| ORGANIZATION   | PURPOSE   |
|--|---|
| Interventional Radiology Interest                      | The Intervention Radiology Interest Group aims to provide learning, networking,   |
| Group  | and research opportunities for medical students interested in a career in   |
|  | radiology or surgery, or for those who would like to learn about direct   |
|  | opportunities in the vascular and interventional radiology field. Interventional  |
|  | radiology revolutionizes medicine through the use of image-guided, minimally  |
|  | invasive therapeutics. Innovations such as angioplasty and the catheter-delivered   |
|  | stent, allowed for minimally invasive treatment of peripheral arterial disease over   |
|  | thirty years ago. Since then interventional radiologists have continued to discover   |
|  | new and effective means to target a variety of disease states, including thermal  |
|  | ablation for cancer treatment and carotid artery angioplasty and stenting to  |
|  | prevent stroke. VIR is a unique surgical field with a large emphasis on patient management and continuity of care. We will facilitate conversations amongst   |
|  | students but also with practicing interventional radiologists to discuss  |
|  | mentorship, and shadowing and research opportunities. We hope to create   |
|  | avenues through which interested students can connect with West Texas   |
|  | radiology specialists. The interest group will also serve to advise students  |
| Advisor: Dr. Dixon Santana                             | interested in interventional radiology in the clerkship and residency process. By   |
| President: David Archer                                | providing access to MS4 and resident panel type of lunch discussions centered on  |
| david.archer@ttuhsc.edu                                | the process of pursuing interventional radiology as a specialty option.   |
| Latino Medical Student                                 | The LMSA mission is the following: The Latino Medical Student Association unites  |
| Association-LMSA                                       | and empowers medical students through service, mentorship, and education to   |
|  | advocate for the health of the Latino community. The primary purposes are as  |
|  | follows: 1) foster close ties among students and medical professionals through  |
|  | networking events; 2) networking with other organizations at the local and  |
|  | national levels to achieve common objectives; 3) community involvement for the  |
|  | purposes of strengthening working relationships with community groups with the overall aim of benefitting the community; 4) educate and sensitize the medical |
| Advisor: Dr. Kim Peck                                  | community to the specific needs of the Latino community; and 5) support and   |
| President: Karla Samaniego                             | encourage prospective health professions school applicants throughout the   |
| karla.samanego@ttuhsc.edu                              | admission process.  |
| Lubbock City Lights-LCL                                | The purpose of Lubbock City Lights is a philanthropic club that will hold 1 major   |
