Click for tips on using **FIRSTConsult** and for answers to frequently asked questions.

#### Full Text Search:

Search the entire site or specific areas. Full text search results are presented with the most relevant to your search term appearing nearer the top.

#### FIRSTConsult Handheld:

This link shows you how to download key **FIRSTConsult** information onto a handheld device.

#### Links to MD Consult:

Links provide more clinical resources such as current research, journal articles, practice guidelines, and more.

**FIRST**  
**Consult**  
THINK FAST. BE SURE.

**FIRSTConsult** brings you evidence-based, continuously updated clinical information in five key areas:

**Differential Diagnoses** – An A-Z list of presenting signs and symptoms, with more than 1,500 potential diagnoses sorted by age and prevalence in primary care.

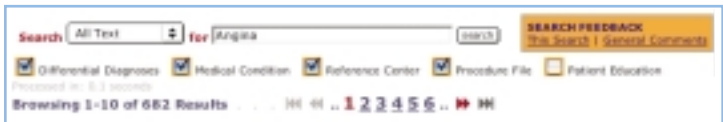

**Medical Conditions** – An alphabetically organized list of medical conditions that provides regularly updated information on patient evaluation, diagnosis and treatment, tests, prevention, and much more.

**Procedure Files** – Surgical and diagnostic procedures, with expert guidance delivered through video clips, step-by-step action points, evidence-based management guidelines, and clinical pearls.

**Reference Centers** – Evidence-based information on key topics that are not disease-specific, such as *Bioterrorism*, *Pregnancy*, and much more.

**Patient Education** – Fully customizable patient education sheets for many of the topics covered in the *Medical Conditions* files.

**Evidence-Based Medicine** – **FIRSTConsult** supports your clinical decision-making by providing concise, readable evidence that relates to patient care. Look for the ⓘ icon in the text for links to full reference details.

Use the Full-Text Search tool to search the entire site or specific areas for the clinical information you need to support your decisions.
