But first, FAFSA

We’ll let you get back to studying. But first, FAFSA.

The 2020-21 FAFSA form is available—and now you can easily fill it out right from your phone. So please, before you hit the books, head off to clinicals, or settle in to watch your favorite shows, fill out the FAFSA form to apply for all types of financial aid such as these:

- Federal grants
- Federal student loans
- State loans
- State grants
- Institutional scholarships (all HSC schools require a FAFSA to be completed as part of their scholarship applications)
- Grants and scholarships from other organizations

If you don’t fill out the FAFSA form, you could be missing out on valuable financial aid. The 2020-2021 FAFSA will be used to offer financial aid for the summer 2020, fall 2020 and spring 2021 TTUHSC semesters. Every year, there are a number of reasons students think they shouldn’t complete the FAFSA form; however, the reality is that EVERYONE who’s going to college should fill it out. So, are you ready to get started?

To fill out the FAFSA form, simply:

- download the myStudentAid mobile app (iOS or Android) and fill it out on a mobile device
- OR
- visit fafsa.gov and fill it out on a computer or mobile device

**Mental Health First Aid - Free Student Training**

University students have unique stress and risk factors related to the demands of school: balancing academic, social, and employment responsibilities while being independent and away from family, friends, and other supports — often for the first time. Statistics show that 75% of mental illnesses develop before age 25, making colleges ideal locations for early identification. However, the number one reason students say they do not use mental health resources is lack of knowledge that those resources even exist. Mental Health First Aid USA is a training — like regular First Aid or CPR — designed to give people the skills to help someone who is developing a mental health problem or experiencing a mental health crisis. The course uses role-playing and simulations to demonstrate how to recognize and respond to the warning signs of specific illnesses. Students who successfully complete the training will earn a certification in Mental Health First Aid that is recognized nationally and internationally. Please note, students are required to attend the full training in order to earn the certification.
