PGY-1 Pharmacy Residency

Texas Health Harris Methodist Hospital Fort Worth & Texas Tech University Health Sciences Center Jerry H. Hodge School of Pharmacy

This PGY-1 program builds on Doctor of Pharmacy education and outcomes to contribute to the development of clinical pharmacists responsible for medication-related care of patients with a wide range of conditions, eligible for board certification, and eligible for PGY-2 pharmacy residency training.

Texas Health Harris Methodist Hospital Fort Worth is one of two flagship hospital members of Texas Health Resources (THR), one of the largest faith-based, fully integrated, not-for-profit health care systems in the United States.

Since its opening in 1930, Texas Health Harris Methodist Hospital Fort Worth (THFW) has become a respected center of quality health care. THFW is a 720-bed private, non-profit, tertiary care, Level-II trauma center. In addition THFW has >90 adult ICU beds and is designated as a Cycle III Chest Pain Center, a Comprehensive Stroke Center, and an Acute Heart Failure Center.

The Department of Pharmacy Services is an established and vital component of patient care at THFW. Clinical pharmacists are an integral part of the health care team and provide core clinical services in renal and pharmacokinetic dosing, TPN management, antibiotic stewardship, and both anticoagulation/procoagulation management. Pharmacists take part in patient care rounds with multidisciplinary teams and are actively involved in the training of pharmacy students from schools across the state of Texas. The Department of Pharmacy Services has seven clinical pharmacy specialists on staff and they provide care in various areas such as Intensive Care, Neonatology, Clinical Nutrition, Cardiology, Infectious Disease, and Renal Transplant.
