Commencement Speaker

Craig D. Cox, Pharm.D., FCCP, BCPS

Craig D. Cox, Pharm.D., FCCP, BCPS

Craig D. Cox, Pharm.D., is a professor of pharmacy practice and division head for adult medicine. He is also the vice chair of experiential programs at Texas Tech University Health Sciences Center Jerry H. Hodge School of Pharmacy in Lubbock, Texas. He has been on faculty for 24 years and at the School for every graduating class. He received his Pharm.D. from Washington State University and completed a critical care residency at the School of Pharmacy in Amarillo.

Dr. Cox provides clinical pharmacy services on the adult medicine ward at University Medical Center. He has served as the preceptor for more than 400 students and residents on six-week rotations. He has been elected to different national leadership positions with the American Association of Colleges of Pharmacy (AACP), an organization in which all 141 schools/colleges in the United States belong.

In 2022 Dr. Cox began a three-year Presidential term with AACP and is currently serving as President (2023-2024). He has a passion for helping the international community enhance their professional pharmacy programs and has served as a consultant in countries like Egypt, Saudi Arabia, Canada, Jordan, United Arab Emirates, among others. He is a father of two children, Aubrey 10, and Cayson 6, and is married to his beautiful wife Shalyn who is also a pharmacist and alumna of Texas Tech School of Pharmacy. He is a sports fanatic, loves to travel the world, and has collected a few crazy stories along the way – some of which you may hear today.

Academic Awards and Honors

BOWL OF HYGIEIA

The Bowl of Hygieia is an internationally recognized symbol for the profession of pharmacy. Universally depicted as a snake wrapped around a bowl, it comes to us from Greek mythology. Hygieia is the daughter of Zeus and the goddess of purity. Her bowl represents medicine, and the snake indicates potency. Taken altogether, the Bowl of Hygieia symbolizes "pure and potent medicines."

The Bowl of Hygieia is awarded to a graduating Doctor of Pharmacy candidate who best exemplifies the qualities most desirable in a pharmacist. Most important of these attributes include leadership, high ethical standards, dedication, and promotion of the profession of pharmacy.

Faculty and students alike choose the recipient of this distinguished award. Candidates are nominated by fellow students and endorsed by a letter of support from a faculty member. Selections are then made by an awards committee consisting of the Regional Deans. All TTUHSC School of Pharmacy campuses are represented on the committee.

The recipient is given the honor of carrying in the Bowl of Hygieia at the commencement ceremony. The recipient also holds the privilege of leading the class in the recitation of the Oath of the Pharmacist. The Bowl of Hygieia, along with a special plaque engraved with each recipient's name, will stand on display throughout the year at the Amarillo campus of the School of Pharmacy.

Past Recipients of the Bowl of Hygieia:

2000	Susan Lynn Burgoyne Cordi, Pharm. D.	2013	Chiamaka Ike, Pharm.D.
2001	Jeanie Elizabeth Jaramillo, Pharm.D.	2014	Justin Thomas, Pharm.D.
2002	Shawn Anthony Gautreaux, Pharm.D.	2015	Jordan Burdine, Pharm.D.
2003	Jason Price Haire, Pharm.D.	2016	Teryn J'Nae Bibb, Pharm.D.
2004	Ben Brister, Pharm.D.	2017	Brandi Kay Dahl, Pharm.D.
2005	Shawna Elizabeth King, Pharm.D.	2018	Hayden MaryAnne Stewart, Pharm.D.
2006	Alisia Diane Baker, Pharm.D.	2019	Michael Dean, Pharm.D.
2007	Theresa Marie Gerst, Pharm.D.	2020	Justin Langreck, Pharm.D.
2008	Laura Christine Patterson, Pharm.D.	2021	Anthony Phan, Pharm.D.
2009	Ryan Lester Burke, Pharm.D.	2022	Madeline Ann Scarbrough, Pharm.D.
2010	Aby Rajagiriyil, Pharm.D.	2023	Eric Earl Kennison, Pharm.D.
2011	Antonia Leigh-Pettit Edgar, Pharm.D.	2024	Gracie Klaire Daniels, Pharm.D.
2012	Jacqueline Petty, Pharm.D.		

BANNER BEARER

The Banner Bearer is a title conferred upon the top-ranking graduate of the class, who thereby earns the honor of escorting the School of Pharmacy's Banner in the Graduation Ceremony.

GRADUATION AWARDS

Each year students are honored with prestigious awards at graduation. They are nominated by their colleagues, faculty, preceptors, and staff. Criteria for each award vary, and highlight accomplishments of the graduates including leadership, academic accomplishments, community outreach, perseverance, clinical achievements, and promotion of the profession of pharmacy.

<u>Wolters Kluwer Award of Excellence in Clinical Communication</u>
This award recognizes a student who is in the top 25% of the class academically and has demonstrated superior verbal and written, clinical communication skills.

Jenna Do

Superior Patient Care Award

This award recognizes excellent performance during pharmacy rotations and focuses on patient relations in both hospital and community practice.

Jacob Sanchez

Community Outreach Award of Excellence

This award recognizes a student who has demonstrated excellent overall community involvement and outreach; the student will have participated in community service including philanthropic events.

Hong Quang Tran

Viatris Excellence in Pharmacy Award

Recognizes high academic achievement and personal motivation. Student must be in the top 25 percent of the class academically and intend on entering practice upon graduation.

Vivian Pham

Hannah Leigh Thompson Resilience Award

This award is named in honor of Hannah Thompson, a member of the Class of 2019 who passed away during her P4 year. It recognizes a resilent student who overcame major setbacks and exemplified a positive attitude in the face of difficulties.

Rebecca Jean Moore

CLINICAL PRACTICE AWARDS

Based upon student performance on their fourth-year clinical rotations, students receive awards for core rotations. These awards come from preceptors and are then voted upon and chosen by the faculty teaching teams. Criteria for each award vary, but highlight accomplishments of the graduates as they performed clinically and showed dedication and excellence in the practice area. These awards were previously awarded at the school-wide Celebration of Achievement event.

Excellence in Ambulatory Care Award

This award recognizes a student who demonstrates a high degree of excellence and commitment to the practice of ambulatory care pharmacy.

Vivian Pham

Excellence in Community Practice Award

This award recognizes a student who excels in community-based rotations demonstrating both oustanding clinical judgement in patient care and excellent patient interactions.

Destinee Wells

Excellence in Correctional Managed Health Care Award

The recipient of the Correctional Managed Health Care Award must strive for excellence in review and presentation of patients with proper therapeutic plans. The recipient shall have provided or delivered an outstanding presentation or project to the pharmacist group or prison staff members that substantially impacts patient care or procedures.

Bryan Hoang

<u>Excellence in Geriatrics Award</u>
This award recognizes a student who demonstrates a high degree of excellence and commitment to the practice of geriatrics.

Laura Ann Schenk

Excellence in Inpatient Clinical Practice Award

This award recognizes excellent performance during pharmacy rotations and focuses on patient relations in both hospital and community practice.

Brandon A. McCormick

Excellence in Pediatrics Award

This award recognizes a student who demonstrates a high degree of excellence in pediatric pharmacy through classroom, experiential, and organizational participation. The award also recognizes the student whose career will involve the care of pediatric patients.

About Our School

Amarillo

When the Texas Legislature established Texas Tech University Health Sciences Center (TTUHSC) School of Pharmacy in 1993, it created the first publicly supported pharmacy program in the United States in nearly five decades. State legislators also mandated that the School of Pharmacy be located in Amarillo. The first classes began in August 1996 and the school's steady growth since that time has helped the state of Texas address its pharmacist shortage: more than 90 percent of students who have graduated from the TTUHSC School of Pharmacy have remained in the Lone Star state.

Since its inception, the TTUHSC School of Pharmacy has embraced new classroom technologies to advance its curriculum and prepare students for the ever-increasing opportunities that exist in pharmacy today. It was the first program in the nation to require all of its students to have laptop computers and to deliver materials and email services in support of coursework. The school also

requires its students to complete more clinical training hours than most other pharmacy programs in the country.

In November 2009, the School of Pharmacy expanded the Amarillo campus by opening its Pharmacy Academic Center. The 23,000 square-foot facility provides state-of-the-art classrooms and clinical simulation facilities and gave the school the ability to increase its Amarillo class sizes from 90 students in 2009-2010 to 115 students beginning in 2010-2011.

The TTUHSC campus in Amarillo also includes a new 48,000-square-foot biological sciences research building and the School of Pharmacy presently occupies approximately 80 percent of the facility's assigned laboratory and office space. School of Pharmacy researchers collaborate with TTUHSC School of Medicine investigators whose research is focused upon cancer biology and therapeutic drug delivery.

Lubbock

The School of Pharmacy's Lubbock regional campus opened in January 1998. The campus is located in the main TTUHSC building in Lubbock and deploys students to clinical sites in Lubbock and the surrounding communities. School of Pharmacy faculty members in Lubbock have many clinical interests, including adult internal medicine, primary care, geriatrics, pediatrics, community pharmacy and infectious disease research. Their clinical practice sites include University Medical Center, TTUHSC clinics/pharmacy, TDCJ Montford and local area nursing homes.

Lubbock faculty and residents also operate the TTUHSC Pharmacy, which provides medications and biologicals to the Texas Department of Criminal Justice Montford Unit Regional Medical Facility; the TTUHSC International Pain Institute; and TTUHSC clinics in Lubbock, Odessa and El Paso.

Dallas/Fort Worth

Roughly one-half of the TTUHSC School of Pharmacy student population has historically come from within a 100-mile radius of the Dallas/Fort Worth (DFW) Metroplex, an area of the state where the shortage of pharmacists has often been described as critical. To help ease the shortage, the school started developing its DFW regional program in 1997 with clinical placements for a few fourth-year students.

In 1999 the School of Pharmacy officially opened its DFW regional campus using facilities leased from Baylor

In August 2008, TTUHSC expanded its DFW program to a second location inside the Southwest Professional Building adjacent to the University of Texas Southwest Medical Center. The 9,300 square-foot facility includes a 75-seat state-of-the-art classroom, research labs and administrative support areas. The location affords faculty and students better access to the Dallas Medical Center and several of the School of Pharmacy's important partners, such as Children's Medical Center, Parkland Memorial Medical Center and the UTSW Medical School clinics and hospitals.

In February 2018, the School of Pharmacy revamped its DFW program to include all four years of its doctor of pharmacy (Pharm.D.) curriculum. The initial class of up to 40 first-year students was admitted in August 2018.

Abilene

The concept for expanding the TTUHSC School of Pharmacy program into Abilene first came about in 2004 when a group of community and private organizations approached SOP with a vision to offer four-year pharmacy education and research to their community and region.

The Texas Higher Education Coordinating Board approved the expansion in January 2006 and the school began making plans for extending its Pharm.D. and Post-Graduate Pharmacy Education programs into the Texas Big Country. Since that time, a 40,000 square-foot campus has been constructed and classes began in August 2007. The Abilene campus has continued to expand and now includes buildings and facilities for the School of Pharmacy's Department of Immunotherapeutics and Biotechnology, the TTUHSC School of Nursing and TTUHSC's Department of Public Health.

Oath Of a Pharmacist

I promise to devote myself to a lifetime of service to others through the profession of pharmacy. In fulfilling this vow:

- •I *will* consider the welfare of humanity and relief of suffering my primary concerns.
- •I will promote inclusion, embrace diversity, and advocate for justice to advance health equity.
- •I will apply my knowledge, experience, and skills to the best of my ability to assure optimal outcomes for all patients.
- •I *will* respect and protect all personal and health information entrusted to me.
- •I will accept the responsibility to improve my professional knowledge, expertise, and self-awareness.
- •I will hold myself and my colleagues to the highest principles of our profession's moral, ethical and legal conduct.
- •I will embrace and advocate changes that improve patient care.
- •I will utilize my knowledge, skills, experiences, and values to prepare the next generation of pharmacists.

I take these vows voluntarily with the full realization of the responsibility with which I am entrusted by the public.

Matador Song WORDS BY R.C. MARSHALL

Fight, Matadors, for Tech!
Songs of love we'll sing to thee,
Bear our banners far and wide.
Ever to be our pride,
Fearless champions ever be.
Stand on heights of victory.
Strive for honor evermore.
Long live the Matadors!

Academic Dress

The wearing of academic dress at commencement dates from the early history of the oldest universities somewhere in the twelfth or thirteenth century. Since educated people were almost always of the clergy, the black gown is somewhat of an adaptation of the cape, a mantle of silk or other cloth worn by church dignitaries in procession and on other occasions. The long gown and cowl (similar to the academic hood of today) were worn by priests and monks for warmth in the cold medieval buildings.

In the early centuries, a great diversity of color and style of cap, gown, and hood appeared in different universities of Europe. The European custom of wearing academic dress was later introduced at American colleges. Not until after 1895 was a uniform academic dress code adopted by most colleges and universities in the United States. Today, the black robe, hood, and cap are worn at most institutions of higher learning.

The gown is cut differently for the bachelor's, master's, and doctor's degrees. Usually the bachelor's robe has long pointed sleeves; the master's has closed sleeves, square at the end with a slit at the elbow; the doctor's is faced with velvet and has round open sleeves with three bars of velvet.

The doctor's hood has side panels and is slightly longer than the one worn for the master's degree. The color used in the velvet border of the hood indicates the field of study. The velvet border is widest on the doctor's hood. The color of the lining of the hood indicate the college or university that conferred the degree. For example, those who have received advanced degrees from Texas Tech University Health Sciences Center wear hoods lined with red. The Olive green signifies the pharmacy degree.

The Tam is black and has a tassel fastened to the side. The tassel is usually worn with the pendant over the left front of the cap. Different colored tassels are often worn on the bachelor's and master's caps to indicate the type of degree. The tassel on the cap of the doctor's candidate, except for professional degrees, is either gold or black.
