Memorial Day

All TTUHSC Offices and Clinics will be closed on Monday, May 31st in observance of Memorial Day.

TTUHSC Libraries Closed for Holiday

The TTUHSC Libraries in Amarillo, Odessa, and Lubbock will be closed on Monday, May 31, 2021 for the Memorial Day holiday. Regular library hours will resume on Tuesday, June 1, 2021. Have a safe and pleasant holiday!

Important Electrical Loss Notice & Information

Over the weekend of May 29th and May 30th LP&L will be transitioning power providers. This transition will require a full shut down of various substations causing power loss throughout Lubbock. These outages require closure of facilities for each corresponding day.

Go to the following webpage for information and required actions based upon area.
<https://hscweb.ttuhsu.edu/it/ercot/>

Interlibrary Loan (ILL) Requests

The TTUHSC Libraries has a new interlibrary loan (ILL) system for requesting items that are not available through the library. Students will be able to place, renew, and check on the status of their ILL requests. First time users will need to create an ILL account by logging in with their HSC eRaider. Be sure to select your affiliated school. All ILLs for students are free.

New Website for TTUHSC Students

Hey students! Check out the new TTUHSC website created for you: www.ttuhsc.edu/live-well. This website is part of Well Beyond, the TTUHSC Quality Enhancement Plan (QEP) created to promote your well-being across 8 wellness dimensions. Initially, your emotional wellness will be the focus of the website; later, you will find things to help you strengthen and balance your well-being across all the dimensions. Also, since this website is for you, we want your ideas concerning how to make it the best it can be for you. You can submit your idea(s) here: <https://tinyurl.com/48n2rydt>.

IPE Summer Escape Room Challenge - Lubbock Campus

The Office of Interprofessional Education will be hosting a fun and engaging Escape Room this summer for Lubbock campus students. This beginner escape room is an adventurous way for new students to meet others across our various healthcare professions, improve interprofessional teamwork and communication, and collaborate together to solve puzzles that will ultimately lead to a discharge plan in a simulated patient case.

To escape the room, interprofessional teams of students will work together to solve an introductory clinical case and then discuss the teamwork and communication skills used. At least two professions must be represented on each team. Teams will have one hour to complete the challenge. Following the completion of the challenge or at the end of the hour, a debrief will take place allowing teams to discuss their escape room experience and evaluate their teams performance. Registered participants who complete the Escape Room challenge will receive a certificate that can be given to their program directors for IPE graduation credit.

IPE Summer Escape registration is open at <https://bit.ly/IPE-EscapeRoom>. For more information, or if you have questions, please contact the Office of Interprofessional Education at ipe@ttuhsc.edu or call us at (806)743-2028.

Resiliency in Interprofessional Teamwork

Healthcare is a high-stress and high-intensity profession where change is constant. With today's global uncertainty, resiliency, grit, and an understanding of emotional wellness are critical not only for individual success but team success as well.

Resiliency in Interprofessional Teamwork, hosted by the Office of Interprofessional Education on June 23rd, will focus on strategies to increase resiliency for individuals and teams in challenging situations, identifying ways to adapt to an ever-changing environment. The event is open to all students, faculty, and staff. Register for the event here at <https://tinyurl.com/4n94x4xv>. Registration deadline is June 15th.

Registration Now Open - Shatter the Stigma

Registration is now open for **Shatter the Stigma: An Interprofessional Simulation with Standardized Patients**. The registered IPE event will be held on Friday, July 23, 2021, from 9:00 am - 12:30 pm and is open to all students, faculty, and staff. Registration for the event will be open through July 16, 2021.

Substance use disorders are associated with discrimination and social disapproval - more so than any other medical condition. Many patients with Opioid Use Disorder (OUD), have a high likelihood of readmission, with the root cause of their healthcare needs unmet. Left untreated, thousands of deaths occur every year, impacting the lives of those around them as well.

Join Lucas Hill, PharmD, BCPS, BCACP, in a keynote that addresses the importance of meeting patients where they are in an effort to reduce the harm of stigmas in healthcare today. Following the keynote, Zach Sneed, PhD, LCDC, CRC will discuss patient interviewing strategies to destigmatizing substance use disorders.

Interested participants can register through Eventbrite at:
