2017 Advancing Regional Health in Rural West Texas Symposium June 23, 2017

CONFERENCE OVERVIEW AND TARGET AUDIENCE

The symposium is designed for obstetricians, gynecologists, family and general practice physicians, resident physicians, physician assistants, nurse practitioners, registered nurses, and other interested health practitioners. This symposium aims to increase practitioner knowledge, competence, and skills in clinical diagnosis, treatment options, and new technologies in obstetrics and gynecology.

OBJECTIVES

Following the conference, the participant should be able to:

- Describe the risk factors and diagnostic criteria for placenta accreta
- Explain the surgical treatment options for placenta accreta
- Assess the biological role of the fallopian tube in carcinogenesis
- Recognize new advances in medicine related to gynecological cancer
- Identify incentive and strategies to assess a hospital's current performance
- Provide an overview of the ethical principles that influence the practice of medicine and nursing
- Explore the impact of ethics on practice case presentations

CME ACCREDITATION AND DESIGNATION

The Texas Tech University Health Sciences Center El Paso Paul L. Foster School of Medicine is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The Texas Tech University Health Sciences Center El Paso Paul L. Foster School of Medicine designates this live activity for a maximum of 6 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

This activity provides 3 CME credit toward the annual requirement of the Texas Medical Board for continuing medical education credit in medical ethics or professional responsibility.

NURSE ACCREDITATION CREDIT

University Medical Center of El Paso is an approved provider of continuing nursing education by the Texas Nurses Association, an accredited provider by the American Nurses Credentialing Center's Commission on Accreditation.

This activity provides up to 6 contact hours for successful completion of this educational activity.

The National Institutes of Health (NIH) has released two important related items.

The first is the Final NIH-FDA Clinical Trial Template for Phase 2 and 3 IND/IDE Studies. The template aims to assist NIH-funded investigators in preparing clinical trial documents efficiently so that both IRBs and the FDA can perform speedy reviews.

NIH has also released a web-based platform where investigators can utilize the protocol template in an interactive fashion. The Electronic Protocol Writing Tool allows for a collaborative approach to writing and reviewing protocols. Investigators will be able to use the tool to form a "protocol writing team" and assign different individuals with writing and reviewing roles.

All of the above resources can be found on the NIH Office of Science Policy website: <http://osp.od.nih.gov/office-clinical-research-and-bioethics-policy/clinical-research-policy/clinical-trials>

Information about identifying predatory journals

The blacklist is dead; long live the blacklist

A new [watchlist of 'predatory' journals and untrustworthy publishers](#) is set to launch later this month — but only for those willing to pay. The service could fill a gap left by Beall's List, a popular blog run by academic Jeffrey Beall that listed potentially predatory journals, which was [shut down suddenly](#) five months ago.

Funding Opportunity

The American Heart Association's scientific councils offer a variety of award opportunities to those interested in attending the AHA's Scientific Sessions.

Scientific Sessions 2017 will be held November 11-15, 2017, in Anaheim, California. Council awards and travel grants recognize the achievements of researchers, scientists, clinicians, nurses and allied health professionals throughout their careers and can provide funding assistance to those who will be attending our conferences and presenting research. We invite you to apply or make a nomination for one of our numerous awards associated with Scientific Sessions!

Award Application Window:

Now through Monday, June 12, 2017

Please note there will be no extensions offered in 2017

Early Career Investigator Awards: Plaque, Photo, Inclusion in Connections Newsletter & Up to \$1500

Early Career Investigator Awards recognize promising and outstanding trainees, investigators and clinicians in the early stages of their careers and stimulate continued interest in basic or clinical research. Councils giving awards for Scientific Sessions 2017 include ATVB, BCVS, 3CPR, CVSN, CVDY, CVRI, CVSA, CLCD, EPI, FGFB, Lifestyle, PVD and Stroke.

Career Achievement: Plaque, Photo, Inclusion in Connections Newsletter & Up to \$1500 plus Travel Expenses

These awards recognize individuals for specific career endeavors and achievements that made a significant impact on the field of cardiovascular diseases and stroke, and helped further the mission of the scientific councils and the AHA/ASA.

Travel Stipends: Certificate, Photo, Inclusion in Connections Newsletter & Up to \$1000

These stipends help defray travel costs for early career investigators, trainees and students to participate in the AHA Scientific Sessions.

Please visit the [Scientific Council web sites](#) for complete award criteria, deadlines, and application or nomination instructions.

Note: Professional Membership of the AHA and the Sponsoring Council is REQUIRED at the time of application for all applicants and applicant sponsors for Early Career Investigator Awards and most Travel Stipends. Those needing to join or renew their membership should do so by **Tuesday, May 30** for the membership number to be processed in time for inclusion on the award application. **Join Today!**

Early Career Travel Award Program

Are you an ECR? If you are presenting your research at a conference in 2017 you may be eligible for PLOS' [ECR Travel Awards program](#). Share your thoughts on science communication and you could be one of ten winners who will receive \$500 to be used toward conference travel.

Eligibility

Winners must meet all of the following criteria:

- Present at a conference between April 1 and December 31, 2017
- Listed as an author on a PLOS journal article with a publication date on or before the date application is submitted
- Be currently enrolled in a graduate program, or have a graduate degree within the last 5 years of the application deadline.

Survey from First 5 Permian Basin - UTPB

Title V Maternal and Child Health at the Texas Department of State Health Services (DSHS) is currently conducting a survey of families that have a child with special health care needs. This assessment will help guide the agency's activities to improve the health of Texas families.

DSHS is seeking input from ANY Texas family who has a child or young adult with special health care needs. Survey participation is voluntary and anonymous, and the survey should take only 15 minutes to complete.

The survey is available in English and Spanish:

English: <https://www.surveymonkey.com/r/CYSHCN2017>

Spanish: <https://www.surveymonkey.com/r/CYSHCN2017sp>

Please share with everyone in your network. The goal is to reach as many Texas families as possible so the agency has a realistic picture of the needs and strengths of families with children with special health care needs around the state.

The survey will be open until August 31, 2017. If you have questions or need assistance with this survey, please contact PHSUCContractors@dshs.texas.gov.

Thank you for your support, outreach, and input.

Special Issue

Submit your research to an upcoming special issue

The Gerontological Society of America's *The Journal of Gerontology: Psychological Sciences* is currently accepting submissions for two upcoming special issues. Consider submitting your research on the topics below:

Calls For Papers

New Developments in Psychological Wisdom Research

For this special issue, we are seeking high-quality empirical research and systematic reviews that will broaden and deepen our understanding of wisdom as a construct, its predictors, manifestations, outcomes, and limitations. All manuscripts selected for inclusion will be strongly theory based and include wisdom as a central variable. A broad range of methodological approaches will be accepted, provided that a convincing theoretical rationale is given.

Submit your research by June 30, 2017

Cognitive Neuroscience of Aging

Ever since the first published functional neuroimaging study of cognitive aging (Grady et al., 1994), the field has grown exponentially. Our theoretical understanding of age-related changes in functional activation—declines, increases, and preservation of both activation and connectivity—continues to evolve. For this special issue, we invite empirical papers describing cutting-edge advances in field and review articles that synthesize knowledge to shed new light on cognitive aging.
