PUBLIC HEALTH

UNRIVALED ACADEMIC EXCELLENCE

- National recognition as one of the **Top-100** programs in the 2023 U.S. News & World Report Best Graduate School Rankings.
- More than **90% of our graduates** were employed in their field of study within six months of graduation or engaged in further continuing their education.

UNWAVERING FOCUS ON YOUR FUTURE

- Generalist concentration available with four alternative integrated learning experiences.
- A versatile program that is diversified and individualized to help each student find the right set of skills for them.

UNMATCHED FACULTY, UNMATCHED SUPPORT

- Our faculty has **pioneered top training in several critical fields** like ambulatory care, critical care and geriatrics.
- **Low student-to-faculty ratio** means those experts are available and dedicated to maintaining supportive relationships that help their students reach the highest possible level of success.

OUR MPH OFFERS TRAINING IN
CORE PUBLIC HEALTH
DISCIPLINES SUCH AS:

- SOCIAL AND BEHAVIORAL SCIENCES
- HEALTH POLICY AND MANAGEMENT
- EPIDEMIOLOGY
- BIostatISTICS

WHAT IS *population health?*

The CDC views population health as an interdisciplinary, customizable approach that allows health departments to connect practice to policy for change to happen locally.

WHAT IS *public health?*

The CDC defines public health as "the science of protecting and improving the health of people and their communities."
