in the Texas Occupations Code §§ 301.257, 301.452-304.454 (Nursing Practice Act), and in the Board Rules and Regulations relating to Nurse Education, Licensure and Practice, 22 TAC §§ 213.27-30 and §§ 217.11-12. These statutes and rules can be located on the BON’s website www.bon.state.tx.us.

The Nurse Practice Act (http://www.bon.texas.gov/nursinglaw/npa.html) was amended during the 2005 Texas legislative session, adding § 301.4535, to authorize the Board of Nursing to deny or revoke licensure to an individual for certain criminal offenses. Under the provision, the BON shall refuse or shall withdraw a license if the person has been convicted of an identified offense or has noted on his or her criminal record a plea of guilty or nolo contendere. The Board of Nursing may consider eligibility for licensure of an applicant after the fifth anniversary of the successful completion of and dismissal from probation or parole. The criminal offenses barring licensure, as defined by Texas Penal Code, include the following: murder; capital murder; reckless manslaughter; kidnapping, unlawful restraint, or unlawful transport of a person for payment and punishable as a felony; sexual assault; aggravated sexual assault; indecency with a child, an elderly
or disabled person, perpetrator of family violence, an agreement to abduct a child; the sale or purchase of a child; robbery; aggravated robbery; an offense that requires the individual to register as a sexual offender; and convictions for similar crimes in a military tribunal.

**Drug Screening**
Drug Screenings may be required if requested by the clinical institution site at the cost of the student.

**Immunizations**
See Immunization Requirements on page 32.

**Enrollment Without Credit/Course Audit**
Students wanting to audit a course for no grade must obtain approval from the Non-Traditional Undergraduate Department Chair. Students auditing a course will not be listed on the official class roll, and no notation of the audit will be made on the student's transcript. Students enrolled for 12 or more semester credit hours may audit a course without paying an additional fee. All other students must pay a $10 fee for auditing a course.

**Provisional Admission**
RN-BSN candidates may be admitted as provisional students if they demonstrate the potential to succeed in the nursing program but have not taken the NCLEX. These designations are noted in the letter of admission, along with the condition for removal of the provision. Provisionally admitted students may take one course, NURS 4381 Issues and Trends in Nursing. Once the student presents evidence of licensure as a registered nurse per admission guidelines, the student will be granted full admission to the RN-BSN Program. If a student is unsuccessful in passing the NCLEX, a leave of absence for one semester will be granted. If the student has not been licensed during the leave of absence, the student will be academically withdrawn and encouraged to reapply upon passage of the NCLEX.

**Conditional Admission**
If the requirements for full admission are not met, conditional admission may be available. The student is required to comply with “conditions” stated in the letter of admission offer prior to the first day of class for the semester the student is applying for. Examples of conditional admission are as follows but not limited to:

- Nursing degree completion confirmation (student graduating in current semester and verification is not available until the end of the semester)
- Pre-requisite courses have not been completed prior to the deadline for application for admission for the semester to which the student is applying.

**Readmission**
All requests for readmission must be made no later than two months prior to the first day of the semester in which readmission is requested. The Undergraduate Program Committee (UPC) is responsible for overseeing all readmissions to the School of Nursing. A student who left in good standing and is seeking readmission must complete and submit an readmission application showing the expected entry point to the RN-BSN Program Admissions Coordinator. The RN-BSN Program
Admission Coordinator will notify the Chair of the UPC of the request for readmission along with providing the most current transcript, and a summary of the circumstances of the student’s withdrawal, if known. A student who left with a record not in good standing because of withdrawal for academic or disciplinary causes must complete and submit a readmission application to the RN-BSN Program Admissions Coordinator along with a letter explaining the circumstances resulting in the withdraw and the plan to improve or correct performance, if offered readmission. The RN-BSN Program Admissions Coordinator will forward the application, the letter, and any available academic records including the most recent transcript to the Chair of the UPC. The UPC at the next scheduled meeting shall review all such requests and may take one of the following actions regarding readmission of a student:

- Eligible and admit,
- Eligible pending space available in nursing courses and in sequence to date of action in relation to other readmission applicants,
- Not eligible.

The UPC may assign requirements to be met as a condition of enrollment, i.e. readmission on a part-time degree plan.

Transfer Student
Students requesting admission to the TTUHSC SON RN to BSN Program as a transfer student from another university must meet the following criteria:

- Must be eligible to return to the institution from which the student is requesting transfer,
- Student previously enrolled in the RN-BSN Program at TTUHSC School of Nursing who has attended another institution of higher education and is seeking to TTUHSC return must apply for admission and will be required to meet the SON pre-requisites for admission and the TTUHSC standards for transfer credit,
- Number of credits completed at TTUHSC to receive a degree must total 25% of the total 120 credits required by the State of Texas to award a bachelor’s degree

PRE-REQUISITE COURSES and REQUIREMENTS
The pre-requisite course requirements listed below should be completed with a grade of “C” or higher in each course prior to enrollment in the first nursing course. These requirements as detailed in the table below include a total of 52 semester credit hours and can be taken at any regionally accredited college or university. A maximum of 15 credit hours can be earned via credit by examination.

The prerequisite courses listed in the following table for the RN to BSN Program also incorporates the 42 hours of the Texas Tech University Health Sciences Center Core Curriculum for undergraduate nursing degrees. Please see Core Curriculum Requirements on page 17 to review the Texas Core Curriculum requirements.

**TOTAL** 52

- Course numbers listed are based on the Texas Common Course Numbering System (TCCNS). Check with your academic institution to verify the course number that corresponds with the TCCNS number.
- Students must complete 3 credit hours of math to meet core curriculum requirements. If the student does not take math statistics, an additional math course must be completed to meet the core requirement.
- Students may substitute 3 credit hours of Texas History for 3 credit hours of United States History.
- 3 credit hours in upper division GOVT may be substituted for GOVT2306 if an A or B was earned in GOVT2305.
- All courses are considered pre-requisite to admission and beginning first semester of nursing course work.
Important Information about General Education and Associate Degree Nursing Course Requirements

- Pass/Fail grades for general education pre-requisites are not accepted for credit toward degree requirements.
- Pass/Fail grades for nursing course pre-requisites will be awarded a 2.0 grade value in determination of admission GPA. Students may not take any courses required for a degree in nursing as Pass-Fail.
- Courses previously taken as Pass-Fail will not be transferred for credit if the course is required for a School of Nursing Degree.
- Applicants may choose to request grades for all non-nursing courses greater than 10 years old not be considered in the GPA for admission. If this option is selected, those credits excluded are not eligible for pre-requisite course consideration. The applicant must have at least 34 credit hours within the past 10 years to use this option.
- Courses taken at Texas Tech University or any other college/university are not used in calculating the TTUHSC grade point average once a student has been admitted to the School of Nursing. However, all grades earned at all schools attended are calculated in the admission grade point average. The quality points and semester credit hours used to calculate the cumulative grade point average for admission to the School of Nursing are taken from the official transcripts submitted during the application process.
- The School of Nursing accepts courses completed via classroom, internet, correspondence, CLEP (College Level Examination Program), or advanced placement examination for which credit has been awarded and posted on an official transcript from an accredited college or university when determining completion of pre-requisite non-nursing course requirements.

Texas Success Initiative (TSI)
The Texas Success Initiative (TSI), formerly known as the Texas Academic Skills Program (TASP), is a state-required program that is designed to help ensure undergraduate students’ success in their college studies. All students seeking an undergraduate degree from the Texas Tech University Health Sciences Center must satisfy the TSI requirement before enrollment. To obtain TSI details pertaining see Texas Success Initiative.

RN to BSN Program:
- 52 Semester Hours from general education requirements courses
- 38 Semester Hours awarded for completion of the Basic Nursing Program
- 30 Semester Hours from the RN to BSN TTUHSC SON curriculum
- 120 Semester Hours BSN
RECOGNITION OF PREVIOUS NURSING LEARNING
The TTUHSC School of Nursing utilizes two methods to acknowledge previous nursing learning for students enrolled in the RN-BSN Program. They are (a) transfer of credit and (b) advanced placement. Both methods are described below:

Transfer of Credit
- Applicants must submit original copies of official college transcripts from all institutions in which the student has enrolled. The transcripts are reviewed and course work evaluated by the program administrator’s office. Final determination regarding applicability of completed course work toward degree requirements lies with the Non-Traditional Undergraduate Department Chair.
- Course equivalencies for transfer credit are assessed based upon the catalog course description or the course syllabus and/or notes provided by the student. Generally, courses of equivalent course content completed with the grade of “C” or higher at any accredited educational institution will be accepted for transfer credit toward degree requirements.
- The School of Nursing accepts courses completed via classroom, internet, correspondence, College Level Examination Program (CLEP) or advanced placement examination for which credit has been awarded and posted on an official transcript from an accredited college or university when determining completion of general education course requirements.
- No more than 52 general education course hours will be transferred, as well as a minimum of 38 hours of basic nursing education program courses be posted, for a total of 90 semester hours acknowledged as meeting the RN-BSN degree requirements. (If a basic nursing program has less than 38 hours, details for meeting the requirements should be arranged with the Non-Traditional Undergraduate Department Chair. Transfer credit hours are posted upon admission to the School of Nursing by the TTUHSC Registrar’s office, thus the RN-BSN student will be classified as a Senior student upon entering TTUHSC SON.
- Applicants are encouraged to meet with or send transcripts to (fax is acceptable) the RN-BSN Coordinator’s office to discuss applicability of transfer credit for degree purposes before submitting the application.

Advanced Placement
- Students who have completed courses in nursing are eligible to receive advanced placement. Advanced placement credit may be awarded for credit earned at an agency that is not part of an institution of higher education, such as a diploma nursing school.

OFFER OF ADMISSION
Offers of admission will be made approximately six weeks following the application deadline. Due to the limited number of positions available each semester, applicants should respond to the offer of admission no later than the deadline stated in the letter offering admission by returning a $100 non-refundable placement guarantee fee. Failure to respond by the deadline results in withdrawal of the offer of
admission.

**DEGREE REQUIREMENTS FOR STUDENTS ADMITTED TO PROGRAM**

**Graduation Under a Particular Catalog**

A student is expected to complete the degree requirements set forth in the School of Nursing Catalog in effect at the time the student enters the chosen area of study. Only with the specific approval of the Non-Traditional Undergraduate Department Chair may a different Catalog be selected. Students, in all cases are prohibited from completing the requirements set forth in a catalog more than seven years old. The Catalog is published at least biennially and its provisions are applicable during the following academic year (September 1 through August 31). However, a student registering for the first time at TTUHSC during a summer semester is subject to the degree requirements set forth in the Catalog effective for the fall semester immediately following that summer semester.

**Maintaining Minimum Academic Requirements**

- Maintain a 2.0 GPA for each semester and overall cumulative
- A minimum grade of “C” in all nursing courses is required.
- Students receiving a “D”, “F” or “WF” in a nursing course are eligible to repeat the course one time only pursuant to recommendation of course faculty.
- Students earning an overall cumulative GPA or a semester GPA less than a 2.0 in the semester of graduation are ineligible for graduation.

**Academic Dismissal**

- Making a “D”, “F” or “WF” in two or more nursing courses in one semester.
- Making a “D”, “F” or “WF” in a third nursing course, even when the first two “D”s, “F”s or “WF”s have been replaced by a passing grade upon retaking those courses.
- Earning less than a 2.0 semester or cumulative GPA for two consecutive semesters.
- Making a “D”, “F”, or “WF” in the same nursing course twice.

**Residence Credit**

The minimum credit required of each undergraduate RN to BSN student is 30 hours at TTUHSC. Final determination for completed course work toward degree requirements is with the Non-Traditional Undergraduate Department Chair.

**Semester Credit Hours and Course Loads**

The semester credit hour is the unit of measure for credit purposes. Didactic (lecture) hours are measured on a one-to-one basis; clinical hours are measured on a one-to-three basis. Approximately two hours in preparation for each hour of lecture or recitation and an appropriate amount of time for preparation for clinical activity is required. Non-Traditional Undergraduate enrollment in 12 or more credit hours per semester (6 or more credit hours in each summer session or 12 or more credit hours in a full summer session) constitutes full-time enrollment. The number of semester credit hours a student may carry (course load) is regulated by the Non-Traditional Undergraduate Department Chair, taking into account the quality of prior scholastic work performed and the types of courses involved. Permission is needed to enroll in more than 15 semester credit hours. Refer
DEGREE PLAN
The following degree plan is designed for applicants with a RN license only. The information is provided here only as an overview of a basic course schedule of a full-time student and will vary depending on each student's ability to progress through the program. Degree plans are generally completed by the RN-BSN Program Coordinator during the initial advising session with the student. The degree plan may be revised based on a student's ability to successfully progress through the curriculum. When necessary, methods for limiting enrollment will be determined by the Non-Traditional Undergraduate Department Chair. All general education courses must be completed prior to enrollment. Students should discuss an appropriate academic and employment workload with the Non-Traditional Undergraduate Department Chair.

RN to BSN Program Course Descriptions

Undergraduate courses are delivered via traditional, Web-enhanced, and Web-based methodologies.

All pre/co-requisites and any designated conditions/criteria for previous courses apply throughout the curriculum. All general education courses should be completed prior to beginning the nursing curriculum.

KEY:
- Courses are listed in numerical order
- (T) Traditional course methodology
- (WE) Web-enhanced (combination of face-to-face and on-line)
- (WB) Web-based (completely on-line)
- (CL) Concurrent enrollment in a Clinical Section is required
- (#:#:#) First # represents the number of credit hours, Second # represents the number of lecture hours per week, Third # represents the number of clinical hours per week
- * Elective Courses are offered at select times as faculty and interest are present
- (V) Variable Credit

3000 Level Course

3040. Special Topics
(V1-6)
(*Elective) The purpose of this course is to develop and understanding of forensic science as a multifaceted, team approach to solve crimes. This course is designed to encourage the integration of professional collaboration in the development of health care policies, procedures, and practices for responding to victims. Content to be addressed includes assessment, intervention, and utilization of community resources; legal issues; and evaluation for forensic evidence. The course will give the student a general understanding and appreciation of forensic science. For nursing students, Pre-requisite: Senior level student; For non nursing students, Pre-requisite: Interdisciplinary Minor in Forensic Sciences (FORS).

4000 Level Courses

4308. Global Health Issues in Nursing
(3:3:0 WB)
(*Elective) In order to provide competent care for diverse populations, it is important for nurses to have an awareness of global health issues. This course will provide an introduction to global health issues affecting nurses. The student will be exposed to a variety of global issues; including infectious diseases, non-infectious diseases, and non-disease related global issues that impact healthcare in developing and developed countries.

4331. Human Lactation
(3:3:0 WB)
(*Elective) This course will examine the biological, environmental, sociological, and political factors influencing human lactation. Evidence based guidelines will be discussed in relation to current nursing practice. Field experiences will be required to provide students opportunities to investigate resources within their own communities and to further analyze the unique experience of a lactating mother and her breastfed child.
4362. Health Care for Rural Older Adults (3:3:0 WB)
(*Elective) Focus on important concepts in health and health care among rural elders as a population group. The concept of rurality will be presented not as a dichotomy, but as continuum, focusing on the special needs of rural elders. Emphasis is on the collaborative role of nurses in assisting elders and families in rural settings to negotiate health care delivery systems, using principles for evaluating, managing, and coordinating care of rural elders.

4363. Foundations of Holistic Nursing (3:3:0 WB)
(*Elective) Students will explore various perspectives related to health and healing processes, including concepts of self care, presence, intentionality, and integrative modalities as a basis for holistic nursing practice. Contemporary research supporting evidence based holistic practice is highlighted.

4364. Informatics in Nursing Practice (3:3:0 WB)
(*Elective) Students will explore the various uses of informatics in nursing practice and the healthcare setting including current technology initiatives, use of informatics in a variety of healthcare settings, decision support systems, and the impact of technology on nurse-patient relationships.

4365. Spirituality in Health Practice and Evidence Based Practice (3:3:0 WB)
(*Elective) This course is an exploration of spirituality in health care. Included in this course is an overview of different aspects related to spirituality and an exploration into avenues to strengthen the inclusion of spirituality in health care delivery with a focus on the evidence-based practice foundation for these avenues.

4366. Genomics in Nursing Practice (3:3:0 WB)
(*Elective) This course will increase the ability of the professional nurse to think genetically when approaching a clinical situation or problem that may not appear to be genetic in nature. The course will examine basic mechanisms of inheritance and transmission of chromosomes and genes, understanding of genetic contributions to human diversity, and information about common inherited genetic disorders and conditions.

4367. Issues in Women's Health (3:3:0 WB)
(*Elective) This course provides the opportunity to explore women's health issues and their implications for health care.

4368. Conducting Life Review with Elderly Clients (3:3:0 WB)
(*Elective) Designed to acquaint students with concepts and processes of conducting life review with elderly clients. Included in this course are two primary goals in conducting life review with elderly clients. The first goal is on the emotional level with the outcome being to decrease anxiety and increase the client's sense of satisfaction, pride, and accomplishment about their life. The second goal is on a cognitive level with the outcome being to heighten the client's awareness of the strengths and resources they have used to meet previous life challenges.
4369. Health Law for the Nurse Leader
(3:3:0 WB)
(*Elective) The course will immerse the student in major legal topics that Confront nurses in their role as leaders in health care organizations. Students will explore when and how the law impacts the health care arena and the delivery of care.

4373. Introduction of Evidence
(3:3:0 WB)
The course addresses pathways for engaging with appropriate evidence to advance the practice of nursing. Basic research concepts and evidence-based practice approaches will be used to prepare the students as consumers of evidence in order to ensure that practice is based on validated evidence. This course provides students with a foundation for evidence-based practice in synthesizing the professional role in nursing. The ability to function as competent consumers of evidence in nursing demands an understanding of what is evidence and basic research principles. This course describes various models of inquiry in nursing. Students will engage in discussions, reading, and evaluation of evidence and research reports to advance the practice of nursing.

4374. Nursing Management and Leadership
(3:3:0 WB)
This course builds on management and leadership concepts essential in professional nursing practice in the 21st century. Management and leadership theories, roles and functions serve as the foundation for the course. Key concepts covered include managing quality using informatics tools and systems, patient safety, staffing, fiscal planning and decision making.

4375. Information System and Quality Management
(3:3:0 WB)
This course will focus on information systems and quality processes to improve healthcare outcomes related to cost, safety, care coordination and quality management. Learning information systems and quality management concepts will prepare the student to function as a nursing leader in a variety of healthcare settings. Content will cover strategies to improve communication and manage information using technology to support decision making to improve patient care and delivery systems. Prerequisite: Completion of NURS4374.

4376. Population Focused Community Health
(3:3:0 WB)
This course emphasizes population-focused nursing and community-oriented approaches to understanding and addressing public health concerns. The focus is on the concepts of population health assessment, planning, implementation, and evaluation of programs to improve community health. (Pre-requisite: Completion of 4373 or 4382, 4380, 4381).

4377. Risk Analysis and Implications for Practice
(3:3:0 WB)
This course introduces the student to systems analysis as it relates to patient safety and risks reduction. Content will cover the role of the interprofessional healthcare team in identifying potential factors which lead to adverse medication events. Resources at the organizational, federal, state, and private
level are reviewed in developing strategies that ensure care for vulnerable populations. (Pre-requisite: Competition of 4374 or 4378, 4380, 4373 or 4382).

4380. Nature of Nursing Theory
(3:3:0 WB)
This course is an introduction to the nature of nursing theory. Origins of and strategies for theory development in nursing are examined in terms of importance in guiding the profession as a practice discipline. Nursing theory is analyzed as a foundation for nursing practice and research.

4381. Issues and Trends in Nursing
(3:3:0 WB)
Content focuses on current issues and trends in nursing relevant to the professional role on a local, state, national and international level.

4383. Legal and Ethical Issues in Healthcare
(3:3:0 WB)
This course surveys major legal and ethical issues in the interprofessional delivery of healthcare. The course focuses on basic principles and language of law and ethics and provides an understanding of value development and its influence on ethical theories. The role of state nursing boards in regulating practice is reviewed along with landmark court cases affecting the role and duties of the nurse.

4388. Client and Peer Teaching
(3:3:0 WB)
(*Elective) Focuses on collaboration between the nurse and clients/peers. It includes an assessment of learning needs, the implementation of planned learning experiences, and the evaluation of process and product of teaching. Teaching-learning theories/principles are used as bases for educational planning and intervention. This course fulfills the elective requirement of the RN-BSN program.

4390. Baccalaureate Nursing Practice
(3:3:0 WB)
A capstone course which requires students to integrate principles of patient centered care, interdisciplinary teams, evidence-based practice, quality improvement, informatics, and patient safety through discussion, personal reflection, and development of a professional portfolio. (Pre-requisite: Completion of NURS 4374, 4375, 4380, 4381, 4373, 4383, 4377) (Co-requisite: 4376 and 4381).
Graduate Programs

**Graduate Department**

*Barbara Cherry, DNSc, MBA, RN, NEA-BC*

**Department Chair, Leadership Program**

*Emily Merrill, PhD, RN, FNP, BC, CNE, FAANP*

**Department Chair, MSN Advanced Practice Registered Nurse (APRN) Program**

**Introduction**
The School of Nursing Graduate Department offers the Master of Science in Nursing (MSN) program and the Doctor of Nursing Practice (DNP) program. The MSN program has the following tracks: Nursing Administration, Nursing Education, Family Nurse Practitioner, Pediatric Primary Care Nurse Practitioner, Adult-Gerontology Acute Care Nurse Practitioner, and Nurse Midwifery. The DNP Program offers the following two tracks: Advanced Practice Nursing (APRN) and Executive Leadership. The School of Nursing also offers a Post Master’s certificate in the following role and population-based focus tracks: Family Nurse Practitioner, Pediatric Primary Care Nurse Practitioner, Adult-Gerontology Acute Care Nurse Practitioner, and Nurse Midwifery.

**Master of Science in Nursing (MSN)**

**Purpose**
The purpose of the Master of Science in Nursing Program is to prepare the graduate to practice nursing within an expanded role. In synthesizing a clinical and functional focus, the graduate assumes an encompassing perspective of practice, service, research, and education.

**MSN Student Learning Outcomes**
Upon program completion, the MSN graduate will have the preparation to:
- Provide patient-centered care in the master’s prepared nursing role.
- Work in interprofessional teams to
address the needs of patients using master’s prepared nursing role skills.

- Employ evidence-based practice (EBP) by integrating the best research evidence into the master’s prepared nursing role.
- Apply quality improvement as a master’s prepared nurse.
- Utilize information in the master’s prepared nursing role to reduce errors, manage knowledge and information, make decisions, and communicate effectively.
- Integrate best practices in implementation of master’s prepared nursing roles to ensure safety and risk reduction for patients and populations.

All MSN students regardless of program or site will meet the above objectives. The MSN educational program delivery is accomplished by a combination of on-campus classes/experiences and web-based technologies.

**MSN APPLICATION and ADMISSION INFORMATION**

All applicants are selected on a composite evaluation of past academic achievement, personal essay, career achievements and references. Although the materials required for admission consideration vary from one program to another, the general qualities considered are:

- Academic performance and aptitude
- Ability to perform capably in positions of responsibility for self and others
- Potential for leadership in the advanced nursing role

**MSN and Post Master’s Application Deadlines**

Consideration for admission is given to applicants who meet all admission criteria and have submitted ALL admission requirements by the application deadline to NursingCAS, the Centralized Application Service for Nursing Programs AND to the TTUHSC Registrar’s Office, SON Admissions, 3601 4th Street, Stop 8310, Lubbock, Texas 79430.

To be considered for admission “ALL” admission requirements must be received by the application deadline noted below. (Please note the MSN Program does not admit students for the summer admission. Summer applications are accepted for the Post-Master’s Certificate.)

Admission Requirements - MSN
Applicant must submit the following application requirements for full admission:

• Valid Texas or Compact RN License
• Baccalaureate nursing degree from a regionally accredited college or university with nursing program accreditation from the Commission on Collegiate Nursing Education (CCNE) or from the National League for Nursing Accrediting Commission (NLNAC).
• Successful completion of an undergraduate research and statistics course
• Minimum 3.0 GPA or better (on a 4.0 scale) in upper division undergraduate nursing courses
• BLS Certification
• Personal statement
• Letters of Reference (3)
• Completed application within the Nursing Centralized Application Service (NursingCAS) https://portal.nursingcas.org
• Completed Merlin supplemental application http://www.ttuhsc.edu/merlin
• Oath of Residency
• Official transcript for the BSN degree; also include transcripts for the undergraduate research and statistics course if not included on the BSN transcript.

NOTE: All transcripts must be from regionally accredited colleges or universities with nursing program accreditation from the Commission on Collegiate Nursing Education (CCNE) or from the National League for Nursing Accrediting Commission (NLNAC).
• International Students: appropriate documentation – TOEFL score
• Applicants to the Adult-Gerontology Acute Care Nurse Practitioner (AGACNP) track must have at least one (1) year of RN experience in an acute care, intensive care, or emergency department setting within the past five (5) years.
• Applicants to the Pediatric Primary Care Nurse Practitioner (PNP) track are required to have two (2) years of RN pediatric experience prior to admission.
• Applicants to the Family Nurse Practitioner (FNP) track must have one (1) year of RN experience prior to application submission to the FNP program.
• Applicants to the Nurse Midwifery (NMW) track are required to have at least one (1) year labor and delivery experience or comparable OB clinical experience within the last five (5) years prior to admission.
• Applicants to the NMW track must possess current EFM proficiency taken/updated within the last 5 years.

Admission Requirements - Post Master’s Certificate
• Valid Texas or Compact RN License
• Master of Science in Nursing degree from a regionally accredited college or university with nursing program accreditation from the Commission on Collegiate Nursing Education (CCNE)
• Minimum 3.0 GPA or better (on a 4.0 scale)
• ACLS/PALS certification (FNP, PNP, AGACNP)
• NRP (Neonatal resuscitation program) and course in EFM (electronic fetal monitoring) (NMW)
• Personal Goals Essay
• Letters of Reference (3)
• Completed Merlin supplemental application, http://www.ttuhsc.edu/merlin, and appropriate documentation, i.e. TOEFL score
• Official transcript for the MSN degree
  Note: All transcripts must be from a regionally accredited college or university with nursing program accreditation from the Commission on Collegiate Nursing Education (CCNE) or from the National Accrediting Commission (NLNAC)
• Applicants to the Adult Gerontology Acute Care Nurse Practitioner (AGACNP) track must have at least one (1) year of RN experience in acute care, intensive care, or an emergency department setting within the past five (5) years.
• Applicants to the Pediatric Primary Care Nurse Practitioner (PNP) track are required to have two (2) years of RN experience in pediatrics prior to admission.
• Applicants to the Family Nurse Practitioner (FNP) track are required to have one (1) year RN experience prior to application submission to the FNP program.
• Applicants to the Nurse Midwifery (NMW) track are required to have one (1) year of RN experience in labor and delivery or an equivalent OB clinical experience within the last five years prior to admission.
• Applicants to the NMW track must possess current EFM proficiency taken/updated within the last 5 years.

Although academic criteria are the most important factors in admission considerations, additional information considered for all applicants will include but is not limited to demographic data, diverse work and life experiences, and unique attributes that would contribute to the profession of nursing. Other non-academic factors considered in the admission decision include but are not limited to:
• Extracurricular activities
• Evidence of leadership in nursing
• Work experience
• Diversity of experience such as study abroad, knowledge of other cultures, proficiency in other languages, military service
• Permanent resident of TTUHSC service area
• First generation college student
• Bilingual
• Socioeconomic status

All applicants will be reviewed in an individual and holistic manner. No single factor will determine a student's admission. Only complete applications are reviewed for admission consideration.

Computer Requirements
See Computer Requirements on page 31.

Criminal Background Checks
A Criminal Background Check (CBC) must be completed prior to enrollment at TTUHSC SCHOOL OF NURSING in compliance with TTUHSC OP 10.20, http://www.ttuhsc.edu/hsc/op/op10/op1020.pdf. Each student is responsible for the cost of his/her CBC and any additional fees.

Graduate students will complete the Hire Right Criminal Background Check process.
Information will be provided to new students with orientation information.

The following searches are required for students pursuing clinical training through TTUHSC:
- Criminal History Record Information Search (including all residences for the last seven years);
- Social Security Number Trace (residential history, state and year SSN issued);
- Sex Offender Registry;
- Office of Inspector General Sanction Report;
- General Services Administration Excluded List;
- Office of Foreign Asset Control; and
- Texas State Exclusion List.

Additional background checks are required after a break in enrollment in accordance with TTUHSC OP 10.20 http://www.ttuhs.edu/hsc/op/op10/op1020.pdf.

If an applicant believes the record is in error and gives written notification to the School of his/her intent to challenge the report, matriculation will be put on hold pending the outcome of the challenge. Should the applicant fail to notify the School of his/her intent to challenge or it is determined that the record is accurate at the conclusion of a vendor challenge by an applicant; the admission offer will be withdrawn.

NOTE: Expunged and Sealed Offenses
While expunged or sealed offenses, arrests, tickets, or citations need not be disclosed, it is your responsibility to ensure the offense, arrest, ticket or citation has, in fact, been expunged or sealed. It is recommended that you submit a copy of the Court Order expunging or sealing the record in question to our office with your application. Failure to reveal an offense, arrest, ticket, or citation that is not in fact expunged or sealed, will at a minimum, subject your license to a disciplinary fine. Non-disclosure of relevant offenses raises questions related to truthfulness and character.

NOTE: Orders of Non-Disclosure
Pursuant to Tex. Gov’t Code § 552.142(b), if you have criminal matters that are the subject of an order of non-disclosure you are not required to reveal those criminal matters on the declaratory order form. However, a criminal matter that is the subject of an order of non-disclosure may become a character and fitness issue. Pursuant to other sections of the Gov’t Code chapter 411, the Texas Nursing Board is entitled to access criminal history record information that is the subject of an order of non-disclosure, even if you properly did not reveal that matter, the Board may require you to provide information about any conduct that raises issues of character.

Statutes and Rules governing the Petition for Declaratory Order may be found in the Texas Occupations Code §§ 301.257, 301.452-304.454 (Nursing Practice Act), and in the Board Rules and Regulations relating to Nurse Education, Licensure and Practice, 22 TAC §§ 213.27-30 and §§ 217.11-12. These statutes and rules can be located on the BON’s website www.bon.state.tx.us.

The Nurse Practice Act (http://www.bon.texas.gov/nursinglaw/npa.html) was amended during the 2005 Texas legislative session, adding § 301.4535, to authorize the Board of Nursing to deny or revoke
licensure to an individual for certain criminal offenses. Under the provision, the BON shall refuse or shall withdraw a license if the person has been convicted of an identified offense or has noted on his or her criminal record a plea of guilty or nolo contendere. The Board of Nursing may consider eligibility for licensure of an applicant after the fifth anniversary of the successful completion of and dismissal from probation or parole. The criminal offenses barring licensure, as defined by Texas Penal Code, include the following: murder; capital murder; reckless manslaughter; kidnapping, unlawful restraint, or unlawful transport of a person for payment and punishable as a felony; sexual assault; aggravated sexual assault; indecency with a child, an elderly or disabled person, perpetrator of family violence, an agreement to abduct a child; the sale or purchase of a child; robbery; aggravated robbery; an offense that requires the individual to register as a sexual offender; and convections for similar crimes in a military tribunal.

Immunizations
See Immunization Requirements on page 32.

Drug Screening
Drug Screenings may be required if requested by the institution where the student performs clinical experiences.

SPECIAL STUDENT ENROLLMENT
Non-Degree
Special Student enrollment is not an avenue for seeking a degree. Under certain circumstances, it may be appropriate for an individual to seek admission as a non-degree seeking student. Non-degree Special Student admission is for the purpose of taking a limited number of courses. The applicant must seek approval from the applicable Graduate Department Chair prior to submitting a special student (non-degree) application. The student must also be eligible for admission under the following criteria:

- Currently enrolled in a master’s nursing program at a college or university and in good academic standing;
- Registered nurse with a BSN not enrolled in an educational institution; or
- Waiver to the above requirement from the applicable Graduate Department Chair.

In addition to meeting admission criteria, consideration to non-degree seeking students is given on a space available basis.

A complete Special Student (non-degree) application includes the following:
- Submitted special-student application
- Submitted signature page
- Submitted Oath of Residency
- Submitted Basic Life Support (BLS) certification

Special students can take a maximum of six (6) credit hours. A special student wishing to apply for full admission to one of the Graduate Department programs must submit the full application according to the stated deadlines and will be considered for admission with the entire pool of applicants for the time period the application is submitted.

Enrollment without Credit/Course Audit
Students wanting to audit a course for no grade must obtain approval from the
Students auditing a course will not be listed on the official class roll, and no notation of the audit will be made on the student’s transcript. Students enrolled for 12 or more semester credit hours may audit a course without paying an additional fee. All other students must pay a $10 fee for auditing a course.

**Provisional Admission**
If the requirements for full admission are not met, provisional admission may be available. Students who do not meet the minimum requirement for admission are evaluated by the MSN Program Committee. Provisional admission requires the student to enroll in six (6) semester credit hours of graduate level courses for a semester and obtain a grade of “B” or higher. Students are not eligible for scholarships while on provisional status. The provisional status is changed to full matriculation once the student has successfully completed six (6) semester credit hours of graduate level course work with a grade of “B” or higher.

**Conditional Admission**
If the requirements for full admission are not met, conditional admission may be available. The student is required to comply with “conditions” stated in the letter of admission offer prior to the first day of class for the semester the student is applying. Examples of conditional admission include, but are not limited to, the following:
- BSN completion confirmation (student graduating in current semester and verification is not available until the end of the semester)
- MSN completion confirmation (student graduating in current semester and verification is not available until the end of the semester)
- Leveling courses may be required per the MSN Program Committee

**Readmission**
All requests for readmission must be made prior to the application deadline for the semester in which readmission is requested. The applicable Graduate Department Chair and MSN Program Committee are responsible for overseeing all readmissions to the School of Nursing MSN Programs. Readmission of a student who has been dismissed or who withdrew for academic or disciplinary causes is also based upon the decision of the applicable Graduate Department Chair and MSN Program Committee.

A student seeking readmission must comply with the following:
- Submit a letter requesting readmission to the Graduate Program
- Meet all recommendations and requirements set forth by the Department Chair and MSN Program Committee
- Complete online application and meet admission criteria for full admission

**Student Transfers from Other Educational Institutions**
 Students requesting admission to the TTUHSC SON graduate programs as a transfer student from another college or university must meet the following criteria:
- Eligible to return to the institution from which the student is transferring
- Complete a full application to the applicable MSN program by the deadlines specified for the semester of
transfer to TTUHSC
• Student previously enrolled in the graduate program at TTUHSC School of Nursing who has attended another institution and is seeking to return must apply for readmission; any courses considered for transfer credit will be required to meet the standards for transfer credit
• Complete the majority, or over 50%, of the required credits to complete the degree at TTUHSC School of Nursing.

RECOGNITION OF PREVIOUS NURSING LEARNING
Transfer Credit
The decision to award transfer of academic credit is made by the applicable Graduate Department Chair after a thorough review of the applicant’s transcript for evidence of satisfactory course work completion and review of the course catalog descriptions and/or course syllabi as necessary to determine course equivalency. The decision to award transfer credit is based on the TTUHSC Transfer Credit Guidelines and Procedures http://www.ttuhsc.edu/catalog/credit_transfer.aspx. Generally, credits earned at a regionally accredited college or university are accepted for transfer provided course content is equivalent and a grade of “B” or higher has been earned in the course. The majority, or over 50%, of the required credits toward a TTUHSC School of Nursing graduate degree must be earned at TTUHSC.

PLEASE NOTE: courses previously taken as Pass-Fail will not transfer for credit if the course is required for a School of Nursing Degree.

Students requesting courses to be considered for transfer credit will:
• Submit official transcripts for courses considered for transfer credit
• Submit course descriptions and course content for each course

Credit accepted for transfer and applied to the student’s degree program will appear on the TTUHSC transcript under the name of the institution where the student completed the course. Transfer credit will not alter a student’s TTUHSC Grade Point Average.

A student previously enrolled in the graduate program at TTUHSC School of Nursing who has attended another institution and is seeking to return and transfer in course credit must apply for readmission. Courses accepted for transfer will be required to meet the standards for transfer credit.

OFFER OF ADMISSION
Offers of admission will be made approximately six - eight weeks following the application deadline. In order to assure a place in the desired program, applicants must comply with the following:
• Accept offer in Merlin supplemental application on or before date specified in the offer of admissions letter
• Submit $100.00 non-refundable placement fee
• Complete Criminal Background Check online
• Submit evidence of compliance with required immunizations
• Complete Sexual Harassment training online and submit certificate of completion
• Complete required trainings as specified
during virtual orientation

- Failure to respond to admissions offer by the date specified in offer letter may result in withdrawal of the offer of admission.

**DEGREE REQUIREMENTS FOR STUDENTS ADMITTED TO PROGRAM (Master of Science in Nursing)**

**Graduation Under a Particular Catalog**

A student is expected to complete the degree requirements set forth in the School of Nursing Catalog in effect at the time the student enters the chosen area of study. Only with the specific approval of the applicable Graduate Department Chair may a different Catalog be selected. Students, in all cases, are prohibited from completing the requirements set forth in a catalog more than seven years old. The Catalog is published at least biennially and its provisions are applicable during the stated year (September 1st through August 31st). However, a student registering for the first time at TTUHSC during a summer semester is subject to the degree requirements set forth in the Catalog effective for the fall semester immediately following that summer semester.

**Maintaining Minimum Academic Requirements**

The minimum GPA for continuance in the graduate programs is 3.0 overall. Additionally a minimum grade of “B” is required in each course (nursing) required for degree completion. The **TTUHSC School of Nursing Student Handbook** (http://www.ttuhsce.edu/son/handbook.aspx) provides further details regarding academic and graduation expectations.

**Requirements for Progression towards the MSN Degree**

- Grades are reviewed each semester and progression in the Graduate Programs is determined by the applicable Graduate Department Chair and Graduate Program Committee.
- MSN students are required to maintain a 3.0 GPA with grades at “B” or above in all graduate courses. Students with a cumulative or semester GPA below 3.0 are placed on academic probation.
- Students receiving “C” or lower in a graduate course are eligible to repeat the course one time only pursuant to recommendation of course faculty.
- Students earning an overall cumulative GPA or a semester GPA less than a 3.0 in the semester of graduation/completion are ineligible for graduation/completion.

**Academic Dismissal from the School of Nursing MSN Program will result from the following circumstances:**

- Students earning a “C” or lower in two or more graduate courses in one semester.
- Students earning a “C” or lower in the same nursing course twice.
- Students earning a “C” or lower in a second graduate course even though one graduate courses has been retaken and a satisfactory grade of “B” or better has been obtained.
- Cumulative semester or cumulative GPA less than 2.0 for two consecutive semesters

Failing to meet expected standards in any program may result in academic dismissal at any time.
Residence Credit
The minimum residence for the MSN degree is the majority, or over 50%, of graduate course work carrying residence credit must be completed at TTUHSC. Residence credit as used here means credit for work done while enrolled in and attending classes at TTUHSC and should not be confused with “residence” in the State of Texas.

Majority of Credits
The majority or over 50% of credits toward any graduate or post-baccalaureate professional degree awarded by the TTUHSC must be earned:
- At TTUHSC
- In the case of those programs offered through joint, cooperative, or consortia arrangements through instruction offered by the participating institutions.

Semester Credit Hours and Course Loads
The semester credit hour is the unit of measure for credit purposes. Didactic (lecture) hours are measured on a one-to-one basis; clinical hours are measured on a one-to-three basis for nursing administration and nursing education tracks. For nurse practitioner and nurse midwifery clinical courses, clinical hours are measured on a one-to-3.5 basis.
Approximately two hours in preparation for each hour of lecture/didactic and an appropriate amount of time for preparation for clinical activities are required. The number of semester credit hours a student may carry (course load) is regulated by the applicable Graduate Department Chair.
In determining this load, the applicable Graduate Department Chair takes into account the quality of prior scholastic work performed and the types of courses involved. A student enrolled in nine (9) or more credit hour in the Fall or Spring semester and six (6) or more credit hours in the Summer semester is considered full-time.

DEGREE PLAN
- Upon initial enrollment into the TTUHSC Graduate Programs, each student is provided with a degree plan, individualized according to his/her program of study and part-time or full-time enrollment status. The student’s individual needs and circumstances (i.e., part-time or full-time enrollment, preference for electives, transfer courses, etc.) are considered when developing the degree plan.
- The applicable Graduate Department Chair for the program in which the student is enrolled is responsible for approving the degree plan.
- The applicable Graduate Department Chair or designee reviews the initial degree plan with the student upon enrollment in the Graduate Program. The student signs the degree plan to indicate his/her agreement with the plan and is provided with a signed copy of the plan.
- Students are responsible for notifying the applicable Graduate Program office anytime they deviate from the degree plan (i.e., withdraw from a course; fail to register for a course, etc.).
- During orientation to the applicable Graduate Program, students are advised about the requirements for their specific
track or major and their responsibility to (a) be knowledgeable about their degree requirements; (b) notify the applicable Graduate Program office if they deviate from their degree plan; and (c) meet degree requirements for graduation.

- The degree plan serves as the student’s guide for course registration each semester.

**Course Requirements**
The following course requirements reflect the basic needs for each track in the MSN program. The plans should only serve as an overview of a basic course schedule of a full-time student and it will vary depending on each student’s ability to progress through the program.

NOTE: Nurse midwifery students will be required to secure and present proof of their own purchased student malpractice insurance prior to commencing nurse midwifery-specific clinical courses (N5304, N5470, N5571, and N6620). The average cost for a yearly rate is around $500 and students may select from a carrier of their choice.

▲ All Nurse Midwifery students are required to complete a NRP (neonatal resuscitation program) and EFM (electronic fetal monitoring) prior to first population focus clinical course.  
One (1) year of RN experience in labor and delivery required or selected clinical OB experiences (subject to faculty/admissions committee approval) prior to admission.
MSN Collaborative TTUHSC- Angelo State University (ASU) Degree Course Requirements

All students need to complete both ASU and TTUHSC applications for admission. Upon receipt of completed application, ASU will evaluate the candidate and, if acceptable for admission to the ASU program, the student should contact Texas Tech University Health Sciences Center School of Nursing for admission information. The Department Chair for the TTUHSC School of Nursing MSN APRN Program in conjunction with the TTUHSC MSN Committee will determine if the applicant may enter the program. The program requires 30 credit hours from TTUHSC and 18 hours from ASU. NOTE: 18 Credit hours excluding the required NUR 6356 and NUR 6313 from ASU combined satisfy the requirement for TTUHSC NURS 5327 (3:3:0 WB).

Population Focus Courses

▲ All Nurse Midwifery students are required to complete a NRP (neonatal resuscitation program) and EFM (electronic fetal monitoring) course prior to first population focus clinical course.

One (1) year of RN experience in labor and delivery required or selected OB experiences (subject to faculty/admissions committee approval), prior to admission.
Doctor of Nursing Practice (DNP)
Barbara Cherry, DNSc, MBA, RN, NEA-BC, Department Chair

Purpose
The purpose of the Doctor of Nursing Practice (DNP) Program is to provide a rigorous education to prepare clinical scholars who translate science to improve population health through expert leadership that powers innovation in health care for West Texas, the state, and the nation.

Student Learning Outcomes
Upon program completion, the graduate will be prepared to:

- Integrate nursing science with knowledge from ethics, biophysical, psychosocial, analytical, and organizational sciences to advance health and health care delivery systems.
- Develop and operationalize effective, culturally relevant, and evidence-based care delivery approaches that meet current and future needs of patient populations.
- Design and implement scholarly evidence-based processes to analyze and improve outcomes of care at the practice, health care organization, or population levels.
- Select, use, and evaluate health care information systems and patient care technology to advance quality, patient safety, and organizational effectiveness.
- Exercise leadership to analyze, develop, influence, and implement health policies that advocate social justice, equity, and ethics within all health care arenas.
- Employ interprofessional team building and collaborative leadership skills to create positive change and improve outcomes in complex health care systems.
- Analyze epidemiological, biostatistical, environmental, and other appropriate scientific data to develop culturally relevant and scientifically based health promotion and disease prevention initiatives.
- Employ advanced levels of clinical judgment, systems thinking, and accountability to design, deliver, and evaluate evidence-based care to improve patient and population outcomes.
- Employ advanced leadership skills, systems thinking, and accountability to design, deliver, and evaluate evidence-based management practices to improve patient, population, and health system outcomes.

DNP Application and Admission Information

DNP Application Deadlines
Consideration for admission is given to applicants meeting all admission criteria who have submitted all admission requirements by the application deadline to the TTUHSC Registrar’s Office, SON Admissions, 3601 4th Street, Stop 8310, Lubbock, Texas 79430.

To be considered for admission “ALL” admission requirements must be received by the TTUHSC as noted below:

<table>
<thead>
<tr>
<th>DNP Application Deadline</th>
<th>Fall</th>
<th>Spring</th>
<th>Summer 2014</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>No admission</td>
<td>No admission</td>
<td>January 15, 2014</td>
</tr>
</tbody>
</table>
**DNP Admission Requirements**

Applicant must submit the following application requirements for full admission:

- Current licensure as a registered nurse in the United States
- Master of Science in Nursing degree from a regionally accredited college or university with nursing program accreditation from the Commission on Collegiate Nursing Education (CCNE) or from the National League for Nursing Accrediting Commission (NLNAC).
- GPA of 3.0 for master’s degree
- Graduate level nursing research course
- Three letters of reference attesting to the applicant’s academic ability and leadership potential, including one from a current professional colleague
- Personal Statement
- Interview with DNP faculty
- BLS certification
- Current CV or resume
- Oath of Residency
- Official College Transcripts (BSN or ADN to MSN degree or equivalent, MSN, Post Master’s Certificate)
- Application Signature Page
- Application Fee

All DNP Advanced Practice Nursing applicants must meet the following additional requirements:

- Approval by a state nursing board to practice as a Nurse Practitioner
- Current certification by a nationally recognized credentialing body as a nurse practitioner
- Minimum of one year’s experience as a nurse practitioner

All DNP Executive Leadership applicants must meet the following additional requirements:

- Minimum of one year’s experience in a healthcare leadership position

Applicants with unique credentials will be considered on a case-by-case basis.

A comprehensive review of the candidate's application will include consideration of the following factors.

- Academic performance and aptitude
- Career achievements
- Ability to perform capably in positions of responsibility for self and others
- Potential for leadership in the DNP advanced role.

Although academic criteria (cumulative GPA, grades earned in nursing courses, and failed/repeated courses) are the most important factors in admission considerations, additional non-academic information is considered. These non-academic factors include but are not limited to:

- Extracurricular activities
- Evidence of leadership in nursing
- Work experience
- Diversity of experience such as study abroad, knowledge of other cultures, proficiency in other languages
- Permanent resident of TTUHSC service area county
- First generation college student
- Bilingual - English /Spanish

All applicants will be reviewed in an individual and holistic manner. No single factor will determine a student’s admission. All applicants receiving offers of admission
will be required to consent to a criminal background check. A history of criminal conduct or convictions may result in withdrawal of the admission offer. See 'Criminal Background Checks' section of the School of Nursing Student Handbook for the school policy. Criminal Background Checks must be received prior to matriculation to the TTUHSC DNP Program. The TTUHSC Criminal Background policy may be found at HSC OP 10.20. http://www.ttuhsc.edu/HSC/OP/OP10.

Only complete applications are reviewed for admission consideration, which means “ALL” admission requirements must be received by the TTUHSC Registrar’s Office by the application deadline.

The DNP Program Department Chair, DNP Program Director and the DNP Committee carefully evaluate all qualified applicants with regard to the applicant’s potential for successful completion of the program.

**Computer Requirements**

See Computer Requirements on page 31.

**Criminal Background Checks**

A Criminal Background Check (CBC) must be completed prior to enrollment at TTUHSC SCHOOL OF NURSING in compliance with TTUHSC OP 10.20, http://www.ttuhsc.edu/hsc/op/op10/op1020.pdf. Each student is responsible for the cost of his/her CBC and any additional fees.

Undergraduate students will complete the Criminal Background Check process through the Texas Board of Nursing. Instructions on the process for complying with this requirement will be sent to all new incoming students in the orientation information. This is in accordance to SON OP 30.312.

Graduate students will complete the Hire Right Criminal Background Check process. Information will be provided to new students with orientation information.

The following searches are required for students pursuing clinical training through TTUHSC:

- Criminal History Record Information Search (including all residences for the last seven years);
- Social Security Number Trace (residential history, state and year SSN issued);
- Sex Offender Registry;
- Office of Inspector General Sanction Report;
- General Services Administration Excluded List;
- Office of Foreign Asset Control; and
- Texas State Exclusion List.

Additional background checks are required after a break in enrollment in accordance with TTUHSC OP 10.20 http://www.ttuhsc.edu/hsc/op/op10/op1020.pdf.

If an applicant believes the record is in error and gives written notification to the School of his/her intent to challenge the report, matriculation will be put on hold pending the outcome of the challenge. Should the applicant fail to notify the School of his/her intent to challenge or it is determined that the record is accurate at the conclusion of a vendor challenge by an applicant; the admission offer will be withdrawn.
NOTE: Expunged and Sealed Offenses
While expunged or sealed offenses, arrests, tickets, or citations need not be disclosed, it is your responsibility to ensure the offense, arrest, ticket or citation has, in fact, been expunged or sealed. It is recommended that you submit a copy of the Court Order expunging or sealing the record in question to our office with your application. Failure to reveal an offense, arrest, ticket, or citation that is not in fact expunged or sealed, will at a minimum, subject your license to a disciplinary fine. Non-disclosure of relevant offenses raises questions related to truthfulness and character.

NOTE: Orders of Non-Disclosure
Pursuant to Tex. Gov’t Code § 552.142(b), if you have criminal matters that are the subject of an order of non-disclosure you are not required to reveal those criminal matters on the declaratory order form. However, a criminal matter that is the subject of an order of non-disclosure may become a character and fitness issue. Pursuant to other sections of the Gov’t Code chapter 411, the Texas Nursing Board is entitled to access criminal history record information that is the subject of an order of non-disclosure, even if you properly did not reveal that matter, the Board may require you to provide information about any conduct that raises issues of character.

Statutes and Rules governing the Petition for Declaratory Order may be found in the Texas Occupations Code §§ 301.257, 301.452-304.454 (Nursing Practice Act), and in the Board Rules and Regulations relating to Nurse Education, Licensure and Practice, 22 TAC §§ 213.27-30 and §§ 217.11-12. These statutes and rules can be located on the BON’s website www.bon.state.tx.us.

The Nurse Practice Act (http://www.bon.texas.gov/nursinglaw/npa.html) was amended during the 2005 Texas legislative session, adding § 301.4535, to authorize the Board of Nursing to deny or revoke licensure to an individual for certain criminal offenses. Under the provision, the BON shall refuse or shall withdraw a license if the person has been convicted of an identified offense or has noted on his or her criminal record a plea of guilty or nolo contendere. The Board of Nursing may consider eligibility for licensure of an applicant after the fifth anniversary of the successful completion of and dismissal from probation or parole. The criminal offenses barring licensure, as defined by Texas Penal Code, include the following: murder; capital murder; reckless manslaughter; kidnapping, unlawful restraint, or unlawful transport of a person for payment and punishable as a felony; sexual assault; aggravated sexual assault; indecency with a child, an elderly or disabled person, perpetrator of family violence, an agreement to abduct a child; the sale or purchase of a child; robbery; aggravated robbery; an offense that requires the individual to register as a sexual offender; and convictions for similar crimes in a military tribunal.

Immunizations
See Immunization Requirements on page 32.

Drug Screening
Drug Screenings may be required if requested by the institution where the student performs clinical experiences.
SPECIAL STUDENT ENROLLMENT

Non-Degree

Special Student enrollment is not an avenue for seeking a degree. Under certain circumstances, it may be appropriate for an individual to seek admission as a non-degree seeking student. Non-degree Special Student admission is for the purpose of taking a limited number of courses. The applicant must seek approval from the DNP Program Department Chair prior to submitting a special student (non-degree) application. The student must also be eligible for admission under the following criteria:

- Currently enrolled in a master’s or doctoral program at a college or university and is in good academic standing;
- Registered nurse with a MSN not enrolled in an educational institution;
- Waiver to the above requirement from the DNP Program Department Chair.

In addition to meeting the above criteria, consideration is given on a space available basis.

A complete Special Student (non-degree) application includes the following:

- Submitted special-student application
- Submitted signature page & application fee
- Submitted official transcripts from all universities or colleges attended
- Submitted Oath of Residency
- Submitted BLS certification

Special students can take a maximum of six (6) credit hours or nine (9) if approved by the department chair. A special student wishing to apply for full admission to the DNP Program must submit the full application according to the stated deadlines and will be considered for admission with the entire pool of applicants for the time period the application is submitted.

Enrollment without Credit/Course Audit

Students wanting to audit a DNP course for no grade must obtain approval from the Graduate Department DNP Program Chair. Students auditing a course will not be listed on the official class roll, and no notation of the audit will be made on the student’s transcript. Students enrolled for 12 or more semester credit hours may audit a course without paying an additional fee. All other students must pay a $10 fee for auditing a course.

Provisional Admission

If the requirements for full admission are not met, provisional admission may be available. Students not meeting the minimum requirement for admission are evaluated by the DNP Committee. Provisional admission requires the student to enroll in six (6) semester credit hours of doctoral level courses for a semester and obtain a grade of “B” or higher. Students are not eligible for scholarships while on provisional status. The provisional status is changed to full matriculation once the student has successfully completed six (6) semester credit hours of graduate level course work with a grade of “B” or higher.

Conditional Admission

If the requirements for full admission are not met, conditional admission may be available. The student is required to comply with “conditions” stated in letter of admission offer prior to the first day of class.
for the semester of admission.

**Readmission**
All requests for readmission must be made prior to the application deadline date for the semester in which readmission is requested. The DNP Program Department Chair, DNP Program Director and DNP Committee are responsible for overseeing all readmissions to the School of Nursing DNP Program. Readmission of a student dismissed or withdrawn for academic or disciplinary causes is also based upon the decision of the Department Chair, DNP Program Director, and DNP Committee.

A student seeking readmission must comply with the following:
- Submit a letter requesting readmission to the DNP Program.
- Meet all recommendations and requirements set forth by the DNP Program Department Chair, DNP Program Director and DNP Committee.
- Complete online application and meet admission criteria for full admission.

**Transfer Student**
Students requesting admission to the TTUHSC School of Nursing DNP program as a transfer student from another university must meet the following criteria:
- Transfer student must be eligible to return to the institution from which the student is transferring.
- Submit a full application by the application deadline date for the semester in which transfer is requested.
- Student previously enrolled in the graduate program at TTUHSC School of Nursing who has attended another institution and is seeking to return must apply for readmission; any courses considered for transfer credit will be required to meet the standards for transfer credit.
- Complete the majority, or over 50%, of the required credits to complete the degree at TTUHSC School of Nursing.

**RECOGNITION OF PREVIOUS NURSING LEARNING**

**Transfer Credit**
The decision to award transfer of academic credit is made by the DNP Program Department Chair after a thorough review of the applicant’s transcript for evidence of satisfactory course work completion and review of the course catalog descriptions and/or course syllabi as necessary to determine course equivalency. The decision to award transfer credit is based on the TTUHSC Transfer Credit Guidelines and Procedures [http://www.ttuhsc.edu/catalog/credit_transfer.aspx](http://www.ttuhsc.edu/catalog/credit_transfer.aspx). Generally, credits earned at a regionally accredited college or university are accepted for transfer provided course content is equivalent and a grade of “B” or higher has been earned in the course.

The majority, or over 50%, of the required credits toward a TTUHSC School of Nursing graduate degree must be earned at TTUHSC.

Students requesting courses to be considered for transfer credit will:
- Submit official transcripts for courses considered for transfer credit.
- Submit course descriptions and course content for each course.

A student previously enrolled in the graduate program at TTUHSC School of Nursing who has attended another
institution and is seeking to return and transfer in course credit must apply for readmission. Courses accepted for transfer will be required to meet the standards for transfer credit.

OFFER OF ADMISSION
Offers of admission will be made approximately six - eight weeks following the application deadline. In order to assure a place in the desired program, applicants must comply with the following:

- Return Acceptance Form on or before date specified in the offer of admissions letter
- Submit $100.00 non-refundable placement fee Submit evidence of compliance with required immunizations
- Complete Criminal Background Check online
- Complete Sexual Harassment training online and submit certificate of completion
- Failure to respond to admissions offer by the date specified in offer letter may result in withdrawal of the offer of admission.

DEGREE REQUIREMENTS FOR STUDENTS ADMITTED TO PROGRAM (DNP Program)

Graduation Under a Particular Catalog
A student is expected to complete the degree requirements set forth in the School of Nursing Catalog in effect at the time the student enters the chosen area of study. Only with the specific approval of the DNP Program Department Chair may a different Catalog be selected.

Students, in all cases are prohibited from completing the requirements set forth in a catalog more than seven years old. The Catalog is published at least biennially and its provisions are applicable during the stated Academic year (September 1st through August 31st). However, a student registering for the first time at TTUHSC during a summer semester is subject to the degree requirements set forth in the Catalog effective for the fall semester immediately following that summer semester.

DNP Clinical Hour Requirements
All DNP students must complete a total of 1000 clinical hours/practice hours from a combination of clinical hours achieved in the master’s program and in the DNP program. Qualified nurse practitioner applicants are expected to have successfully completed a minimum of 500 clinical hours in the student's nurse practitioner master’s program in order to meet requirements for recognition or licensure and national certification, as appropriate, for the student’s professional role and practice area. The DNP post master’s program provides a minimum of 528 clinical hours resulting in a minimum total of 1028 clinical hours for graduation.

Qualified applicants with MSN in nursing administration or other MSN specialty area or master’s degree in a related field must provide evidence of the number of clinical hours/practice hours achieved in the student’s master's program. To ensure students meet the required minimum 1000 clinical hours/practice hours additional clinical learning opportunities are offered via one or more of the following methods:

- Submission of a professional portfolio documenting clinical activities/practice hours and scholarship to meet the criteria for clinical hours for the DNP
program. The portfolio may include a resume or CV and a description of the individual’s practice experience; academic and specialized programs of study in the student’s specialty area; certifications in administration; or additional activities and experiences exemplifying competence in the student’s specialty area.

- Students not meeting the clinical hour/practice hour criteria will be evaluated and required to take an independent study course designed to provide an individualized clinical intensive based on the student’s background, experience and learning needs to complete the required 1000 clinical hours/practice hours for the DNP degree.

Clinical experiences/practice hours for DNP students are defined as direct or indirect patient care experiences; observational experiences; interviews; participation in community events or local, state, or national meetings relevant to the learning objectives; or other unique learning opportunities where the student can achieve defined learning objectives. Clinical experiences/practice hours may take place in the student’s place of employment if the experience clearly provides an opportunity to achieve specified student learning objectives. Students may work with professional mentors or preceptors during their clinical experiences. School of Nursing faculty may serve as preceptors or professional mentors.

**Maintaining Minimum Academic Requirements**

The minimum GPA for continuance in the graduate program is 3.0 overall. Additionally a minimum grade of “B” is required in each course (nursing required for degree completion). The TTUHSC SON Student Handbook provides further details regarding academic and graduation expectations.

**Progression in the DNP Program**

- Grades are reviewed each semester and progression in the DNP Program is determined by the DNP Program Department Chair, DNP Program Director and DNP Committee.
- DNP students are required to maintain a 3.0 GPA with grades at “B” or above in all doctoral courses. Students with a cumulative or semester GPA below 3.0 are placed on academic probation.
- Students receiving “C” or lower in a doctoral course are eligible to repeat the course one time only pursuant to recommendation of course faculty.
- Students earning an overall cumulative GPA or a semester GPA less than a 3.0 in the semester of graduation/completion are ineligible for graduation/completion.

**Academic Dismissal from the School of Nursing DNP Program will result from the following circumstances:**

- Students earning a “C” or lower in two or more DNP courses in one semester
- Students earning a “C” or lower in the same DNP course twice
- Students earning a “C” or lower in a second DNP course even though one DNP course has been retaken and a satisfactory grade of “B” or better has been obtained

**Failing to meet expected standards in any**
program may result in academic dismissal at any time. Academically dismissed students are eligible to be readmitted according to the stipulations noted in the “Readmission” section above.

Residence Credit
The minimum residence for the DNP degree is the majority, or over 50%, of graduate course work carrying residence credit be completed at TTUHSC. Residence credit as used here means credit for work done while enrolled in and attending classes at TTUHSC and should not be confused with “residence” in the State of Texas.

Majority of Credits
The majority or over 50% of credits toward any graduate or post-baccalaureate professional degree awarded by the TTUHSC must be earned:
• At TTUHSC
• In the case of those programs offered through joint, cooperative, or consortia arrangements through instruction offered by the participating institutions.

Semester Credit Hours and Course Loads
The semester credit hour is the unit of measure for credit purposes. Didactic (lecture) hours are measured on a one-to-one basis; clinical hours are measured on a one-to-six basis for the DNP program. Approximately two hours in preparation for each hour of lecture/didactic and an appropriate amount of time for preparation for clinical activities are required. The number of semester credit hours a student may carry (course load) is regulated by the DNP Program Department Chair. In determining this load, the DNP Program Department Chair takes into account the quality of prior scholastic work performed and the types of courses involved. A student enrolled in nine (9) or more credit hours in the Fall or Spring semester and six (6) or credit hours in the Summer semester is considered full-time.

DEGREE PLAN
• Upon initial enrollment into DNP Program, each student is provided with a degree plan, individualized according to the student’s program of study and part-time or full-time enrollment status. The student’s individual needs and circumstances (i.e., part-time or full-time enrollment, preference for electives, transfer courses, etc…) are considered when developing the degree plan.

• The DNP Program Department Chair for the track in which the student is enrolled is responsible for approving the degree plan.

• The DNP Program Department Chair or designee reviews the initial degree plan with the student upon enrollment in the DNP Program. The student signs the degree plan to indicate the student’s agreement with the plan and is provided with a signed copy of the plan.

• Students are responsible for notifying the DNP Program office anytime the student deviates from the degree plan (i.e., withdraw from a course; fail to register for a course, etc.).

• During orientation to the DNP Program, students are advised about the requirements for the specific track or major and the student’s responsibility to (a) be knowledgeable about the degree
requirements; (b) notify the Graduate Program office if the student deviates from the degree plan; and (c) meet degree requirements for graduation.

- The degree plan serves as the student’s guide for course registration each semester.

Graduate Department Course Descriptions

Graduate courses are delivered via traditional, Web-enhanced, and Web-based methodologies.

All pre- or co-requisites and any designated conditions/criteria for previous courses apply throughout the curriculum.

KEY:
• Courses are listed in numerical order
• (T) Traditional course methodology
• (WE) Web-enhanced (combination of face-to-face and on-line)
• (WB) Web-based (completely on-line)
• (CL) Concurrent enrollment in a Clinical Section is required
• (#:#:#) First # represents the number of credit hours, Second # represents the number of lecture hours per week, Third # represents the number of clinical hours per week
• * Elective Courses are offered at select times as faculty and interest are present
• (V) Variable Credit

4000 Level Courses (for RN-MSN Track)

4378. Nursing Management and Leadership I
(CL 3:3:0 WB)
(RN-MSN) This course builds on management and leadership concepts essential in professional nursing practice in the 21st century. Management and leadership theories, roles and functions serve as the foundation for course. Key concepts covered include managing quality using informatics tools and systems, patient safety, staffing, fiscal planning and decision making.

4379. Nursing Management and Leadership II
(CL 3:3:0 WB)
(RN-MSN) Building on Management and Leadership I, this course presents concepts related to managing and leading in the changing healthcare environment. Interdisciplinary team building in a culturally diverse environment, delegation, conflict management, organizational structures and leading planned change in a variety of health care settings will be presented. (Pre-requisite: Completion of Management and Leadership I)

4382. Aspects of Nursing Research
(3:3:0 WB)
(RN-MSN) Addresses basic research concepts and explores the relationship of research to theory and practice. Prepares the student as a consumer of research in order that relevant findings may be applied to clinical practice. (Prerequisite: NURS 4380, 4381, and 3 hours of undergraduate statistics.)

4395. Gateway to Advanced Professional Practice
(CL 2:1:6 WB)
(RN-MSN) This is a transition class for the RN-MSN student focusing on current issues relevant to the professional nursing role and introduction to the nature of nursing theory. Selected local, state, national and international issues impacting the professional nursing role are addressed. Additional, the impact of theory development on the evolving practice of the nursing professional is reviewed and analyzed.
5000 Level Courses

5060. Individual Studies
V1-6 T, WB, WE)
Designed to meet special needs and interests of a student who proposes a specific plan of study. Course varies from 1-6 semester hours and course may be repeated as topic and/or objective of study changes.

5080. Special Topics
(V1-6 WB\WE)
Designed to focus on subjects of special interest to groups of students. May be repeated for credit as topics vary.

5303. Application of Quality Sciences in Healthcare
(3:3:0 WB) (*Elective)
This course explores quality improvement science and the role of the professional nurse as a member of an intra-professional quality improvement team. The course content covers traditional and emerging processes. In addition, organizational leadership systems, environments that drive quality, and most importantly, the patient experience, all serve as the foundation for the course.

5304. Foundations for Nurse Midwifery
(CL)
(3:2:3.5 WB)
Examines selected issues/topics that enhance full scope of nurse-midwifery practice beyond the pregnancy and birth phases of the reproductive years. Clinical experiences are planned for family planning, contraceptive management, gynecologic visits- including peri/postmenopausal visits and primary care. (Pre-Requisite: NURS5312, NURS5320; NURS5342, NURS5343, NURS5345, EFM and Neonatal Resuscitation Protocol; Co-Requisite NURS5470).

5306 Pathophysiology of Obesity
(3:3:0 WB)
Study of the cellular, systemic, and whole-body physiological effects of obesity and weight control efforts. Emphasis is on the analysis and application of research findings pertaining to obesity for professional practice in assessing and managing the health care problems of overweight people across the life span.

5312. Foundations for Advanced Practice Nursing Role
(3:3: 0 WB)
This course is a study of the Advanced Practice Registered Nurse (APRN) role, including the evolution of the role, current and continuing issues relevant to advanced practice nursing and clinical practice issues. Course activities include observation, discussion, and analysis of experiences.

5314. Leadership in Nursing Education I: Best Practices in Teaching & Technology Integration
(3:3:0 WB)
Pre-Requisite: enrollment in MSN Nursing Education track. This course focuses on the nurse educator role by creating the foundational components of learning principles, pedagogical approaches, teaching strategies and information systems technology.

5315. Leadership in Nursing Education II: Best Practices in Assessment and Measurement
(3:3:0 WB)
Pre-Requisite or concurrent enrollment: 5314. This course focuses on measurement theory and its practical application in assessment of learning outcomes. Didactic, clinical and simulation learning environments are evaluated.

Pre-Requisite or concurrent enrollment: 5315. This course focuses on the concepts and components of course development, implementation, evaluation, and revision in academic, continuing nursing education, or staff development settings will be emphasized as critical elements of the nurse educator role.

5317. Comprehensive Clinical Care (3:2:1)
Prerequisite: MSN student in enrolled in the nursing education specialty track. Utilizing knowledge and skills from the core curriculum, this course builds on the opportunity for the nurse educator to employ the skills of risk analysis, complex care planning with multiple disciplines, skillful use of technology for care coordination as well as efficient use of resources for quality patient care, staff and student development.

N5320. Diagnostic Methods for Advanced Nursing Practice (CL) (3:1.5:5.25 WB)
This course focuses on clinical diagnostic reasoning and procedural skills for the Advanced Practice Registered Nurse (APRN). Students will use evidence-based research to appropriately gather, differentiate and manage clinical data for various health problems across the lifespan. Requires an on-campus skills lab.

5322. Health Informatics for Advanced Nursing Practice (3:3:0 WB)
Prerequisites: enrollment as an MSN student. This course will engage the student in the examination of information and technology concepts, theories, and skills necessary to optimally communicate, manage knowledge, minimize error, and support health care decisions. Students will learn to apply information and communication technologies to integrate and coordinate patient care; examine data management systems to improve outcomes of care; and utilize evidence-based care and health education to manage health information. Principles of information and cognitive science will provide the foundation for integrating concepts of healthcare information, health care delivery, decision-support, and the ethical and secure management of information in the advanced practice nursing role.

5323. Leadership for Advanced Nursing Practice (3:3:0 WB)
Prerequisites: enrollment as an MSN student. This course engages the student in an examination of organizational and leadership concepts, theories, and skills that are critical to high quality, safe patient care. Students will learn to apply quality improvement and patient safety sciences to promote healthcare systems that are safe, timely, effective, efficient, equitable, and patient centered. Principles of leadership will provide the foundation for integrating
concepts of systems thinking, ethical and critical decision-making, communication, collaboration, negotiation, change facilitation and financial management in the advanced practice nursing role.

5324. Population Health: Essentials for Advanced Nursing Practice  
(3:3:0 WB)  
Prerequisites: enrollment as an MSN student. This course addresses the theoretical basis for population and environmental health, the principles of epidemiology, models/frameworks of health and health management systems and major population health concepts foundational to advanced nursing practice.

5325. Health Policy: Essentials for Advanced Nursing Practice  
(3:3:0 WB)  
Prerequisites: enrollment as an MSN student. This course addresses health policy, financing, and advocacy roles implemented by the MSN-prepared nurse, as well as professional issues for MSN-prepared nurses. Local, state, and national policies; legal and regulatory processes; and professional nursing issues impacting health care delivery are examined.

5326. Research for Advanced Nursing Practice  
(3:3:0 WB)  
Perquisite: Enrollment as an MSN student. This core course focuses on developing an understanding of fundamental aspects of research critique and common approaches to design and conduct of research relevant to nursing. While qualitative and quantitative approaches are introduced this course, the understanding and use of statistics in the context of research and research critique is emphasized.

5327. Evidence for Advanced Nursing Practice  
(3:3:0 WB)  
Prerequisite: NURS 5326 (Research for Advanced Nursing Practice). This course promotes understanding and use of theory while focusing on methods underlying evidence based approaches to nursing practice. Selected theories that are relevant to evidence based nursing practice will be critiqued for usefulness and application in an effort to link theory, evidence, and practice. Practice problems form the basis for examining evidence application in nursing.

5342. Advanced Health Assessment (CL)  
(3:2:3.5 WB)  
Building upon basic physical assessment and history taking knowledge and skills, this course focuses on knowledge and clinical skills required for advanced practice nursing. Requires on campus skills lab.

5343. Pharmacotherapeutics for Nurses in Advanced Practice  
(3:3:0 WB)  
This graduate course focuses on application of pharmacokinetic and pharmacodynamic principles to medication regimens for patients across the life span. Students will utilize assessment data and evidence-based protocols to guide safe prescriptive decision-making in an advanced nursing role. In addition, students are expected to integrate cultural, ethical, legal, and regulatory considerations in the planning process. Evaluation of the therapeutic effects and potential adverse effects of classes of
medications is included.

5345. Advanced Practice Nursing: Application of Pathophysiology (3:3:0 WB)
Study of the physiologic basis of disease for advanced practice nursing. Emphasis is on application of pathophysiologic concepts to the recognition of pathologic conditions and the management of clients with a variety of health problems across the life span.

5346. The Nursing Administrator: Standards for Excellence (3:3:0 WE)
Prerequisite: Admission to the Graduate Program. This course provides an overview of the current, major forces driving nursing services toward quality and nursing administrators toward competence. The focus is to develop an appreciation for the numerous quality initiatives that influence how nursing leaders lead their areas of accountability toward better patient care.

5347. Administrative Role Development (3:3:0 WE)
Prerequisite NURS 5346. The focus of this course is on creation of an effective workplace in which safe patient care can occur. The traditional elements of managing are the avenues through which learners gain insight into the effectiveness and influence of the administrative role.

5348. Administrative Role Development: The Nurse Administrator as Leader (3:3:0 WE)
Prerequisite NURS 5347. This course centers on interpreting the social and political impact on the organization and the issues that influence how the nurse administrator enacts the role of leader.

5349. Perspectives in Obesity (3:3:0 WB)
Study of the biological, psychological, and socio-cultural responses to obesity and weight control efforts. Emphasis is on the analysis and application of research findings pertaining to obesity for professional practice across the life span.

5372. Utilizing the Arts in Healthcare (3:3:0 WB). (*Elective)
This course is an introductory study and overview of current and past methods of incorporating the arts into the healthcare setting for patients, families and healthcare staff and professionals. Attention will be paid to cultural and age diversities and education, psychological and physical benefits derived from creative expression.

5374. Writing for Publication (3:3:0 WB) (*Elective)
Develops expertise in writing/preparing manuscripts for publication. Special emphasis on choosing journals of manuscript topics, preparing a manuscript according to journal guidelines, and learning to navigate the publication process from inquiry letter to submission of manuscript to peer review and final submission.

5375. Nursing Ethics through the Life Span (3:3:0 WB) (*Elective)
This graduate course provides an opportunity to examine ethical issues that arise in advanced nursing practice throughout the life span of the client, providing an opportunity to: implement an evidence-based practice; understand the
moral significance of nursing; recognize and clarify models of professional relationships; and identify and distinguish between ethical models. Ethical models will be utilized to justify ethical decisions in advanced nursing practice.

5378. Primary Health Care for Women (CL) (3:1.85:4.0 WB). (*Elective)
Prerequisite: NURS 5342 or consent of instructor. Presents the theoretical and clinical basis for advanced practice nursing management of the woman who is essentially well or who has non-acute health problems. Emphasis is on the integration of primary health care screening, preventive health care, and health care promotion. Selected health problems common to women across the age continuum are addressed. Requires on campus skills lab.

5386. Finance and Budgeting for Nurse Leaders (3:3:0 WB)
Prerequisite: MSN student enrolled in the Nursing Administration specialty track. This course is designed to provide graduate students with information and skills for developing budgets and managing financial issues in health care facilities, clinics, independent practice or a nursing unit.

5387. Palliative Care for APNs (3:3:0 WB) (*Elective)
This course explores end-of-life (EOL) care and the role of Advanced Practice Nurses as members of interdisciplinary teams providing EOL care. Synthesis of advanced health assessment, advanced pharmacotherapeutics, advanced pathophysiology, and evidence based practice in the provision of palliative care will be emphasized.

5388. Holistic Nursing for Advanced Practice (3:3:0, WB) (*Elective)
Students will examine holistic nursing practices used to promote health and healing among individuals and groups, including self care, and integrative modalities. Students are encouraged to explore their personal views of healing and holistic nursing practice in the context of integrating holistic modalities into practice and research. Students will have the opportunity to review models of holistic care and critically review research evidence to develop a plan for applying evidence based holistic modalities in selected advance nursing practice roles.

5440. Primary Healthcare I: Advanced Assessment, Pathology, and Management for FNPs (CL) (4:2:7 WB)
Prerequisite: NURS 5312, NURS 5320, NURS 5342, NURS 5343, NURS 5345. This is a didactic and clinical course that builds upon concepts and skills derived from prerequisite courses. Advanced practice nursing (APRN) students will integrate theoretical and evidence-based knowledge of assessment, diagnosis, treatment, and evaluation of patients with acute and chronic health problems across the lifespan. The focus is on development of critical thinking and decision making skills necessary for the provision of safe and effective primary health care in the nurse practitioner role.
N5460. Adult-Gerontology Acute Care I (CL) (4:2:7 WB)
This course is designed to develop a beginning theoretical and research based knowledge of assessment diagnosis, and treatment of adult and geriatric patients with acute and chronic health problems. Emphasis will be placed on applying this knowledge to the assessment and management of both health and illness states including disease prevention. Clinical activities focus on enhancing health assessment skills, delineating differential diagnoses, and learning initial clinical management of clients experiencing acute and chronic health problems. The role and competencies of the Adult-Gerontology Acute Care Nurse Practitioner will examined. (Pre-requisites: NURS5312, NURS5320, NURS5342, NURS5343, NURS5345 and ACLS Certification.)

5470. Nurse Midwifery I – Antepartum Care Management (CL) (4:2:7 WB)
Pre-Requisite: NURS5342, NURS5343, NURS5345, EFM and Neonatal Resuscitation Protocol; Co-Requisite: NURS5304. Utilizes the Nurse Midwifery management process in provision of comprehensive prenatal care for women experiencing normal childbearing. Emphasis is placed on the assessment for maternal and fetal well-being with screening for deviations from normal that would require consultation/collaboration and/or referral. Educational needs and social/cultural contexts are included. The practicum includes Nurse Midwifery Management of women experiencing childbearing.

5480. Pediatric Primary Health Care I (CL) (4:2:7 WB)
Prerequisite: NURS 5312, NURS 5320, NURS 5342, NURS 5343, NURS 5345, PALS certification. Designed to develop theoretical and research-based knowledge of child health issues and well-child assessment of infants, children, and adolescents in the context of family and cultures, the course develops advanced practice skills in comprehensive assessment, as well as, management strategies reflecting current nursing and medical knowledge and practice.

5541. Primary Healthcare II (CL) (5:2:10.5 WB)
Prerequisite: NURS 5440. This course is a didactic and clinical course that builds upon the study of advanced practice nursing (APRN) concepts and skills derived in Primary Care 1 (5540). APRN students will integrate theoretical and evidence-based knowledge of assessment, diagnosis, management, and evaluation of patients across the lifespan. The course focuses on APRN role attainment, reflecting challenges, barriers and strategies for successful role implementation.

5561. Adult-Gerontology Acute Care II (CL) (5:2:10.5 WB)
Prerequisite: NURS 5460. This course is designed to build on major components critical to the knowledge of diagnosis, treatment, and evaluation of adult and geriatric patients with acute and chronic health problems. Clinical experiences include a spectrum of care ranging from disease prevention to acute and critical care.
management. Clinical practice focuses on research-based clinical decision-making processes in close collaboration with preceptors.

5571. Nurse Midwifery II – Intrapartum/Postpartum/Newborn Care (CL) (5:2:10.5 WB)
Prerequisite: NURS 5470. Allows the student to study, analyze, and apply the concepts of the Nurse Midwifery Management process for the intrapartum/postpartum care of women and care of the newborn. The course focuses on attainment of assessment and management skills in assuming responsibility for planning and providing Nurse Midwifery Management care for normal intrapartum patients with continuity of care into the postpartum, and newborn care up until the first 28 days of life.

5581. Pediatric Primary Health Care II (CL) (5:2:10.5 WB)
Prerequisite: NURS 5480. Designed to further develop theoretical and research-based knowledge of diagnosis, treatment, and evaluation of pediatric patients with acute and chronic health problems, the course develops advanced practice skills and comprehensive assessment and management strategies reflecting evidence-based nursing/medical knowledge and practice.

6000 Level Courses

6001. Graduation Station (0:0:0)
Prerequisites: Student must be in their last semester of enrollment prior to graduation. Students are required to enroll in this course in the semester in which they are scheduled to graduate. The course serves as the vehicle for students to pay their graduation fee and complete the School of Nursing’s Graduation Assessment. There is no tuition charged for this course, the student does not generate semester credit hours for the course, and the course is not graded.

6010. Application of Administrative Practice (CL) (3:0:9)
Prerequisites: successful completion of the administrative course sequence; authorization from a clinical agency willing to support the practice experience. This course provides learners with the opportunity to implement ideas into a practice setting. It is designed to allow learners to use ideas from the literature, their peers, conferences and other approved sources to create an application project designed to change practice from a clinical or administrative perspective.

6030. Leadership in Education IV: Role and Practicum (CL) (3:.5:7.5 WB)
Prerequisite: NURS 5314, 5315, and 5316. Immersion in all leadership aspects of the faculty role in an academic, CE, or staff development setting with guidance of a preceptor.

6071. Supervised Teaching (V1-3 T)
Directed teaching in students’ major area under close supervision of one or more faculty.
6200. DNP Role Transition I
(2:2:0 WE)
Prerequisites: Doctorate of Nursing Practice Student. The course is designed to provide students with the opportunity to engage in extensive self-assessment of leadership strengths and emotional intelligence and develop action plans for personal growth through self-directed learning. Self-knowing and reflective leadership are essential attributes of transformation leaders in complex health care systems.

6201. DNP Role Transition II
(2:2:0 WE)
Prerequisites: N6200 DNP Role Transition I. As a follow-up to Role Transition I, the course will engage students in a reassessment of their leadership strengths and emotional intelligence after completing two full semesters of course work. Students will revisit their plans for personal growth and self-directed learning in an on-going process of personal leadership development as well as identifying ways to promote leadership development for future health care leaders.

6244. Advanced Practice Development
(CL)
(2:1:6 WE)
This course prepares the DNP student to gain a deeper understanding of emerging knowledge and issues in a distinct specialty area related to the Capstone Project topic. The student will have the opportunity to engage in collaboration with other experts and specialists in the topic area and to develop advanced reasoning skills. Students will determine with faculty guidance specific goals for individualized advanced practice experiences.

6310. Practical Application of Statistics in Healthcare
(3:3:0 WE)
Prerequisites: Doctorate of Nursing Practice student. The course will provide the basics of statistical analysis, measurement theory and data management. The course will focus on the application of statistics to health services research and to clinical healthcare settings. The students will have hands-on experience using SPSS statistical software in computer labs with data preparation, statistical analysis, and data display. Statistical tests covered in the course will range from simple T-test through multiple regressions with an introduction to statistical modeling.

6320. Systems Leadership for Effectiveness, Quality and Safety
(3:3:0 WE)
Prerequisites: Doctorate of Nursing Practice student. The course will explore the scientific underpinnings of leadership, organizational effectiveness and quality improvement. Students will be provided with strategies and tools for transformational leadership and systems thinking in complex adaptive systems including effective communication, process analysis, measuring and tracking quality and safety data, and facilitating change to improve health outcomes.

6325. Informatics and Technology to Improve Health Care
(3:3:0 WE)
Prerequisites: Doctorate of Nursing Practice student. The course will explore health care informatics and methods to apply information technology to clinical care for improving patient safety, quality and the health of the population. Students
will learn information technology and research methods that collect appropriate and accurate data to generate evidence for practice and to inform and guide the design of databases to generate meaningful evidence for nursing practice.

6330. Evidence Based Inquiry I
(3:3:0 WE)
Prerequisites: Doctorate of Nursing Practice student. The course will prepare students to integrate evidence based practice in clinical settings after careful evaluation of best evidence. Emphasis will be placed on synthesizing and evaluating a specific body of evidence for merit and generalizability to the clinical setting and transforming practice problems into answerable questions. Students will begin developing their capstone project in this course.

6340. Advancing Policy and Politics in Health Care
(3:3:0 WE)
Prerequisites: Doctorate of Nursing Practice student. The course provides opportunities for nursing leaders to value the political processes that influence policy decisions through analyzing public policies, health policies, and legislation at the organizational, local, state, national, and international level. This course includes opportunities to advocate and participate in political and policy-making processes for a health issue in the student's area of interest and career trajectory.

6345. Population Health and Epidemiology
(3:3:0 WE)
Prerequisites: Doctorate of Nursing Practice student. This course provides a comprehensive investigation into the application of public health and epidemiology principles. Emphasis will be placed on using technologically advanced clinical information systems that aggregate patient data so that group and/or population-based clinical profiles, practice patterns and variations, genetic problems, and health disparities can be identified, analyzed and compared to regional and national benchmark norms and data bases.

6350. Financial Operations and Budget Management
(3:3:0 WE)
Prerequisites: Doctorate of Nursing Practice student. The course is designed to increase the nurse leader's understanding of health care economics and financing mechanisms as well as to advance skills in managing financial issues, developing budgets, making sound financial decisions, and managing projects to achieve strategic goals in health care. Students will gain hands-on experience in analyzing financial statements, developing business plans, establishing procedures for accurate charging mechanisms, and educating patient care teams on financial implications of patient care decisions.

6620. Nursing Practicum Integrated Practice
(6:1:17.5 WB)
(Pre-Requisite: NURS5571) Applies knowledge and skills gained in the preceding courses across the reproductive and postmenopausal life span including the childbearing cycle, as well as initial care of the newborn up until the first 28 days. Nurse Midwifery Management of common deviations and collaborative management of selected complications are included.
Emphasis is on increasing independence of practice and comprehensiveness of care. Expected achievement includes integration of components of nurse midwifery practice to a selected population while assuming increasing responsibility and independence.

6652. Adult-Gerontology Acute Care Practicum (CL)
(6:1:17.5 WB)
Prerequisite: NURS 5561. This course emphasizes clinical practice and role development to prepare the graduate to implement the full scope of the adult-gerontology acute care NP role. Clinical activities allow for emersion in the advanced practice nursing role. Function and responsibility on selected topics of the advanced practice role are addressed.

6660. Family Nurse Practitioner Practicum
(6:1:17.5 WB)
Prerequisite: NURS 5541. This course provides a clinical immersion experience to integrate and synthesize the APRN role. Issues related to APRN responsibilities and competencies are addressed. Students are required to complete a portion of the practicum in an underserved or rural area.

6680. Pediatric Nurse Practitioner Practicum
(6:1:17.5 WB)
Prerequisite: NURS 5581 and successful completion of required clinical and functional courses. This course provides a clinical immersion experience to integrate and synthesize the APRN role. Issues related to APRN responsibilities and competencies are addressed. Pediatric nurse practitioner students are required to complete a portion of practicum in an underserved or rural area.

7000 Level Courses

7310. Health Innovations in Chronic Illness
(CL 3:2.25:4.5 WE)
Prerequisites: Concurrent enrollment in or completion of DNP core leadership courses and DNP core evidence-based science courses. The course provides the opportunity for advanced exploration of theory and evidence-based research underlying the adoption of healthy lifestyle behaviors in the prevention, management and palliative care of chronic disease. Students will apply and evaluate theories and principles of healthy behavior change in individuals, families and/or communities in rural and urban settings.

7311. Leading Teams in Complex Health Care Environments
(CL 3:2.25:4.5 WE)
Prerequisites: Concurrent enrollment in or completion of DNP core leadership courses and DNP core evidence-based courses. Leading and managing interprofessional groups, as well as nursing groups, is a critical leadership skill. Numerous strategies exist to develop teams. This course focuses on knowing oneself as a leader, forecasting future needs, understanding the team, coaching others, balancing data driven decisions with innovation, and valuing the complexity of the evolving healthcare environment.
7320. Integrating Complementary and Alternative Modalities (CAM) into Health Care Systems (CL 3:2.25:4.5 WE)
Prerequisites: Concurrent enrollment in or completion of DNP core leadership courses and DNP core evidence-based courses. The course uses the field of complementary and alternative health care as a venue for developing the student's role to improve health care by introducing change within existing health care systems. Students are provided with the opportunity to gain knowledge, analyze, observe and experience various CAM modalities. Critical reviews of the application of evidenced based research approaches to examine the effectiveness and safety of CAM in advanced nursing practice will be synthesized within an analysis of health care systems.

Prerequisites: Concurrent enrollment in or completion of DNP core leadership courses and DNP core evidence-based courses. This course is designed to provide an in-depth look at the economics of U.S. health care and major issues that have prompted the current attempt at health care reform. Health care represents nearly fifteen percent of the U.S. Gross Domestic Product, and more importantly, has profound effect on almost all individuals. Resources in the health care industry are scarce and a source of conflict. This course will attempt to utilize many traditional tools of economics to illustrate how limited resources can be applied to the health care sector. Additionally, certain health care related topics pertaining to other industrialized and developed countries will be discussed. Students will be introduced to a variety of economic theories, models and tools that will facilitate the understanding of the breadth of subjects introduced during the semester.

Prerequisites: Concurrent enrollment in or completion of DNP core leadership courses and DNP core evidence-based courses. The course uses the field of integrative health care as a venue for developing the student's role to improve health care for rural and vulnerable populations who have limited access to conventional health services by introducing change within existing health care systems. Students are provided the opportunity to observe, analyze, and experience various culturally-based modalities and non-traditional health practices. Critical reviews of the application of evidenced based research approaches to examine the effectiveness and safety of CAM in advanced nursing practice will be synthesized within an analysis of health care systems.

7331 Population Health at the Organizational and Public Policy Level (CL 3:2.25:4.5 WE)
Prerequisites: Concurrent enrollment in or completion of DNP core leadership courses and DNP core evidence-based courses. The course provides nurse leaders in the DNP role with the skills to evaluate care delivery models and strategies related to community, environmental, occupational, cultural and socioeconomic dimensions of health. Students will learn to access and analyze population-level health data,
design evidence-based interventions at the organizational and public policy level, and predict and analyze outcomes to improve population health.

7332. Evidence Based Inquiry II  
(3:3:0 WE)  
Prerequisites: NURS6330 Evidence Based Inquiry I. The course will build on Evidence Based Inquiry I, refining the student’s ability to evaluate and synthesize evidence for integration into clinical practice. Emphasis will be placed on translating the evidence into actual clinical or management practice as well as creating an environment for the integration of evidence based practice within an organization. Students will further develop their capstone project in this course.

7350. Capstone Project and Seminar  
(CL 3:2:6 WE)  
Prerequisites: Concurrent enrollment in or completion of DNP advanced APN or executive leadership specialization courses. The capstone project incorporates evidence-based strategies for implementing and achieving health care outcomes such as a significant pilot study, a program evaluation project, a quality improvement project, or a practice change initiative derived from translational science and the DNP role. The capstone project serves as a foundation for future scholarly practice and is reviewed and evaluated by an academic community. Students share issues in a seminar format as the project nears completion.

7351. DNP Practicum and Seminar  
(CL 3:2:6 WE)  
Prerequisites: Completion of DNP advanced APN or executive leadership specialization course. The course provides an end of program practice immersion experience to integrate and synthesize the essentials necessary to demonstrate competency in an area of specialized nursing practice in the DNP role. Proficiency may be acquired through a variety of methods such as in-depth case studies, patient or practice contact hours, completing and demonstrating specified projects or competencies, or a combination of these elements. Students share issues related to implementation of the DNP role in a seminar format.
TTUHSC School of Nursing Faculty

**Acton, Cindy, RN, DNP, NEA-BC**  
Associate Professor and Associate Director for TTUHSC Quality Enhancement Plan  
– BSN (West Texas A&M), MSN (West Texas A&M), DNP (Case Western Reserve University)

**Allen, Patricia, RN, EdD, CNE, ANEF, FAAN**  
Professor & Director of Center for Innovation in Nursing Education (CINE)  
– BSN (Old Dominion University), MSN (The Catholic University of America), PhD (Florida International University)

**Andersen, Susan, RN, PhD, FNP-BC**  
Associate Professor – BA (Carleton College),  
RN (Mohawk College of Applied Arts and Technology), BSN (Lubbock Christian University), MSN (Texas Tech University Health Sciences Center), PhD (The University of Texas Health Sciences Center Graduate School of Biomedical Sciences San Antonio, Texas)

**Ashcraft, Alyce, RN, PhD, ANEF, CNE**  
Professor and Associate Dean for Research  
– BSN (Texas Woman’s University), MSN (University of Texas at Arlington), PhD (University of Texas at Austin)

**Bargainer, Ruth, RN, MSN**  
Instructor - ASN (McMurry University),  
MSN (Texas Tech University Health Sciences Center)

**Boswell, Carol, EdD, RN, CNE, ANEF**  
Professor – BSN (Texas Tech University Health Sciences Center), MSN (Texas Tech University Health Sciences Center), EdD (Texas Tech University)

**Branham, Steven, PhD, RN, CS, ACNP-C, FNP-BC, CCRN**  
Assistant Professor – ADN (Central Ohio
Bridges, Ruth Ann, PhD, RN-BC  
Associate Professor – Diploma (Methodist Hospital), BSN (West Texas State University), MSN (Texas Tech University Health Sciences Center), PhD (Texas Women's University)

Bright, Thomas, BS, RN, BSN, MSN  
Assistant Professor – BSN (Nebraska Wesleyan University), MSN (Nebraska Wesleyan University)

Bruce, Kellie, RN, PhD, FNP-BC  
Assistant Professor and Program Director, FNP Track - BSN (West Texas A&M University), MSN (West Texas A & M), PhD (Touro University)

Burnette, Cindy, MSN, RN, CA-CP SANE  
Instructor – BSN (Texas Tech University Health Sciences Center), MSN (Grand Canyon University)

Caballero, Sandra, RN, MSN  
Instructor and Clinical Simulation Center Coordinator – BSN (Texas Tech University Health Science Center), MSN (Texas Tech University Health Science Center)

Campbell, Lisa, DNP, RN, APHN-BC, GNP-BC  
BSN (The University of Texas Medical Branch at Galveston), MSN (The University of Texas Medical Branch at Galveston), DNP (University of Tennessee Health Science Center)

Cannon, Sharon B., EdD, RN, ANEF  
Professor and Medical Center Hospital Regional Dean Endowed Chair – BSN (St. Louis University), MSN (Southern Illinois University), EdD (Southern Illinois University)

Casida, Deborah, MSN, RN  
Assistant Professor – ASN (Amarillo College), BSN (West Texas A&M University), MSN (University of Phoenix)

Cherry, Barbara, RN, DNSc, MBA, NEA-BC  
Professor, Department Chair for Leadership Program, Mildred and Shirley L. Garrison Professorship in Geriatric Nursing – BSN (West Texas A&M), MSN (Texas Tech University Health Sciences Center), MBA (Texas Tech University), DNSc (University of Tennessee)

Clark, Cady, MSN, RN  
Assistant Professor - BSN (University of Oklahoma), MSN (University of Texas at Austin)

Clubb, Vicki, RN, MSN  
Assistant Professor - Diploma (Fanshawe College), BSN (University of Phoenix), MSN (University of Phoenix)

Collins, Jennifer, RN, PhD  
Assistant Professor - BSN (The Catholic University of America), MSN (Baylor University), PhD(The University of Texas Health Sciences Center at San Antonio)
Crenshaw, Jeannette, DNP, MSN, RN, LCCE, FACCE, IBCLC, NEA-BC
Assistant Professor - BSN (University of Texas at Austin), MSN (Baylor University), DNP (Texas Tech University Health Sciences Center)

Curtis, Rebecca, RN, MSN, MHA
Instructor – BSN (Lubbock Christian University), MSN (University of Phoenix) Davenport, Deborah, RN, MSN, CNE, Assistant Professor – BSN (Baylor University), MSN (Texas Tech University HSC)

Davenport, Lisa, RN, MSN
Instructor – BS (Texas A&M University), MSN (The University of Texas)

Decker, Sharon I., RN, PhD, ANEF, FAAN
Professor and Director of Clinical Simulations, and Covenant Health System Endowed Chair in Simulation and Nursing Education – BSN (Baylor University), MSN (University of Texas at Arlington), PhD (Texas Woman's University)

Durst, Irene, RN, MSN
Assistant Professor – BSN (Texas Tech University Health Science Center), MSN (West Texas A & M University)

Edwards, Carrie, RN, PhD, CA/CP SANE
Assistant Professor – BSN (Texas Tech University Health Sciences Center), MSN (Texas Tech University Health Sciences Center), PhD (Texas Woman's University)

Esperat, Christina R., RN, PhD, FAAN
Professor and Associate Dean for Clinical Services and Community Engagement, CH Foundation Regents Professor in Rural Health Disparities, RJW Foundation Executive Nurse Fellow – BSN (Silliman University, Philippines), MAN (Silliman University, Philippines), PhD (University of Texas)

Esquibel, Karen A., PhD, RN, CPN-P-C
Associate Professor – BSN (Texas Tech University Health Sciences Center), MSN (Texas Tech University Health Sciences Center), PhD (Texas Woman's University)

Evans, Michael L., Ph.D., RN, FAAN
Dean and Professor, UMC Endowed Chair for Excellence in Nursing – BA (Texas Tech University), Diploma (Northwest Texas Hospital School of Nursing), BSN (West Texas State University School of Nursing), MSN (University of Texas Health Science Center School of Nursing), PhD (The University of Texas)

Fleming, Tammy, RN, PhD(c), BC
Assistant Professor - BSN (West Texas A&M University), MSN (Lubbock Christian University), PhD(c) (New Mexico State University School of Nursing)

Franco, Hollis, MSN, RN
Instructor – ADN (Covenant School of Nursing), BSN (Lubbock Christian University), MSN (Lubbock Christian University)

Gallegos, Belinda A., RN, MSN, PhD(c), CNE
Instructor – BSN (Texas Tech University Health Sciences Center), MSN (Texas Tech University Health Sciences Center), PhD in progress (Texas Tech University)
Gautam, Bibha, RN, BSN
Assistant Professor – PCL (Tribhuvan University, Institute of Medicine), B.Ed (Tribhuvan University Kathmandu Education), BSN (Tribhuvan University, Institute of Medicine), PhD (University of North Dakota College of Nursing)

Geist, Rebecca A., RN, MSN
Instructor – ADN (Angelo State University), BSN (Angelo State University), MSN (Lubbock Christian University)

Green, Alexia, RN, PhD, FAAN
Professor and Dean Emeritus – ADN (Alvin Community College), BSN (University of Texas Medical Branch), MSN (University of Texas Health Science Center), PhD (Texas Woman’s University)

Guenther, Joanna L., PhD, RN, FNP, BC
Assistant Professor – BSN (University of Texas Austin), MSN (University of Texas Austin), FNP (University of Texas Health Science Center of San Antonio), PhD (Texas Women’s University College of Nursing)

Hagstrom, Ann, RN, MSN, NCSN
Assistant Professor, Undergraduate Coordinator and Faculty Champion – BSN (Texas Tech University Health Sciences Center), MSN (Lubbock Christian University)

Hammond, Lori, RN, MSN
Instructor - LVN (Western Texas College), RN (Austin Community College), MSN (Texas Tech University Health Sciences Center)

Harkness, Laneigh, RN, MSN
Assistant Professor – BSN (Texas Tech University Health Sciences Center), MSN (Texas Tech University Health Sciences Center)

Hilliard, Tara, RN, MSN, ACNP-BC
Assistant Professor, Program Director, Adult-Gerontology Acute Care NP Track - BSN (Texas Tech University Health Sciences Center), MSN (Texas Tech University Health Sciences Center)

Hillin, Elaine, RN, MSN, CNE
Assistant Professor - BSN (University of Texas Arlington), MSN (Nebraska Wesleyan University)

Hogan, LaMicha, RN, MSN, FNP-C
Assistant Professor - Diploma (Methodist Hospital), BSN (Lubbock Christian University), MSN (West Texas A&M University)

Jimenez, Rosalinda, RN, MSN, C-FNP, EdD
Assistant Professor – ADN (South Plains College), BSN (Lubbock Christian University), MSN (West Texas A&M University), EdD (Walden University)

Johnson, Kyle, BSN, RN
Instructor – BSN (Texas Tech University Health Sciences Center), MSN (Lubbock Christian University)

Johnson, Lori, RN, MSN
Instructor – ADN (South Plains College), BSN (West Texas A&M University), MSN (Lubbock Christian University)
Johnson, Patricia Francis, DNP, RN  
Assistant Professor and Faculty Champion  
– BS (Texas Tech University), ASN (Miami Dade Community College), BSN (Lubbock Christian University), MSN (Texas Tech University Health Sciences Center), DNP (Texas Tech University Health Sciences Center)

Jones, Melinda Mitchell, MSN, JD, RN  
Associate Professor, Department Chair for Non-Traditional Undergraduate Department – BSN (Baylor University), MSN (University of North Carolina), JD (Texas Tech University School of Law)

Ketner, Kenneth Laine, PhD  
Charles Sanders Peirce Interdisciplinary Professor, Paul Whitfield Horn Professor  
Texas Tech University – PhD (University of California at Santa Barbara)

Kineman, Dawn, MSN, RN  
Instructor – BSN (Texas Tech University Health Sciences Center), MSN (Texas Tech University Health Sciences Center)

Lacy, Darlene, RN, PhD, BC, CNE  
Assistant Professor – Diploma (Northwest Texas Hospital SON), BSN (West Texas State University), MSN (West Texas State University) PhD (Texas A & M College Station)

Lee, Molly, RN, MSN  
Assistant Professor – BSN (Midwestern State University), MSN (University of Texas at Arlington)

Lowrance, Toni, RN, MSN  
Instructor – BSN (Lubbock Christian University), MSN (Lubbock Christian University)

Lugo, Irene, RN, MSN  
Assistant Professor – ADN (El Paso Community College), BSN (University of Texas of El Paso), MSN (University of Texas of El Paso)

Masten, W. Yondell, PhD, WHNP-BC, RNC-OB  
Professor and Associate Dean, Outcomes Management and Evaluation – Diploma (Methodist Hospital), BS and BSN (West Texas State University), MS (Texas Tech University), MSN (University of Texas at Austin), PhD (Texas Tech University), Post Master’s WHNP (University of Texas Medical Branch at Galveston)

McBride, Susan, RN, PhD  
Professor – BSN (University of Texas at Arlington), MS (Texas Woman’s University), PhD (Texas Woman’s University)

McClanahan, Chris, RN, MSN, CEN  
Instructor – EMT-B (New Mexico Junior College), EMT-I, EMT-P (Texas Tech University), ADN (South Plains College), BSN (Lubbock Christian University), MSN (Lubbock Christian University)

McMurry, Linda, RN, DNP  
Assistant Professor & Executive Director  
Larry Combest Community Health and Wellness Center – BSN (Texas Tech University Health Sciences Center School of Nursing), MSN (Texas Tech University Health Sciences Center), DNP (Texas Tech University Health Science Center)
McMurry, Mike, DNP, ACNP-BC  
Assistant Professor - BSN (West Texas State University), MSN (Texas Tech University Health Sciences Center), DNP (Texas Tech University Health Sciences Center)

Mercer, Debra, MSN, RN, ACNP-BC  
Assistant Professor – BSN (University of Washington), MSN (University of Arkansas Medical Services)

Merrill, Emily, PhD, RN, FNP, BC, CNE, FAANP  
Professor and Department Chair for Advanced Practice RN Program, CH Foundation Endowed Professorship for APRN Studies – BS (University of Oklahoma), MS (Texas Woman's University), Post-Masters FNP (Texas Tech University Health Sciences Center), PhD (Texas Woman's University)

Merritt, Pearl, EdD, MS, MSN, FAAN  
Professor and Regional Dean of Abilene - BSN (McMurry University), MSN (Abilene Christian University), EdD (Texas Tech University)

Miller, Joyce M., DNP, RN, WHNP-BC, FNP-BC  
Associate Professor – BSN (Texas Tech University Health Sciences Center), MSN WHCNP (University of Texas at El Paso), DNP (Case Western Reserve University)

Miller, Virginia G., PhD, RN, FNP-BC  
Associate Professor – BSN (The Ohio State University), MSN (West Virginia University), PhD (The University of Texas at Austin)

Moore, Amy, DNP, RN, FNP-C  
Assistant Professor, Site Coordinator and Faculty Champion – ADN (Western Oklahoma State College), BSN (West Texas A&M University), MSN/FNP (West Texas A&M), DNP (University of Colorado)

Moseley, Kelly, DHSc, RN, MSN  
Assistant Professor – BSN (San Angelo State University), MSN (San Angelo State), DHSc (Nova Southeastern University)

Newton, Kyle, RN, MSN, CCRN  
Instructor – ADN (New Mexico State University), BSN (Lubbock Christian University), MSN (Lubbock Christian University)

Opton, Laura, RN, MSN, CNE  
Assistant Professor and Second Degree Program Coordinator – BSN (Texas Tech University Health Science Center), MSN (Lubbock Christian University)

Owen, Donna C., PhD, RN, CNE  
Professor, BA-Biology (Case Western Reserve University), BSN (Case Western Reserve University), MS (Boston University), PhD (Case Western Reserve University)

Paris, Donna, BSN, RN  
Instructor – BSN (Central Oklahoma Edmond)

Perez, Elisa, RN, MSN  
Instructor – ADN (Angelo State University), BSN (Texas Tech University Health Sciences Center), MSN, Lubbock Christian University
Rogge, Mary Madeline, APRN, PhD, FNP BC
Associate Professor – BSN (Texas Woman's University), MA (Ball State University), PhD (The University of Texas in Austin), Post Masters FNP (Texas Tech University Health Sciences Center)

Rose, Jan, MSN, RN
Assistant Professor – BSN (Texas Woman's University), MSN (Texas Tech University Health Sciences Center)

Rowden, Haley, RN, MSN
Instructor – BS (Angelo State University), BSN (Texas Tech University Health Sciences Center), MSN (Texas Tech University Health Sciences Center)

Saunders, Jana, PhD, RN, PMHCNS-BC
Professor – BSN (University of New Mexico), MSN (University of Virginia), PhD (Georgia State University)

Schnetter, Vicki, RN, MS
Assistant Professor and Site Coordinator – ADN (Iowa Central Community College), BSN (Arizona State University), MSN (Arizona State University)

Seth, Shelly, MSN, MBA, CWON, FNP-C, ACNP, BC
Instructor - BSN (West Texas A&M University), MSN (West Texas A & M University), MBA (Wayland Baptist University), FNP (West Texas A&M University), ACNP (Texas Tech University Health Sciences Center)

Silvers, Charlotte, RN, MSN
Assistant Professor and Site Coordinator – BSN (Texas Tech University Health Science Center), MSN (Texas Tech University Health Science Center)

Sridaromont, Kathryn L., PhD, RNC, MSN
Associate Professor and Department Chair of Traditional Undergraduate Program – Diploma (Hotel Dieu School of Nursing), BSN (Incarnate Word College), MSN (University of Texas System School of Nursing)

Stansell, Priscilla, MSN, RN
Instructor – BSN (Baylor University, Louise Herrington School of Nursing), MSN (Lubbock Christian University)

Stuart, Christine, MSN, CNM, WHNP-BC
Assistant Professor and Interim Director of the Nurse Midwifery Program - BS (Texas Woman's University), MSN (Texas Woman's University), Post Master's (University of Colorado Health Sciences Center - Denver)

Sun, Grace, RN, MSN, FNP, BC
Instructor – BS (University of California, Berkeley) BSN (Johns Hopkins University), MSN (Johns Hopkins University)

Thal, Wendy, DNP, RN, FNPC, CEN
Associate Professor – BS (Texas Tech University), Diploma (Lubbock Methodist School of Nursing), BSN (Lubbock Christian University), MSN (West Texas A&M University), DNP (University of Arizona)

Thomas, Elizabeth (Betsy), RNC, PhD, MPH
Assistant Professor – Diploma (Samaritan Hospital School of Nursing), BSN (Virginia Commonwealth University), MSN (Troy
Thomas, Laura, RN, MSN, CNE  
Assistant Professor – BS (Texas Tech University Health Sciences Center), MSN (Lubbock Christian University)

Tombs, Elizabeth, MSN, RN, IBCLC, RLC  
Assistant Professor - BSN (Texas Tech University Health Sciences Center School of Nursing), MSN (Texas Tech University Health Sciences Center)

Tyler, Christy, MSN, RN  
Instructor – BSB (Texas Tech University), BSN (Texas Tech University Health Sciences Center), MSN (Texas A & M at Corpus Christi)

Veesart, Amanda, RN, MSN  
Instructor and Clinical Site Coordinator – BSN (Lubbock Christian University), MSN (Texas Tech University Health Sciences Center)

Weaver, R. Christine, RN, MSN, FNP-C  
Instructor – BSN (Texas Tech University Health Sciences Center), MSN (Texas Tech University Health Sciences Center)

Whitcomb, Kathryn, RN, MSN  
Instructor – ASN (Nashua Community College), BSN (Angelo State University), MSN (Angelo State University)

Wilkinson, Crystal J., RN, DNP, CNS-CH  
Assistant Professor – BSN (Beth-el College of Nursing), MSN (University of Texas)

Winckler, Debra, RN, MSN  
Instructor – ASN (University of South Dakota), BSN (Grand Canyon University), MSN (Grand Canyon University)

Winner, Marnette, MSN, RN, OCN  
Assistant Professor – BSN (Lubbock Christian University), MSN (Lubbock Christian University)

Wise, Tiffani, RN, MSN  
Instructor and Coordinator – BSN (Texas Tech University Health Sciences Center), MSN (Texas Tech University Health Sciences Center)

Wochl, Kate, RN, MSN  
Assistant Professor and Faculty Champion, BSN (MedCenter One College of Nursing), MSN (Hardin Simmons University).
Part Time Faculty 2013

Adams, Stacey, RN, MSN, CPNP-PC, ACNP-BC - BSN (University of Phoenix)

Bavousett, Tamara R., DNP, RN, C-PNP - ADN (Odessa College), BSN (Texas Tech University Health Sciences Center), MSN (Texas Tech University Health Sciences Center), DNP (Texas Tech University Health Sciences Center)

Boyd, Sandra, RN, MS - BSN (Wayne State University), MS (University of Houston)

Dean, Margaret, RN, CS-BC, GNP-BC, MSN, FAANP – BSN (West Texas A&M University), MSN (West Texas A&M University)

Farren, Elizabeth A., RN, PhD – BSN (Northern Illinois University), MSN (University of Tennessee-Knoxville), PhD (University of North Texas)

Gary, M. Annette, RN, C, PhD, CNAA, CFNP – BSN (Texas Tech University), MSN (Texas Tech University), FNP (Texas Tech University HSC), PhD (University of Texas at San Antonio)

Harmon, Stan, RN, MSN, FNP – AA (Hiwassee College), BSN (University of Texas, El Paso, MSN (Texas Tech University HSC)

Harmon, Vera, RN, PhD – BSN (State University of New York), MS (State University of New York), PhD (Texas A&M University)

Hecht, Maude B., RN, MSN, FNP – BA (Hampshire College), BSN (University of Texas at El Paso), MSN (University of Texas at El Paso), DNP (Texas Tech University Health Sciences Center)

Kearney, Kathleen M, RN, MSN, JD – BSN (Boston College), MSN (Emory University), JD (Suffolk University Law School)

Kowalski, Karren, PhD, RN, FAAN – BSN (Indiana University), MSN (University of Colorado), PhD (University of Colorado)
