HEALTH SCIENCES CENTER.
School of Pharmacy

Texas Tech University HSC School of Pharmacy is an accredited provider of Continuing Education by the Accreditation Council for Pharmacy Education.

IMMUNIZATION

Administration Certification

The Immunization Administration Certification course is a 20 contact hour, practice-based program that provides pharmacists with resources and materials necessary to provide immunizations to patients and successfully promote immunization services. The program consists of 12 home study hours and 8 hours of live programming.

(The home study program has an ACPE initial release date of May 27, 2016 and expires July 16, 2017)

August 27, 2016

**Dallas
Amarillo**

2:30 – 2:45 pm	Break
2:45 – 3:15 pm	Vaccine Administration Techniques
3:15 – 4:15 pm	Skills Practice and Demonstration
4:15 – 5:30 pm	Final Assessment /Evaluation

Home Study Objectives

- Discuss the principles of vaccinations
- Discuss the etiology, epidemiology, routine immunization schedule, and vaccine characteristics for vaccine preventable diseases
- Apply knowledge of vaccine schedules, indications, and contraindications to cases for discussion
- List regulatory requirements necessary for compliance before offering immunizations
- Describe the incorporation of vaccine services into an existing pharmacy workflow
- Demonstrate proper handling and disposal of sharps, and aseptic technique

Live Program Objectives

- State the characteristics, schedule, contraindications and adverse reactions for vaccines discussed
- Demonstrate various vaccine administration techniques
- Discuss ordering and storage requirements for specific vaccines
- Discuss necessary components of immunization protocols
- Identify procedures for handling allergic reactions

To receive certification you must provide documentation of your basic cardiac life support for a healthcare provider (BCLS card - front and back copy), successfully complete the home study programs, participate in the live program, demonstrate competency in the administration of 1 IM and 1 SC injection, successfully complete the program assessments with a 70% or higher, and complete the program evaluation form.

The ACPE UAN is 0096-0000-16-018-B04-P.
