Events at the Library of the Health Sciences at Permian Basin

The Library of the Health Sciences at the Permian Basin has two fun events to celebrate the fall, so please stop by and...

- “How Many Snoopys Can You Find?": We have hidden Snoopys throughout the Library – Stop by to count then and enter to win a Starbucks gift care. Please note – Those who find the exact number will be entered into a random drawing.

Cybersecurity Awareness Month

October is Cybersecurity Awareness Month! The theme this year is “If you Connect it, Protect, it,” which is certainly in line with the message that we’ve been sharing for the last year. More than ever before, connected devices have been woven into society as an integral part of how people communicate and access services essential for daily living. Data collected from these devices can detail highly specific information about a person or business which can be exploited by bad actors for their personal gain. TTUHSC is registered as a participant group with the National Cyber Security Alliance and we support their efforts during Cybersecurity Awareness Month to shed light on security vulnerabilities, while offering guidance surrounding simple security measures to limit the susceptibility of threats for commonly used devices.

IGNITE! Allyship is Not an Identity; It's a Practice!

TTU's Office of LGBTQIA Education & Engagement will host an IGNITE! session for the TTUHSC community on Wednesday, November 11th. Students, faculty and staff are invited to participate. This session focuses on foundational information relevant to the LGBTQIA community, with an emphasis on cultural competence, structural competence and methods for putting Allyship into practice. Participants will learn about the LGBTQIA communities and practices of Allyship. This is the primary introductory session offered within the IGNITE! Program.

Please RSVP at <https://ttuhsc.campuslabs.com/engage/event/6481452>. Contact diversity@ttuhsc.edu if you have any questions.
