# **Breakout Session Descriptions**

## ***Graduate School of Biomedical Sciences***

### **Graduate Medical Education Sciences: Med School Prep and You**

Designed for students whose goal is a teaching career in medical education, or who need additional prep for medical school, students take courses with first-year medical students, and participate as teaching assistants. Students take courses in the anatomical and physiological sciences with the first-year medical students and in modern instructional methods and design, and will participate in the teaching mission of the medical school as teaching assistants, aiding in our abilities to spread positive, advanced health care to communities in west Texas and across the world.

### **Welcome to Your Future: Application Tips & Best Practices**

At the Graduate School of Biomedical Sciences, we are educating the next generation of scientists and health-related professionals in a dynamic, diverse and productive research environment that fosters creativity and discovery. Learn more about the programs we offer, and best practices and tips for applications!

## ***Jerry H. Hodge School of Pharmacy***

### **What All Can a Pharmacist Do? More Than You Think!**

Do pharmacists only count pills and put them in a bottle? Do they just stand behind a counter all day? Not at all! Pharmacists are experts in drug therapy who work in pharmacies in many health care settings, not just in pharmacies but in hospitals, clinics and many other places. While they do oversee the preparation and dispensing of medication, they have many other roles. They work directly with other health professionals to help ensure safe and appropriate therapy, and also can work directly with patients to manage medical conditions. They are caring, trustworthy and the most accessible member of the healthcare team! Come to this session to learn more about the career paths of pharmacy and see if you're a good fit to be a future pharmacist!

### **Let's Go to Pharmacy School!**

Are you interested in pharmacy school but you have no idea where to begin? Come learn about the steps you can take NOW to get started on your path to pharmacy. We will discuss ways to gain experience, what courses you should plan to take in college and the application process. BONUS – a bachelor's degree is NOT required!

## ***Julia Jones Matthews School of Population and Public Health***

### **What is Population and Public Health?**

The Julia Jones Matthews School of Population and Public Health is the sixth and newest school at the TTUHSC. Come discover what population and public health is and what you can do with this versatile degree.

## ***School of Health Professions***

### **School of Health Professions Overview**

We offer 20 different programs, all leading directly to careers critical to the healthcare industry. Programs include – Physician Assistant (PA), Physical Therapy (PT), Occupational Therapy (OT), Medical Laboratory Science (Pre-Med Option), Athletic Training, Clinical Counseling & Mental Health, Healthcare Administration, Speech-Language Pathology, Audiology, Molecular Pathology, and more! Come and learn more about your future in health care.

## ***School of Medicine***

### **How to Be a Competitive Applicant**

Hear from the School of Medicine Office of Admissions, about the process of applying and becoming a competitive applicant. Additionally, we will discuss curriculum and how our unique structure benefits our medical students.

### **Joint Admission Medical Program (JAMP):**

The Joint Admission Medical Program (JAMP) is a special program created by the Texas Legislature to support and encourage highly qualified, economically disadvantaged Texas resident students pursuing a medical education.

### **How Outreach Programs Help in the Journey to Medical School:**

Join us on a step by step guide on your journey from high school to medical school. Learn about our outreach programs you can participate in throughout your journey.

### **Medical Student Panel:**

This will be a session that you will be able to hear first-hand, from a panel of current medical students. Format will be Question/Answer.

## ***School of Nursing***

### **How to Save a Life: A Day in the Life of a Nurse**

Want to get a glimpse into the life of a nurse? Look no further! TTUHSC School of Nursing students will show you life-saving measures used by nurses every day to serve their patients.

### **Nursing Admissions 101: Basics to Becoming a Red Raider Nurse**

No matter where you are in your nursing journey, we have a path for you to become a Red Raider Nurse! Come learn more about our Traditional BSN, Accelerated BSN, and RN to BSN programs from our School of Nursing Admissions Coaches to help you decide which pathway is right for you.
