# **Breakout Session Descriptions**

## ***Graduate School of Biomedical Sciences***

The GSBS has four graduate programs offering MS, MD/MS, PhD, and MD/PhD in Biotechnology (MS only), Biomedical Sciences, Pharmaceutical Sciences, and Public Health (MS only) with research opportunities in Abilene, Amarillo, El Paso and Lubbock.

## ***School of Health Professions***

### **School of Health Professions – General Overview**

We offer 20 different programs across five discipline areas, all leading directly to careers in critical segments of the health care industry.

### **Speech, Language & Hearing Sciences**

Programs covered: Speech, Language, and Hearing Sciences (SLHS), Speech-Language Pathology (SLP), and Audiology (AuD).

Programs that focus on the science of human communication, and careers that help patients with swallowing, speech, hearing, and balance disorders. This session will include a tour of the labs and clinics for these programs.

### **Rehabilitation Sciences**

Programs covered: Athletic Training (AT), Occupational Therapy (OT), and Physical Therapy (PT).

Careers that focus on helping patients achieve optimal functioning, whether it be injury prevention for athletes, helping individuals participate in meaningful daily activities, or preserving, improving, and restoring physical movement and function to patients from all ages and backgrounds. This session will include a tour of the labs within Rehabilitation Sciences.

### **Laboratory Sciences & Primary Care**

Programs covered: Physician Assistant (PA), Clinical Laboratory Science (CLS), and Molecular Pathology (MP).

The PA profession has been named by top media outlets (Forbes & USA Today) as the most promising job in America. The CLS and MP professions are at the forefront of healthcare, focused on precision medicine and providing critical diagnostic information that is vital to the treatment of patients across the healthcare spectrum. This session will include a tour of the MP lab.

## ***School of Health Professions continued***

### **Clinical Counseling & Mental Health**

Programs covered: Addiction Counseling, Clinical Mental Health Counseling, Clinical Rehabilitation Counseling

These online, CACREP accredited programs allow graduates to pursue certification as a Nationally Certified Counselor (NCC), and be eligible to apply for licensure as a Licensed Professional Counselor (LPC) in many states.

### **Healthcare Management & Leadership**

Programs covered: Healthcare Management (B.S.), Healthcare Administration (M.S.)

With the increasing demand for healthcare services, the need for managers and executives to oversee the provision of these services is increasing. These online programs provide a convenient way for working professionals to advance their education and develop professionally.

## ***School of Medicine***

### **How to Be a Competitive Applicant**

Hear from the School of Medicine Office of Admissions, about the process of applying and becoming a competitive applicant. Additionally, we will discuss curriculum and how our unique structure benefits our medical students.

### **Joint Admission Medical Program (JAMP):**

The Joint Admission Medical Program (JAMP) is a special program created by the Texas Legislature to support and encourage highly qualified, economically disadvantaged Texas resident students pursuing a medical education.

### **Insider/Student Panel:**

This will be a session that you will be able to hear first-hand, from a panel of current medical students. Format will be Question/Answer.

## ***School of Nursing***

The TTUHSC School of Nursing has educated nurses, strengthened the careers of experienced nurses, and prepared innovative nurses to become leaders in Healthcare. As the only nursing school in West Texas to offer bachelor's, master's and doctoral education in a variety of learning formats, we consider it our mission to address the critical nursing shortage in West Texas and across our nation. Discover how you can channel your passion for helping and serving others into a mission-driven career in nursing.

## ***School of Pharmacy***

### **What All Can a Pharmacist Do? More Than You Think!**

Do pharmacists only count pills and put them in a bottle? Do they just stand behind a counter all day? Not at all! Pharmacists are experts in drug therapy who work in pharmacies in many health care settings, not just in pharmacies but in hospitals, clinics and many other places. While they do oversee the preparation and dispensing of medication, they have many other roles. They work directly with other health professionals to help ensure safe and appropriate therapy, and also can work directly with patients to manage medical conditions. They are caring, trustworthy and the most accessible member of the healthcare team! Come to this session to learn more about the career paths of pharmacy and see if you're a good fit to be a future pharmacist!

### **Let's Go to Pharmacy School!**

Are you interested in pharmacy school but you have no idea where to begin? Come learn about the steps you can take NOW to get started on your path to pharmacy. We will discuss ways to gain experience, what courses you should plan to take in college and the application process. BONUS – a bachelor's degree is NOT required!

## ***Institutional Offices***

### **Financial Aid:**

A breakdown of the cost of attending schools at TTUHSC and information about possible ways to pay for your education.
