Student Satisfaction Survey

2023-2024 TTUHSC Institutional Report

Summary

- The *Student Satisfaction Survey* is administered every year. The 2023-2024 version is comparable to the 2022-2023 version. The 2023-2024 version included additional open response fields for qualitative feedback and with demographic data imported into the dataset.
- Approximately 90% of respondents reported being “extremely satisfied” or “satisfied” with their overall experiences at TTUHSC.
- When asked if they made the right decision to attend TTUHSC, 74% students indicated that they “definitely” made the right decision.
- As expected, open-ended comments reflect a variety of topics that offer specific opportunities for continuous improvement. The qualitative feedback will be disseminated directly to their corresponding schools, divisions and organizations.
 - Common themes to question, “What do you like most about TTUHSC?”
 - Knowledgeable and available faculty
 - Academic and student support resources
 - Supportive and friendly staff

Methodology

The *2023-2024 Student Satisfaction Survey (SSS)* was administered in Spring 2024. The data collection period was April 16 – May 3, 2024. Targeted participants included all students enrolled at TTUHSC as of Spring 2024. The invitation to complete the online survey was sent via TTUHSC’s Survey tool—Qualtrics email relay by *TTUHSC Division of Institutional Effectiveness*. Six \$500 scholarships were offered as incentives for participation.

Demographics

Respondents represented the following TTUHSC schools and campuses/sites, listed in *Table 1*.

Table 1. TTUHSC Representation

SCHOOL	LOCATION
<ul style="list-style-type: none">• Graduate School of Biomedical Sciences (GSBS)• School of Health Professions (SHP)• School of Medicine (SOM)• School of Nursing (SON)• Jerry H. Hodge School of Pharmacy (SOP)• Julia Jones Matthews School of Public and Population Health (SPPH)	<ul style="list-style-type: none">• Abilene (ABL)• Amarillo (AMA)• Dallas (DAL)• Lubbock (LBB)• Lubbock-Covenant Health System (LBB-COV)• Mansfield (MAN)• Midland (MDL)• Odessa (ODS)• Distance Education (DE)^a

^a Respondents were classified as distance education students if they self-reported that 50% or more of their coursework is completed through distance education.

The survey was distributed to AY23-24 students enrolled in courses as of the Spring 2024 terms. The survey was distributed to 4,885 students and a total of 1,256 students responded, resulting in an overall response rate of 25.71%. The GSBS student respondents constituted the highest response rate at 40%. The response rate per school is listed in *Table 2*.

Table 2. Response Rate by School

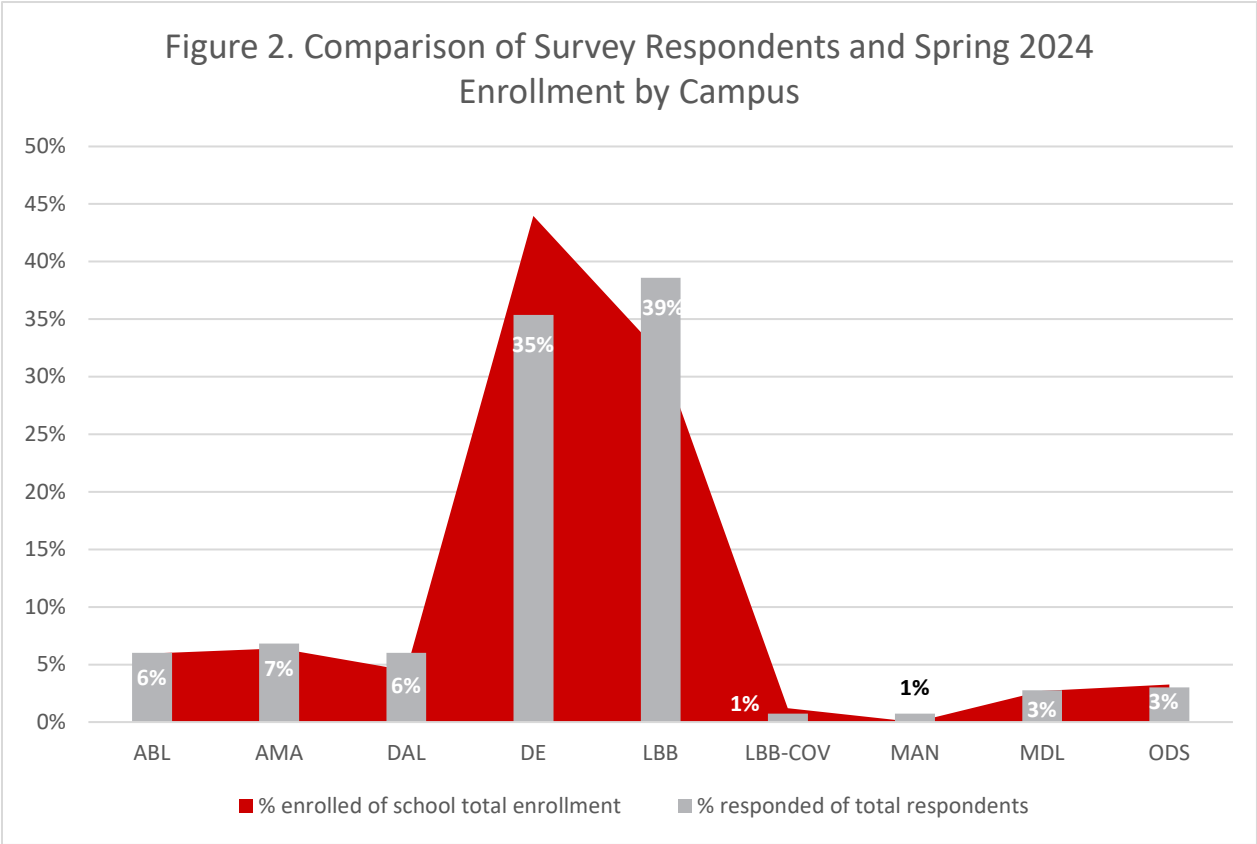

School	Response Rate
Graduate School of Biomedical Sciences (GSBS)	40%
School of Health Professions (SHP)	25%
School of Medicine (SOM)	28%
School of Nursing (SON)	23%
Jerry H. Hodge School of Pharmacy (SOP)	32%
Julia Jones Matthews School of Public and Population Health (SPPH)	22%

Note. Response rate per school is calculated from the total number of students who responded versus the total number of students emailed per school.

As shown below in *Figure 1*, the percent of students to respond by school mirrors the enrollment percentage for TTUHSC. In other words, the participants in the 23-24 survey closely reflect the composition of the HSC population. Therefore, no one school is overrepresented or underrepresented in this report. Enrollment numbers are based on the Spring 2024 Texas Higher Education Coordinating Board (THECB) Student Report.

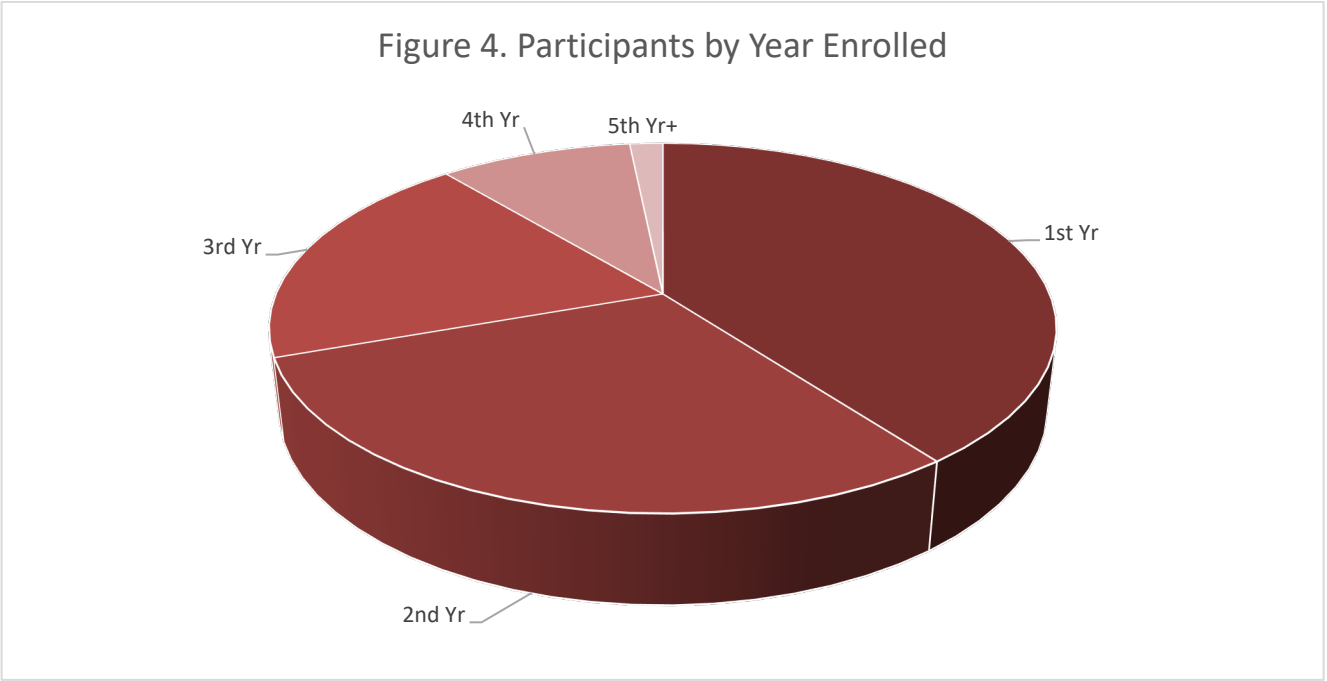

As shown below in *Figure 2*, the percent of students who responded by location mirrors the enrollment percentage for TTUHSC. Survey respondents were represented across all locations including Abilene, Amarillo, Dallas, Lubbock-Covenant, Mansfield, Midland, and Odessa. Please note that the students at the Mansfield location are represented in the 2024 enrollment data as distance education students. Students based on the Lubbock campus constituted a higher percent of survey respondents than expected; whereas distance students were underrepresented in the survey. This may be due, in large part, to student perception of where they are enrolled. For example, some distance students affiliate themselves with a specific campus even though they are enrolled in a distance education program.

Of the total sample ($N = 1,256$), 75.4% were female ($n = 947$), 24% were male ($n = 302$), and 0.06% were unknown ($n = 7$). Of these participants across the institutions, 50% ($n = 633$) were White, 23% ($n = 290$) were Hispanic, 10% ($n = 127$) were Asian, 9 % ($n = 118$) were African American/Black/Non-Hispanic, 3% ($n = 42$) were Non-Residents, 2% ($n = 24$) were multiple races, and 0.4% ($n = 5$) were American Indian/Alaskan Native. See *Figure 3* for the full list of respondents by race.

Participants were also asked to indicate for how many years they had attended TTUHSC (First Year through Fifth Year or more). The majority (70%) of the students who responded were in their first or second year at TTUHSC. This data is reflected in *Figure 4*.

Results

Quantitative Data

Students indicated their overall satisfaction with their experiences at TTUHSC using a 5-point scale (5=Extremely Satisfied, 4=Satisfied, 3=Neither Satisfied nor Dissatisfied, 2=Dissatisfied, and 1=Extremely Dissatisfied).

Approximately 90% of respondents reported being *Extremely Satisfied* or *Satisfied*. As reflected in *Figure 5*, this is slightly more (1%) than satisfied respondents in the previous year.

When asked if they felt like they made the right decision to attend TTUHSC, students responded favorably. Approximately 74% of students indicated that they “definitely” made the right decision. See *Figure 6*.

For the remainder of the survey items, students were asked to indicate their level of satisfaction using a 5-point scale (5=Extremely Satisfied, 4=Satisfied, 3=Neutral, 2=Dissatisfied, and 1=Extremely Dissatisfied). In the *Writing Center* section and the *General Student* section, students were asked to indicate their level of agreement with several statements using a 5-point scale (5=Strongly Agree, 4=Agree, 3=Neutral, 2=Disagree, and 1=Strongly Disagree). Respondents were also given a *Not Applicable* option for some items.

For all items, the possible range of means is 1.00-5.00. All means are color-coded to highlight areas of strength and potential improvement (**Red:** ≤ 1.99 , **Yellow:** 2.00-2.99, **White:** 3.00-4.49, **Green:** ≥ 4.50). Additionally, for items using the level of satisfaction, the percentage of students who are either *Satisfied* or *Extremely Satisfied* is provided.

Institutional Results (pp. 8-16): *Appendix A* presents survey results for the institution as a whole. For each item, the following data are provided:

- Mean level of satisfaction/agreement
- Standard deviation
- Total number of respondents for the scaled responses
- Color-coded graph illustrating the distribution of responses

Results by School (pp. 17-26): *Appendix B* presents survey results according to school. For each item, the following data are provided:

- Mean level of satisfaction/agreement
- Standard deviation
- Total number of respondents for the scaled responses

Results by Campus/Site (pp. 27-37): *Appendix C* presents survey results according to campus/site. For each item, the following data are provided:

- Mean level of satisfaction/agreement
- Standard deviation
- Total number of respondents for the scaled responses

Qualitative Data

As part of the survey, students were given an opportunity to provide open-ended comments in response to the following questions:

- 1) *What 3 aspects do you like most about TTUHSC?*
- 2) *What 3 aspects would improve your experiences at TTUHSC?*
- 3) Additionally, space was provided wherein students could provide qualitative feedback for each specific service area (e.g. *If you have additional comments regarding the facilities/buildings, please enter them here*)

Respondents provided 812 comments to the first question and 742 comments to the second question. For the service specific comments, a total 652 comments were provided. An additional 166 comments were provided by respondents about their degree program-specific educational experience. Any comments which indicated the student did not have a comment (e.g., *N/A, none*) or were otherwise not useful (e.g., *all, nothing*), and were thus eliminated.

Due to the sensitive nature of some comments, the actual text comments will be only be distributed to selected institutional leaders only. They will determine how best to distribute them in their respective areas. Due to time constraints, in-depth qualitative analyses were not conducted on these data, however, general themes can be found in the document summary on page 1.

Conclusion

Use of Results

The *Student Satisfaction Survey* provides a snapshot of the perceptions by the respondents. The snapshot provides a resource for identifying trends and patterns for the specific window of time. The snapshot provides information to inform assessment, evaluation, effectiveness and decision-making versus drive decision-making. The snapshot serves a data point for consideration in unit, program and institutional continuous improvement. The snapshot results should be reviewed through a deliberate process of questions, for example:

- What is the contextual environment of the current data?
- What confounding events potentially influenced the current data?
- Does the current data align, support, or conflict with other data sources?
- Does additional information need to be gathered? (*e.g., follow-up surveys, focus groups, interviews*)
- Does the current data indicate an area(s) of strength?
- Does the current data indicate an area(s) of enhancement?
- Does the current data indicate an item(s) of critical need for action?
- Does the current data lead to a continuous improvement goal, outcome, metrics, plan, and timeline?

The *Student Satisfaction Survey* is one tool to enable the ongoing and sustained continuous improvement process across TTUHSC. Sometimes strategies for improvement will be successful—sometimes they will not. Although the ultimate outcome is indeed important, what is equally critical is the documentation of your efforts to make those improvements. Contact the *Office of Academic Planning and Compliance* for additional guidance and support in understanding the results, incorporation in assessment plans and/or developing continuous improvement plans.

Office of Institutional Health and Wellness

The **Office of Institutional Health and Wellness** works collaboratively with school representatives to ensure that required students meet annual TB screening requirements and receive annual vaccines and follow-up testing. In addition, the office educates students about preventing occupational exposures and ensures timely access to healthcare when an occupational exposure to a bloodborne pathogen occurs. The office also encourages and supports TTUHSC students, residents, staff, and faculty to build positive daily habits that will improve their quality of life and their overall mental health.

Writing Center

The **Writing Center** engages with writers (students, faculty, staff, researchers, residents, etc.) at any stage of the writing process, with the key aim of helping these writers become more engaged, confident, and self-reflective. Of the 1,154 students who responded to the Writing Center items, 8% (n=95) stated that they did submit a writing sample or draft for critique within the past year. As can be seen in the table below, 84% of these students who utilized the Writing Center were *satisfied* or *extremely satisfied* with the Writing Center.

Interprofessional Education

Interprofessional education occurs when students from two or more professions learn about, from, and with each other to enable effective collaboration and improve health outcomes. Once students understand how to work interprofessionally, they are ready to enter the workplace as members of collaborative practice teams.
