Library EMBASE training

TODAY

The TTUHSC Library will be offering EMBASE training sessions today from 10-11:30 am and 12-1 pm TODAY in room ODHSC 1C12.

THE BEST DATABASE TO FIND **ALL YOUR SCHOLARLY ACTIVITIES** FOR THE **PROMOTION PACKAGE**

- Broad biomedical scope, with in-depth coverage of pharmacology, pharmaceutical science, and clinical research.
- Emtree includes over 70,000 preferred terms half of which are drug and chemical terms. Additionally, it includes over 3,000 medical devices, drug and medical device trade names, additives, manufacturer names, CAS registry numbers, molecular sequence numbers, and biotechnology.

Permian Basin Research was represented at symposium.

Congratulations to Drs. Orlando Garner, Ana Ramirez-Berlioz, Alfredo Iardino, Satish Mocherla, Kalpana Bhariavarasu on having the paper "Disseminated Nocardiosis Associated with Treatment with Infliximab in a Patient with Ulcerative Colitis" in American Journal of Case Reports.

Congratulations

Congratulations to Dr. Bhargavi Kola, Mariam Mehrafza, and Dr. Alex Kane on having their paper "Phacomatosis Pigmentovascularis: Simple Presentation of a Not So Simple Dermatological Condition" in the journal Clinical Pediatrics.

Date: Tuesday, October 31, 2017
Time: 12:00 CST*
Odessa - ODHSC 2C91

SOCRA West Texas Chapter meeting

Rene Fisher Resendez MA, CCRP
Regulatory Specialist
Clinical Research Institute
TTUHSC, Lubbock, TX

Kelsey Jendrzey, BA
Clinical Research Coordinator
Clinical Research Institute
TTUHSC, Lubbock, TX

Define the concept of Real Time/Risk Based Monitoring and understand when it is best utilized
Understand some of the difficulties related to research using integrative therapies
Understand more fully the importance of the Beecher Article
Discuss why we need behavioral and community based research

FUNDING

American Cancer Society NEW: Extramural Research and Training Program Director

Jennifer Puryear
American Cancer Society
3513 10th St.
Lubbock, TX 79415
October 25, 2017

Dr. Natalia Schlubritz-Lutsevich,
TTUHSC – Permian Basin
701 W 5th St.
Odessa, TX 79763

Dear Dr. Schlubritz-Lutsevich,

I hope all is well with your research department. I have been able to do some of my own research on resources that will hopefully be beneficial for your group to more successfully obtain funding from the American Cancer Society.

First, I wanted to provide you the important dates as they pertain to funding applications:

- **Application Deadlines** – April 1st / October 15th
- **Peer Review** – June / January
- **Critiques to Applicants** – August 1st / March 1st
- **Council Meeting** – Mid September / Mid March
- **Grantee Notification** – End September / End March
- **Announcement "Newly Awarded Grantee and Pay-If Applicants"** – October 1st / April 1st
- **Grantee Certificates** – November 1st / May 1st
- **Grant Activation** – January 1st / July 1st

Second, the American Cancer Society's Health Systems Staff is now equipped with an Extramural Research and Training Department Program Director assigned to our division that can provide scientific expertise and relevance of potential funding.

Lastly, the evolution of our research program has gone from focusing on launching the careers of the most innovative young cancer research scientist to both boosting support for projects that fit the goals and objectives of the Society and accelerating the most promising cancer research projects. This will allow a longer qualifying time for many cancer researchers.

I have included in this packet a copy of the 2017 Cancer Facts & Figures that provides nationwide and state-specific estimates of new cancer cases and deaths for the current year. This annual report provides the most current information about cancer. The widely cited projections in the report serve as a basis for research. If you would like an electronic version to share with your colleagues, please let me know.

I will work in every way possible to help your team of cancer researchers in making the right connections with the American Cancer Society's extramural research staff to better your chances of receiving the funds needed to continue cancer research at your facility.

Best Wishes,

Jennifer Puryear

DEADLINE IS NOVEMBER 6TH

2018 Global Health Research Award from Academic Pediatric Association

The 2018 Global Health Research Award

Purpose: To promote clinical research in the areas of primary care pediatrics, common child health problems, child health services, and pediatric education in developing countries. The winner will be invited to present their research at the 2018 Pediatric Academic Societies Meeting in Toronto, Canada (May 5-8). Financial support will be provided which will cover travel to and from meeting and lodging during the PAS meeting. The award will be presented by the APA Global Health Special Interest Group.

Eligibility Criteria: Any child health professional who is a foreign national currently living outside of the U.S. or Canada is eligible. Preference will be given to junior child health professionals from and working in developing countries that might otherwise not have the opportunity to present their work at international meetings or to visit colleagues in the U.S. The submitter must be the first author and the holder in conducting the research. The abstract must be in English and represent previously unpublished work. To receive the award the winner must attend the meeting and present their research including a slide presentation in the English language.

Nomination Process: Abstracts must follow the format outlined below. The body of the abstract (excluding title, authors and funding source) must be no greater than 375 words in length. • **Title:** Abstracts must be titled and include all authors. • **Background:** Concisely state the importance of the health problem addressed by your research. • **Objectives:** Briefly describe the main objective(s) of your research. • **Methods:** Describe how you conducted your study including the type of study design, population included, specific methods and statistical tests used. • **Results:** Describe the results of your study and the statistically significant differences found. • **Conclusions:** State the most important conclusion(s) of your study, the relevance to the understanding of the health problem you are addressing and the potential impact on global child health. Please indicate your project funding source(s) at the end of your abstract. The methods and results sections are most important in evaluating your work; be as complete as possible. Please submit only an abstract, accompanying papers will result in disqualification for this award.

Please submit [lanet](mailto:lanet@academicpaeds.org). You must complete the information page, and upload a PDF of your abstract, and a separate PDF containing your CV. In the event that you are unsure how to convert your documents into a PDF, or simply do not have the capability, a website will be provided to you so that you may do so within a few simple steps. You will receive a confirmation email upon submission. If you do not receive a confirmation email, or if you have any questions, please contact Laura Turner at lanet@academicpaeds.org.

All submissions must be received by 11:59 PM EST on November 6, 2017.

Deadline:

CRI Seed Grants

<https://www.ttuhs.edu/clinicalresearch/>

The President and the Deans have very graciously enabled the CRI to provide Seed Grants for pilot research projects.

The Clinical Research Seed Grants require translational or clinical research utilizing the CRI and requiring interprofessional collaboration between two or more TTUHS schools or another institutional partnership that fosters interprofessionalism. An independent committee will assess all proposals for merit. Approximately \$10,000 for each grant is available with the intent to fund up to 5 meritorious submissions.

Send cover letter and this pre-proposal form to ClinicalResearch@ttuhs.edu by **5pm on October 31, 2017**. For questions contact Dr. Alyce Ashcraft (Email: Alyce.Ashcraft@ttuhs.edu). You will be notified by November 30, 2017 if your study is selected for full proposal review. The completed full proposal will be due January 15, 2018 and you will receive a response regarding funding by February 15, 2018.

If you would like a copy of the pre-proposal form, please contact the **Clinical Research Institute** <https://www.ttuhs.edu/clinicalresearch/>

For further questions, please contact Office of Regional Associate Dean of Research (natalia.schlubritz-lutsevich@ttuhs.edu)

Deadline:
Wednesday, Nov. 1, 5 p.m. ET

Fall STEM Scholarship

Eager to extend that to the next generation of innovators, LabRoots is offering a **new Fall STEM Scholarship for students pursuing degrees in the STEM disciplines. Open to all US high school seniors, undergraduate or grad student, LabRoots will award \$2,000** to aid in funding their academic pursuits and the cost associated with those pursuits.

Applications period is open until **NOVEMBER 30**.

https://www.labroots.com/scholarships/details/3	Who: 6-12 graders -- individuals or teams of 2-3 What: Create a superhero using science, tell their story in a short comic OR video When: Enter Sept. 18, 2017-Jan. 8, 2018, 11:59 p.m. EST Where: Learn more & enter at nsf.gov/gennano Why: To promote early interest in science, technology, engineering and mathematics.
From the NIH	NIH Provides Resources for Clinical Investigators The NIH has posted several items to their website to assist investigators (whether or not they are seeking NIH funding) regarding clinical research. Upcoming NIH policy changes will impact all applications involving clinical trials. Learn more about the new requirements, and determine if your study meets the NIH definition of a clinical trial. Even if you are not seeking NIH funding for a clinical trial, you might benefit from exploring the NIH website. For example, take a look at the website that provides resources on research methods related to experiments that randomize groups or clusters or that deliver interventions to groups. The information is relevant for human and animal studies and for basic and applied research. The website includes a calculator to estimate sample size requirements for group- or cluster-randomized trials. For more information, please visit https://grants.nih.gov/policy/clinical-trials/definition.htm
Information about identifying predatory journals	The blacklist is dead; long live the blacklist A new watch-list of 'predatory' journals and untrustworthy publishers is set to launch later this month — but only for those willing to pay. The service could fill a gap left by Beall's List, a popular blog run by academic Jeffrey Beall that listed potentially predatory journals, which was shut down suddenly five months ago. Nature 3 min read There is a list of Open Access/Predatory Publishers/Questionable Conferences is available from the CalTech Library at http://libguides.caltech.edu/c.php?g=512665&p=3503029
 Scholarship available	MLA Scholarship for Minority Students A scholarship of up to \$5,000 is awarded annually by the Medical Library Association (MLA) to a student who shows excellence in scholarship and potential for accomplishment in health sciences librarianship. The scholarship is announced at the annual meeting of the association, where the recipient will also receive a one-year MLA student membership and free inclusive student registration at the association's annual meeting. Eligibility - The applicant must be a member of a minority group, defined as Black or African-American, Hispanic or Latino, Asian, Aboriginal, North American Indian or Alaskan Native, or Native Hawaiian or other Pacific Islander. - The applicant must be entering a master's program at an American Library Association (ALA)-accredited graduate library school or, at the time of the granting of the scholarship (February), have completed no more than one-half of the academic requirements of the graduate program. - The applicant must be a citizen of or have permanent residence in either the United States or Canada. - Past recipients of the MLA Scholarship or the MLA Scholarship for Minority Students are not eligible to apply. - Membership in MLA is not required. Ready to Submit an Application? - Choose the 2018 Minority scholarship online application form. - Complete online form and upload all documents no later than December 1, 11:59 p.m. (CT). - Incomplete and late submissions will not be considered.
	Submit Your Abstract We need your latest research findings at EB 2018 to help shape the landscape in the fields of anatomy, biochemistry and molecular biology, pathology, pharmacology, and physiology. With abstract topic categories across these five disciplines, we have a place for every biomedical researcher at EB 2018. In return, we promise to leave you inspired to tackle new scientific discoveries by building a transdiscipline network through on-site collaboration with your colleagues, an attendee benefit that is truly unmatched by any other scientific meeting! Abstract-submission deadline is December 7, 2017  Abstracts get 400,000 page views in the first year! HOW TO SUBMIT
	TTUHSC Writing Center is hiring Writing Tutors! Questions? E-mail: writing.center@ttuhsc.edu Add this subject line: "I want to work for the TTUHSC Writing Center" If you are interested in working as a writing tutor, please contact Dr. Roy at writing.center@ttuhsc.edu. This position is open to all who meet the following qualifications.

TTUHSC Writing Center is looking for tutors

- Qualifications**
1. Minimum two years' college-level tutoring or college-level teaching experience, in any discipline.
 2. Minimum 3.5 GPA.
 3. Already completed undergraduate degree.
 4. Three faculty/professional references.
 5. Experience working with ESL/ELL students a plus but not necessary.
 6. At a later stage: Signed application, writing sample, personal statement, and open-book grammar/citation test.

2018 Travel Awards

We are pleased to announce the *Toxics* 2018 Travel Award. This award will help towards travel costs for a postdoctoral fellow or non-fellow postdoctoral trainee to present his/her data, in poster or oral presentation format, at a scientific conference in 2018. The requirements for candidate participation and application materials are described at <http://www.mdpi.com/journal/toxics/awards>. We look forward to reviewing the exciting research projects ongoing in your laboratories. The prize will consist of **800 Swiss francs**. We are currently accepting applications for this award. We encourage you to share this announcement with your postdoctoral fellows and non-fellow postdoctoral trainees, and urge them to submit their applications to toxics@mdpi.com by **30 November 2017**.

after submission; acceptance to publication is undertaken in 9 days.

For more information, please refer to <http://www.mdpi.com/journal/toxics>.
