The Texas Tech Physicians Family & Community Medicine clinics provides health services to TTUHSC students who are currently enrolled and have paid the Medical Services Fees as part of tuition and fees. To receive health services, you must present a Student ID card at the time of the appointment. Students can choose to use their private insurance for services as well. Texas Tech Physicians Family and Community Medicine Clinics are composed of faculty, resident physicians, advanced practice providers, registration and nursing staff.

The Medical Services Fee covers only those listed on this document and specific laboratory and radiology services performed at cooperating locations. All other charges incurred are your responsibility. For billing issues please contact your local family medicine clinic.

All medical records are strictly confidential. By federal law, information cannot be released to anyone without the written consent of the patient, except as required by a court. You may have copies of your immunizations upon request. We will be happy to send copies of laboratory tests or other information to your physician of choice, upon your written release. You can also access your health information though the MyTeamCare portal.

Department *of* Family & Community Medicine

Rev.7/25

Clinic Appointments

- Please call to make an appointment. If you need to be seen for a sudden illness, please call that day as early as possible or request an appointment through the MyTeamCare portal.
- If you need to be seen after clinic hours, call your campus' clinic phone number and ask to leave a message for the on-call physician.
- When you check in, please inform the receptionist that you are a TTUHSC student. If you come to the clinic without an appointment, it may be necessary for you to wait for a physician.

Immunizations, paper work, and routine procedures are not ordinarily considered urgent care, and may not be taken care of on the same day as requested

Immunizations

- Updated information about immunizations will be provided during your school's orientation. If you require an immunization administered by the Family Medicine clinic, you will be required to pay a fee.
- For an immunization, it is not necessary to be seen by a physician, but a nurse appointment is required. Female students must have a nurse appointment for a pregnancy test prior to an MMR immunization.
- Please bring your immunization records with you at the time of your first visit.
- Please contact the Office of Institutional Health at 806-743-3019 for the most up-to-date information on immunizations.
